

WE ARE WARRIORS

STUDY ABROAD

VIETNAM

Join us as we recreate the experiences of Americans arriving in Saigon in the early 1960s. As we experience significant historic sites, tours, and lectures, we will explore the indigenous - including the Mekong Delta; the colonial - including the Chinese and French imprints which remain today; the turbulent - the arrival of war, including the Japanese, French, and Americans; and, the modern - as Ho Chi Minh City is one of the most dynamic cities in the world today.
