COURSE REQUIREMENTS

Course Requirements

A syllabus serves as an instructional and study planning document for both faculty and students. Although every effort will be taken to complete the semester according to the syllabus, it may become necessary to make certain changes to facilitate the academic environment better. In such an event, changes will be announced within one week of the change decision in the Canvas classroom. Changes may be made within the last two weeks of the semester only in exceptional circumstances. Conflicts between Canvas and the syllabus will be resolved according to syllabus requirements. Following is a description of the major course assignments as well as other components that make up the total grade for this course.

Professional Etiquette

Students are expected to embody professionalism to include the following: **Demeanor** – polite and well-spoken, demonstrating tact, respect, compassion, appreciation, inclusive, mature - not rude, belligerent, arrogant, or aggressive; **Reliable** – follow through on tasks in a timely manner, communicate unanticipated events; **Competent** – commit to learning and applying content from the course, act in a responsible manner and practice sound judgement, seek assistance when appropriate; **Ethical** – honest and trustworthy; **Equality** – refrain from giving or seeking preferential treatment unless supported by the office of Student Success, adhere to published policies of the university, seek assistance or clarification when appropriate. A student who violates professional etiquette in a manner that is egregious (as determined by the instructor) may result in a failing grade for the course. A less severe penalty may be assigned by the instructor depending on the circumstances of the situation.

About Discussions and Activities

Students are expected to be prepared each week by completing the assigned readings before due dates as posted in the course schedule.

Discussions: 100 points

Discussions are a critical part of the learning design and are intended to provide an opportunity for student-to-student discussion of required readings as well as to help students prepare for **exams 1-3**. Discussions are intended to facilitate students' creation of knowledge through applying learned content, asking clarifying questions, contributing personal representation of concepts and ideas, and engaging in analysis, evaluation, and synthesis of multiple perspectives.

When completing discussion, be sure to read the directions provided with the discussion in Canvas, because some directions are different from what is listed in the textbook. You may want to complete exercises related to the week's chapter during the week we are reading that chapter. However, you need to watch the schedule to ensure all initial responses submitted by Sunday of the required submission week. You have until Sunday of the closing week to complete follow-up responses. In your approach to discussions, it may be easier to finish the follow-up responses the weekend after initial responses are due since it will still be fresh from the readings.

Initial response expectations. You are required to post one initial response *to each topic listed*. This is your response to the exercise. Keep in mind, initial responses are due at a time that allows students to work ahead if they want. However, students posting initial responses late will incur a late penalty, but you can still post late. This is to ensure students who need/want to work earlier in the course schedule have someone else to "discuss" the topics with for posting follow-up responses. However, the discussion is open for several weeks to allow you to come back when it is convenient for you. Keep in mind, discussions are student-to-student discussions that require other students to "discuss with." Therefore, no late postings will be accepted for course credit after the discussion closes. Please note the discussion closing date in the course schedule. All closing dates are on Sunday, except the last discussion, which closes on Friday - the last day of class.

Follow-up response expectations. Discussions require you to provide at least 2 total follow-up responses. Unlike initial responses, the follow-up responses can focus on one or two topics that most interest you. However, when responding to students in discussions, be sure that your responses contribute to the discussion in a meaningful way. While responses to classmates can take a conversational tone, the comment should go beyond the summary of "I agree." Students whose posts are insufficient in quality or quantity, or late will receive point deductions.

Submitting your responses. To submit an initial post, click on the link provided in the module for the week the discussion is open. This link will take you to the discussion board. Each topic within the discussion **requires a separate post**. Be sure to label your response with an appropriate title heading so that you receive full credit for your initial submission. For example, RobertT DISCUSSION 1:1 or something similar.

Please note: Professional etiquette is required at all times.

Grading Criteria: Discussions

- Initial Responses: 45% (11.25 points) Provided initial responses to all required topics. Overall initial responses were complete, demonstrated understanding and comprehension of concepts. Answers were thorough and demonstrated an understanding of the assigned reading material.
- Responses to Classmates: 45% (11.25 points) Actively participated in the discussion met the minimum required responses to classmates in quantity and quality. Minimum responses should add to the conversation beyond "good point" or "I agree." Responses are intended to be conversational, but well written and add value.
- Timeliness and Academic Writing Style: 10% (2.5 points) Met expectations for active and timely responses. Writing quality was adequate with good sentence structure, spelling, effective word choice. APA formatting of citations was provided. Links to outside sources or APA formatted reference provided for sources other than the required textbook.

Instructor Policies Related to Absence, Grading, etc.

Late assignments

All discussions and activities are due on the date designated on the syllabus course schedule unless otherwise posted in the classroom announcements. In some situations, an alternate due date can be arranged for assignments before the due date, except items due in week 16. **A ten percent penalty will be assessed for late assignments. Assignments that are late will not be accepted more than three days late without written documentation of an emergency or unavoidable unplanned event.**

All late assignments should be uploaded to the Canvas classroom. Contributions to discussions will not be accepted after the discussion closes, because it is dependent on the interaction of other students. Students with written documentation supporting an emergency or unplanned event may contact me for an alternate assignment of equal value and work related to each missed discussion. It is your responsibility to contact me and request the alternate assignment at the time you return to the virtual class.

Plagiarism

Students whose assignment contains plagiarized information, i.e., failing to cite and reference the information source in properly applying APA formatting to citations and references, will receive a 0 for the assignment and likely a referral to Student Affairs. However, I reserve the right to reduce the penalty if I believe plagiarism was unintentional or very minor in impact. Students whose assignment contains inadequate effort will receive a substantial deduction in points, i.e., a citation that does not include the author and date in the citation or a reference missing the majority of the required information.

The operation of the online course and being an online student

Students' learning experiences will be largely impacted by interaction with the instructor and other students as part of a learning community. Therefore, by registering for a Web-based course, you have made a commitment to participate in your course discussions as well as other online activities. Plan to participate regularly.

Keep in mind that this course is a full sixteen-week course

- The Canvas class begins on Monday and concludes on Sunday. Each week includes practices quizzes, discussions and activities supporting assignments and exams.

- I suggest briefly reviewing the discussion and assignment descriptions due in the current period before you complete the required reading assignments and view multimedia.
- Read assigned readings and provide your initial response to the topics as soon as the discussion opens. Then, go back and follow-up with other student postings. Remember this is a discussion. So, plan time to read other students' posts.
- Begin developing ideas for your assignment when you read the related chapter. Some students will complete assignments quickly, and others will take much longer. Please plan accordingly to ensure you do not encounter technical difficulties trying to submit an assignment to Canvas at the last minute.
- Complete quizzes and retake them to increase your score. Quizzes are typically open in advance and due by Sunday of their respective week. However, exams are only open the week they are due and close on Sunday at midnight. Remember the week for this course is Monday-Sunday. (These date arrangements have not been finalized. Please note that assignment due dates are listed in canvas and are the students responsibility.)
