Bachelor of Science
ANTHROPOLOGY

HOME OF THE *WARRIORS*

WHY CHOOSE A&M-CENTRAL TEXAS?

The Bachelor of Science in Anthropology at Texas A&M University-Central Texas prepares students for varied careers or graduate school through the holistic study of human populations and cultures in the past and present. Our program develops skills such as using an anthropological perspective to understand the diversity of practices, worldviews, and beliefs found within different cultures in a global setting.

Subfields include cultural anthropology, biological anthropology, archaeology, and linguistics. Other areas of research are a part of these broad categories, such as historical archaeology, forensic anthropology, bioarchaeology, and human osteology.

GRADUATES GAIN: Real-world Marketable Skills

Bachelor of Science in Anthropology graduate will gain:

- Knowledge of the social, cultural, and historical development of global communities and nations, and the challenges they face.
- Analytical thinking skills regarding historical, biological, linguistic and cultural perspectives.
- A strong foundation for cultural resource management, healthcare, forensics, or community development professions.
