

Barbeque Grill Safety Tips

Barbeque Grill Safety Tips

Every year, thousands of burn injuries result from the careless use of outdoor grills. These injuries occur primarily because of the use of unapproved lighter/starter fluids or gasoline and the misuse of approved fluids.

These injuries are preventable!

Barbeque Grill Safety Tips

Charcoal Grills

- **NEVER** use gasoline as a starter fluid or accelerant for charcoal grills.
- **ALWAYS** use an approved lighter/starter fluid for charcoal grills.

Always follow the manufacturer's instructions that accompany the grill.

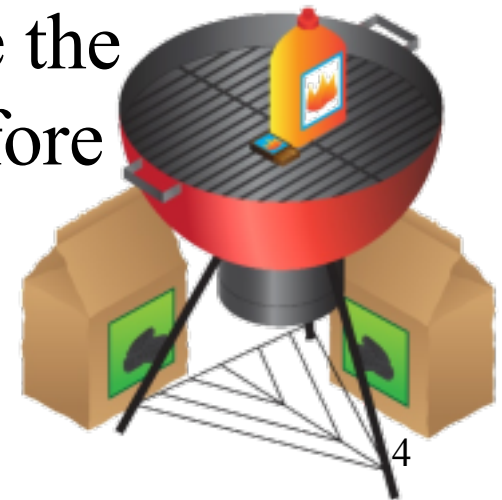

Barbeque Grill Safety Tips

Charcoal Grills

- After soaking your coals with lighter/starter fluid, wait for about one minute before lighting the coals. This allows the heavy concentration of explosive vapors to disperse.
- When using lighter/starter fluid, place the container well away from the grill before attempting to light the coals.

Barbeque Grill Safety Tips

Charcoal Grills

- Be careful not to spill any fluid on your clothing or in the area surrounding the grill.
- Wear an insulated, fire retardant barbecue mitt when lighting pre-soaked coals.
- Never add lighter/starter fluid to hot or even warm coals. An explosion can result.

Barbeque Grill Safety Tips

Propane Gas Grills

- When using a gas grill, check all connections leading from the fuel source to the inlet connection of the grill for leaks.
- Never use a match, candle, or flame source to check for a gas leak.

Always follow the manufacturer's instructions that accompany the grill.

Barbeque Grill Safety Tips

Propane Gas Grills

- Open the valve only a quarter to one-half turn before lighting.
- Always shut off the valve to a fuel source when it is not in use.

Barbeque Grill Safety Tips

Propane Gas Grills

- Never start a gas grill with the lid of the grill closed. The propane may accumulate inside, and when ignited, could blow the lid off, causing injury.
- Periodically, clean the grill. Use the manufacturer's instructions for cleaning.

Barbeque Grill Safety Tips

Propane Gas Grills

- Have a fire extinguisher located in the grilling area.
- Store full or empty propane tanks in a well-ventilated shed away from any habitable structures.
- Store propane tanks away from potential sources of flame such as furnaces, water heaters or any appliance with a pilot light.

Barbeque Grill Safety Tips

- Wear tight-fitting or short-sleeved clothing while cooking on a grill.
- Keep children and pets away from grilling areas at all times.
