COURSE DESCRIPTION

The thesis option is an exercise in independent research. Students are expected to develop a research proposal, defend it, and then execute their research plan. This is a two-part process, first is defending the proposal and then defending the complete thesis. The thesis itself is a document explaining (1) the purpose of the study, (2) what the current literature says about the topic of the thesis, (3) identify the gap in research the student proposes to fill with their research, (4) how the research was conducted, (5) discussion of findings, and (6) conclusion and limitations. Because this is an exercise in independent research students are guided through the research process, students do not receive any form of assistance with the actual research or data analysis. If a student is unable to complete the work successfully, independently, the student may be asked to opt out of thesis

No concessions will be made for students who intend to graduate by a specific semester, but are unable to successfully complete and defend their thesis in time to do so. Students should discuss graduation dates with their committee prior to and during the thesis process

REQUIRED TEXTBOOKS

No textbook required. In the course of researching their project for the course, students will read additional articles. Books and manuals are suggested as needed.

SUPPLEMENTARY MATERIALS

Students may receive additional reading and viewing materials throughout the semester to enhance, expand on, and aid in their research.

THE THESIS PROCESS

During the thesis process, students work closely with the thesis committee. The thesis committee is composed of 3 members, two from the criminal justice department and one outside member; this should be a faculty member from any other discipline relevant to your research.

Selecting Your Committee Members

Students must select two members from the criminal justice department and 1 member from outside the department. Students must contact all 3 members and ask that they serve on their thesis committee.

The following criminal justice faculty members eligible for thesis committee membership:

Dr. Floyd Berry, Dr. Tammy Bracewell, Dr. Christine Jones, Dr. Michele Quinones, Dr. Liana Taylor, and Dr. Lynn Greenwood.

Meetings with Your Committee

We will meet on campus, in person. Dates will be posted at the beginning of the semester. During these face-to-face meetings, we will review each other's progress and discuss any challenges and triumphs encountered along the way. In addition to the class meetings, you are encouraged to meet individually with all committee members throughout this process. Meetings should be scheduled with instructors individually. Try not to favor one instructor over the others; each instructor's input is valuable.

Committee Comments & Revisions

Students will receive committee member's comments in a prearranged format, either hard copy or digital. Committee members will comment on writing, organization, formatting, content, and methodology. Students may be required to seek the help of a writing tutor if writing needs improvement. Students have access to free tutoring through Tutor.com and TAMUCT. Students are expected to review the comments and make the corrections indicated by committee members. If there is a discrepancy between member's comments, it is up to the student to reach out to the committee about the discrepancy. Students are allowed two drafts per semester. Corrections on draft 1 must be made prior to submitting the second draft.

SUCCESSFULLY COMPLETING YOUR THESIS

Thesis Proposal Defense (1st semester)

In order to pass the first thesis course, the student must successfully defend the thesis *proposal*. At the end of the first course, committee members will meet to determine if you have passed or failed and whether you should advance to the second thesis course. Some projects require Institutional Review Board (IRB) approval. Depending on the source of your data, approval may take 4-8 weeks.

Timelines to consider:

Exempt projects: A minimum of 4 weeks must be provided for IRB review.

Expedited project: A minimum of 6 weeks must be provided for IRB review.

Full board review: A minimum of 8 weeks for IRB review must be provided.

For more information, please visit TAMUCT's IRB website

<https://www.tamuct.edu/departments/research/irb.php>

Thesis Defense (2nd semester)

In order to pass the second thesis course, the student must successfully defend their *thesis*. In order to pass you must defend your thesis before your committee and anyone else who would like to attend (thesis defenses are open to the public), however only your committee determines if you pass.

Completion

If you successfully defend your thesis, you must then submit the completed thesis to the graduate college where they review the thesis for proper formatting. It is important that you follow the

guidelines in the thesis manual (see, *Important Documents*). Neither the graduate college nor your committee members will help you with formatting. If the graduate college reviews the thesis and approves it, only then have you successfully completed your thesis.

IMPORTANT DOCUMENTS AND DEADLINES

Note that some of these forms are time sensitive. Students are responsible for submitting thesis paperwork to the graduate college on time. The deadlines for these forms are listed in the academic calendar and on the Office of Graduate Studies & Research's page.

July 31: Deadline for bindery-ready copies of theses to the Office of Graduate Studies and Research for Summer graduation.

PROPOSED COURSE OUTLINE AND CALENDAR

While you work independently, it often helps to have deadlines set to manage the thesis process. Below is the course outline and calendar I propose you follow. Keep in mind, some projects may require more semesters of thesis. It is up to you to calculate how much time you will need to complete your project by your intended graduation date. Here are some questions to consider:

- How do you intend to gather your data?
- How long will it take for you to obtain IRB approval? (some applications may require revisions, factor that in as well).
- If using secondary data, how long will it take to receive your data?
- If collecting data, how long will it take to collect your data?
- Depending on the form of analysis, how long will it take you to analyze your data?

Students should not expect to complete a project that requires full board review by the IRB in only two semesters. Additional semesters of coursework using the variable credit hour option for thesis courses should be considered. Plan accordingly.

Refer to the *Institutional Review Board (IRB) Guidelines and Procedures* document for details. Additionally, you must meet Office of Graduate Studies (OGS) deadlines. For those deadlines, see *Important Documents & Deadlines*.

A Note about Sexual Violence at A&M-Central Texas

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don't agree with their behaviors and tell survivors we will support them. Your actions matter. Don't be a bystander; be an agent of change. For additional information on campus policy and resources visit the [Title IX webpage](https://www.tamuct.edu/departments/compliance/titleix.php) [<https://www.tamuct.edu/departments/compliance/titleix.php>].
