COURSE REQUIREMENTS

Course Requirements

A syllabus serves as an instructional and study planning document for both faculty and students. Although every effort will be taken to complete the semester according to the syllabus, it may become necessary to make certain changes to better facilitate the academic environment. In such an event, changes will be announced within one week of the change decision in the Canvas classroom. Changes may be made within the last two weeks of the semester only in exceptional circumstances. Conflicts between Canvas and the syllabus will be resolved according to syllabus requirements. Following is a description of the major course assignments as well as other components that make up the total grade for this course.

Professional Etiquette

Students are expected to embody professionalism to include the following: **Demeanor** – polite and well-spoken, demonstrating tact, respect, compassion, appreciation, inclusive, mature - not rude, belligerent, arrogant, or aggressive; **Reliable** – follow through on tasks in a timely manner, communicate unanticipated events; **Competent** – commit to learning and applying content from the course, act in a responsible manner and practice sound judgement, seek assistance when appropriate; **Ethical** – honest and trustworthy; **Equality** – refrain from giving or seeking preferential treatment unless supported by the office of Student Success, adhere to published policies of the university, seek assistance or clarification when appropriate. A student who violates professional etiquette in a manner that is egregious (as determined by the instructor) may result in a failing grade for the course. I reserve the right to provide a less severe penalty depending on the circumstances of the situation.

Understanding of Course Design

This course design is distinctly different from MGMT 3302 – a traditional approach to learning content. MGMT 3302 sought to ensure students' understanding of foundational information related to the human resource management discipline. As a result, MGMT 3302 assessed students' learning through quizzes, exams, and short essays. Unlike MGMT 3302, this course uses an **active learning approach** to the course design. As a result, MGMT 4304 seeks to challenge students in learning and applying concepts learned in this course. This means you are expected to learn and apply skills unique – not taught in previous courses – to recruitment, selection, and placement of human resources for an organization.

About Discussions and Activities

Students are expected to be prepared each week by completing the assigned readings prior to due dates as posted in course schedule. For the purpose of this online course the week begins on Monday and concludes the following Sunday at midnight Texas time, CST. Readings, videos/audios, and chapter quizzes are due by Sunday. Most weeks have an activity related to assignments also due on Sunday.

Please note: Discussions and activities are interactive and time sensitive; therefore, contributions to discussions and activities will not be accepted after they close without written documentation of an unavoidable or unforeseeable event. Further: A student's behavior that is unprofessional and or violates netiquette expectations will receive a Canvas Inbox message from me and a 10% deduction on the course requirement. A 25% deduction per occurrence will be assessed on the course requirement thereafter. Online netiquette and in-person professional conduct is related to course outcome 6, and is required at all times.

Discussions: (4 @ 25 points each) 100 points total

Discussions are a critical part of the learning design and are intended to provide an opportunity for student-to-student discussion of required readings as well as to help prepare you for [exams 1-3](#). Discussions are intended to facilitate students' creation of knowledge through applying learned content, asking clarifying questions, contributing personal representation of concepts and ideas, and engaging in analysis, evaluation, and synthesis of multiple perspectives.

Discussion are based on exercises in the required textbook. When completing discussion, be sure to read the directions provided with discussion in Canvas, because some directions are different from what is listed in the text book. You may want to complete exercises related to the week's chapter during the week we are reading that chapter. However, you need to watch the schedule to ensure all initial responses submitted by Sunday of the required submission week. You have until Sunday of the closing week to complete follow-up responses. In your approach to discussions, it may be easier to finish the follow-up responses the weekend after initial responses are due, since it will still be fresh from the readings.

Initial responses. You are required to post one initial response *to each topic listed*. This is your response to the exercise. Keep in mind, initial responses are due at a time that allows students to work ahead if they want. However, students posting initial responses late will incur a late penalty, but you can still post late. This is to ensure students who need/want to work earlier in the course schedule have someone else to "discuss" the exercises with for posting follow-up responses. However, the discussion is open for several weeks to allow you to come back when it is convenient for you. Keep in mind, discussions are student-to-student discussions that require other students to "discuss with". Therefore, no late postings will be accepted for course credit after the discussion closes. Please note the discussion closing date in the course schedule. All closing dates are on Sunday, except the last discussion, which closes on Friday - the last day of class.

Follow-up responses. You are required to provide a minimum number of responses to other students for each discussion. Discussions #1 and #3 require you to provide at least 3 total follow-up responses: and Discussions #2 and #4 require at least 4 follow-up responses. Unlike initial responses, the follow-up responses can focus on one or two topics that most interest you. However, when responding to students in discussions, be sure that your responses contribute to the discussion in a meaningful way. While responses to classmates can take a conversational tone, the comment should go beyond the summary of "I agree". Students whose posts are insufficient in quality or quantity, or late will receive point deductions.

Submitting your posts. To submit an initial post, click on the link provided in the module for the week the discussion is open. This link will take you to the discussion board. Each topic within the discussion *requires a separate post*. You will see each topic listed as a separate point value in the course calendar. Be sure to label your response with an appropriate title heading so that you receive full credit for your initial submission. For example: RebeccaM DISCUSSION 1:1 or something similar. Please note: Professional etiquette is required at all times.

Discussions: Grading Criteria

- Initial Responses: 45% 11.25 points Provided initial responses to all required topics. Overall initial responses were complete, demonstrated understanding and comprehension of concepts. Answers were thorough and clearly demonstrated understanding of assigned reading material.
- Responses to Classmates: 45% 11.25 points Actively participated in the discussion met the minimum required responses to classmates in quantity and quality. Minimum responses should add to the conversation beyond “good point” or “I agree”. Responses are intended to be conversational, but well written and add value.
- Timeliness and Academic Writing Style: 10% 2.5 points Met expectations for active and timely responses. Writing quality was adequate with good sentence structure, spelling, effective word choice. APA formatting of citations was provided. Links to outside sources or APA formatted reference provided for sources other than the required textbook.

Assignment Activities (7 @ 5, 1@ 15, 2 @ 20 points) 90 points total

Activities are a critical part of learning and assignment completion. They are intended to provide an opportunity for student-to-student as well as student-to-instructor discussion of applied concepts. Activities are intended to facilitate students’ creation of knowledge through controlling the learning process in staged hands-on activities, contributing learner’s personal experiences, engaging in analysis, evaluation, and synthesis of multiple perspectives as well as engaging in collaborative assessment of learning.

Assignment activities are activities to help you complete your assignments. Assignment activities allow you to get feedback from other students as well as your instructor. These activities require at least 2 follow-up posts to other students, activity 1:1 and 2:1 are 5 points each, activity 1:3 – the peer review is 20 points. All other activities are 15 points each. It is in your best interest to actively engage other students and your instructor on these topics. You should think of these activities as mile markers toward completing assignments where you have ample opportunity to ask questions, assist other students, and share your own experiences (very conversational). Unlike Discussions 1-4, which focus on exercises from the text and span several weeks, assignment activities occur weekly with initial responses due and closing at the end of each week on Sunday. Three posts required for all activities except 1:1 (1 post), 1:3 (2 posts), and 2:1 (1 post).

Activity: Grading Criteria (1) 7 @ 5 points; (2) 1@ 15 points; (3) 2 @ 20 points

- Initial Responses: (1) 60% (3 points), (2) 100% (15 points), (3) 50% (10 points) Provided initial response to stated activity. Overall initial response was complete, demonstrated understanding and comprehension of concepts. Answers contributed to development of related assignment.

- Responses to Classmates: (1) 40% (2 points), (2) 0% (0 points), (3) 50% (10 points) Actively participated in the activity, met the minimum required responses to classmates in quantity and quality. Minimum responses should add to the conversation, be conversational in tone, and share your perspective.
- **No late submissions accepted for course credit.**

Instructor Policies Related to Absence, Grading, etc.

Late assignments

All discussions and activities are due on the date designated on the syllabus course schedule, unless otherwise posted in the classroom announcements. In some situations, an alternate due date can be arranged for assignments prior to the due date, with the exception of items due in week 16. **A ten percent penalty will be assessed for late assignments. Assignments that are late will not be accepted more than three days late without written documentation of an emergency or unavoidable unplanned event.**

All late assignments should be uploaded to the Canvas classroom. Contributions to discussions will not be accepted after the discussion closes, because it is dependent on the interaction of other students. Students with written documentation supporting an emergency or unplanned event may contact me for an alternate assignment of equal value and work related to each missed discussion. It is your responsibility to contact me and request the alternate assignment at the time you return to the virtual class.

Plagiarism

Students whose assignment contains plagiarized information, i.e. failing to cite and reference the information source in properly applying APA formatting to citations and references, will receive a 0 for the assignment and possibly a referral to Student Affairs. However, I reserve the right to reduce the penalty if I believe plagiarism was unintentional or very minor in impact. Students whose assignment contains inadequate effort will receive a substantial deduction in points, i.e. a citation that does not include the author and date in the citation or a reference missing the majority of the required information.

The operation of the online course and being an online student

Students' learning experiences will be largely impacted by interaction with the instructor and other students as part of a learning community. Therefore, by registering for a Web-based course, you have made a commitment to participate in your course discussions as well as other online activities. Plan to participate regularly.

Keep in mind that this course is a full sixteen-week course

- The Canvas class begins on Monday and concludes on Sunday. Each week includes practices quizzes, discussions and activities supporting assignments and exams.
- I suggest briefly reviewing the discussion and assignment descriptions due in the current period, before you complete required reading assignments and view multimedia.
- Read assigned readings and provide your initial response to the topics as soon as the discussion opens. Then, go back and follow-up with other student postings. Remember this is a discussion. So, plan time to read other students' posts.
- Begin developing ideas for your assignment when you read the related chapter. Some students will complete assignments quickly and others will take much longer. Please plan accordingly to ensure you do not encounter technical difficulties trying to submit an assignment to Canvas at the last minute.
- Complete quizzes and retake them to increase your score. Quizzes are typically open in advance and due by Sunday of their respective week. However, exams are only open the week they are due and close on Sunday midnight. Remember the week for this course is Monday-Sunday.

Dr. Rebecca's Personal Statement

I view myself as a scholar-practitioner, committed to both teaching and research in the human resource management (HRM) and human resource development (HRD) disciplines. I enjoy teaching adult learners, and I approach teaching as a shared learning experience. As a scholar, I choose projects that will contribute to existing scholarship, but also projects that will enhance my students' learning experiences or broaden my knowledge within my chosen disciplines.

My approach to students draws from my own life experiences as an adult working student with family responsibilities and those of close family members struggling in the academic environment with severe dyslexia. I believe each student is different in their capacity to handle stress, which comes from the multiple and conflicting demands of being a non-traditional adult student. Because I acknowledge students' disparate life demands and unique backgrounds, I try to partner with students to ensure appropriate support and access to educational resources is provided when needed facilitating both self-

efficacy and achievement. I have found that despite the heavy demands of adult non-traditional students' lives, the very nature of their demanding lives allows them to bring to the classroom a wealth of experience and knowledge that helps to shape the learning environment and enrich the learning experience of all involved – me included.

My approach to teaching and learning is student-focused, experience-based, and bridges academia with human resource practices in the workplace. This teaching approach is framed by the competency-based learning model, utilizes mixed teaching methodologies, and creates an interactive, outcomes-based learning experience. As the teacher and facilitator, I believe my role is to provide a challenging, well-designed learning environment that draws on students' life experiences, engages students in the educational content, and enables mastery of learning outcomes.

My background reflects a value for teaching and learning over the duration of my life course. I believe to be an effective teacher I must continue to be a learner. This means that I am committed to continuously increasing my knowledge in the HRM and HRD disciplines, maintaining professional certifications and memberships, participating in continuing education, as well as contributing to the research, theory, and practice in the HRM and HRD disciplines.

Have a wonderful summer break!
