

TEXAS A&M
UNIVERSITY
CENTRAL TEXAS

BUSI 3311 115 Business Statistics (CRN 60120)

Summer 2018
Online Section
4 June – 27 July 2018

Instructor: Dr. Rick Simmons

Office: Founder's Hall, 318A

Phone: 254-501-5842

Email: simmrick@tamuct.edu

Office Hours: I will be available through the Canvas Classroom at least 5 days per week. I will answer all questions within 24-36 hours of the posting time.

Access to the [Canvas classroom](https://tamuct.instructure.com/) is at: <https://tamuct.instructure.com/>

Access to the [Hawkes Learning classroom](https://learn.hawkeslearning.com/Portal/User/Login?ReturnUrl=%2fPortal) is through your Canvas classroom or at: <https://learn.hawkeslearning.com/Portal/User/Login?ReturnUrl=%2fPortal>

Emergency Warning System (911 Cellular)

Emergency Warning System for Texas A&M University – Central Texas

911Cellular is an emergency notification service that gives Texas A&M University-Central Texas the ability to communicate health and safety emergency information quickly via email, text message, and social media. All students are automatically enrolled in 911 Cellular through their myCT email account.

Connect at [911Cellular](https://portal.publicsafetycloud.net/Texas-AM-Central/alert-management) [<https://portal.publicsafetycloud.net/Texas-AM-Central/alert-management>] to change where you receive your alerts or to opt out. By staying enrolled in 911Cellular, university officials can quickly pass on safety-related information, regardless of your location.

Course General Information

Course Overview and description: Descriptive statistics and the foundations of inferential statistics, including statistical methods of sampling, classifying, analyzing, and presenting numerical data; frequency and sampling distributions, averages, dispersion, hypothesis testing and analyzing up to two populations and population proportions will be the focus of this course. Additionally, students will be introduced to ANOVA, correlations, regression and Chi-Square analyses. Prerequisite(s): MATH 1324 or higher.

Course Objective: The student will understand the foundations of statistics, by creating and interpreting basic statistical graphs and charts, calculating and interpreting measures of central tendency and variation, and basic probability, (Module 1), probability distributions (Module 2), and conducting and interpreting hypothesis tests (Module 3). Additionally the student will be able to apply the statistical foundations in beginning inferential statistics, which include comparing two populations or more populations, comparing two population proportions, comparing two variables or treatments for a single population, and relating two variables (Modules 3 and 4). The student will meet the course objective and the following student learning outcomes by using the statistical learning software, Hawkes Learning System (HLS), and by using Minitab

BUSI 3311 115 Business Statistics (CRN 60120)

statistical software. The purpose of HLS is to provide each student with an online learning environment in which the student is able to learn, master, and apply knowledge while working within a mastery-based pedagogical approach (Hawkes Learning Systems, n.d.). A link to the HLS student training video is available in the main menu, in the Canvas classroom. Each student will demonstrate mastery of each topic by achieving 80% on each assignment and each exam, as outlined in each module.

Module Goals

Module 1: Conduct and apply the statistical foundations (data, populations, samples, central tendency, measures of variation, and basic probability concepts), using statistical learning software, Minitab, Microsoft Excel, and calculators, achieving 80% on each homework assignment and each exam. The specific statistical foundations are found in SLOs: 2.21 – 2.232, 2.241, 2.243, 2.244 and may be found in sections 1.1 – 1.3, 2.1 – 2.6, 3.3 – 3.10, 4.1 – 4.2a, 4.3, 4.8, and 5.1 – 5.8a of the text book and in the Hawkes Learning Software (Ch 1 – 5).

Module 2: Conduct and interpret statistical methods for discrete and continuous probability distributions, sampling distributions, and estimating means and proportions, using statistical learning software, Minitab, Microsoft Excel, and calculators, achieving 80% on each homework assignment and each exam. The specific distributions and estimations are found in SLOs: 2.242 and may be found in 6.1 – 6.5 and 7.2 – 7.3b, and 8.1 – 8.4 of the textbook and in the Hawkes Learning Software (Ch 6 – 8).

Module 3: Conduct and interpret statistical methods of hypothesis testing for comparing means, proportions, and treatments, using statistical learning software, Minitab, Microsoft Excel, and calculators, achieving 80% on each homework assignment and each exam. The specific hypothesis methods and comparisons may be found in SLOs: 2.251 – 2.262 and may be found in 9.1 – 9.7, 10.1 – 10.7b, and 11.1 – 11.4 of the textbook and in the Hawkes Learning Software (Ch 9 – 11).

Module 4: Conduct and interpret statistical methods of hypothesis testing for comparing three or more means, or treatments (ANOVA). Conduct correlations of two variables or treatments, and relate two linear variables. Test the fit of multinomial probabilities and relate two categorical variables. Achieve 80% on each homework assignment and each exam, using statistical learning software, Minitab, Microsoft Excel, and calculators. The specific methods of testing and comparing three or more populations, correlating, relating continuous and categorical variables may be found in SLOs: 2.242, 2.271 – 2.282 and may be found in 12.2-12.4, 13.1 – 13.5, 13.8, 15.2 – 15.3 of the text book and in the Hawkes Learning Software (Ch 12, 13, 15).

Student Learning Outcomes (SLOs)

- 1.1 Demonstrate proficiency in reporting data numerically and graphically by achieving 80% on associated assignments and exams (Chapters 1 – 3).
- 2.1 Demonstrate proficiency in identifying and analyzing the following types and levels of data using appropriate statistical methods by achieving 80% on associated assignments and exams (Chapters 1 – 2).
 - 2.1.1 Identify and analyze qualitative (nominal, ordinal) data using appropriate statistical methods.

BUSI 3311 115 Business Statistics (CRN 60120)

- 2.2. Identify and analyze quantitative (continuous, discrete, interval, ratio) data using appropriate statistical methods.
- 3.1 Demonstrate proficiency in calculating the following descriptive statistics by achieving 80% on associated assignments and exams (Chapter 4).
 - 3.1. Identify and calculate descriptive statistics based on measures of central tendency.
 - 3.2. Identify and calculate descriptive statistics based on measures of variation.
- 4.1 Demonstrate proficiency in analyzing discrete and continuous probability distributions by achieving 80% on associated assignments and exams (Chapters 4 – 8, 15).
 - 4.1. Identify the properties of probabilities and calculate probabilities using the concepts of probability, in particular, sets and complements, addition rules, mutual exclusivity, multiplication of dependent and independent probabilities, conditional probabilities, and basic counting rules (including permutations and combinations).
 - 4.2. Calculate probabilities within binomial distributions, normal distributions, F-distributions, and chi-square distributions.
 - 4.3. Calculate probabilities for non-normal distributions using Chebyshev's Theorem.
 - 4.4. Calculate probabilities using the Empirical Formula and the Central Limit theorem.
- 5.1 Demonstrate understanding and proficiency in calculating confidence intervals, conducting hypothesis tests, and calculating p-values by achieving 80% on associated assignments and exams (Chapters 9 – 10).
 - 5.1. Calculate confidence intervals when the population standard deviation is known/unknown and for proportions.
 - 5.2. Conduct hypothesis testing when the population standard deviation is known/unknown and for proportions.
 - 5.3. Calculate p-values for all hypothesis tests.
- 6.1 Demonstrate proficiency in calculating inferential statistics (one or two populations) by achieving 80% on associated assignments and exams (Chapter 11).
 - 6.1. Compare means or proportions of two populations.
 - 6.2. Compare means of two treatments within one population.
- 7.1 Demonstrate proficiency in calculating inferential statistics (three or more populations and relationships) by achieving 80% on associated assignments and exams (Chapters 12 – 13).
 - 7.1. Compare means of three or more populations using analysis of variance (ANOVA).
 - 7.2. Correlate two variables or treatments using Pearson's Product Correlation.
 - 7.3. Relate two variables or treatments using simple linear regression.
- 8.1 Demonstrate proficiency in calculating inferential statistics (relationships of categorical variables) by achieving 80% on associated assignments and exams (Chapter 15).
 - 8.1. Test the fit of multinomial probabilities with categorical data (goodness of fit).
 - 8.2. Test the relationship of two or more categorical variables (tests of independence).

BUSI 3311 115 Business Statistics (CRN 60120)

Meeting the Course Objective and Student Learning Outcomes. In meeting the course objective and learning outcomes, students must:

- Familiarize themselves with the Hawkes Learning System and Minitab software.
- Select the student-training link and listen to the presentation for HLS. Read the Minitab documents (Meet Minitab) to familiarize with the software functions. These documents are found at the bottom of the main Learning Module page, in Canvas.
- Become familiar with Excel and the Excel tools provided in the Calculation Aids folder on the main Learning Module page (The link is on the main menu on the left side of the online classroom).
- Select and preview the lecture presentations and then listen to the recorded lectures (online and blended courses). Use the textbook as an additional reference for your understanding of the material presented in the lectures.
- Listen to any given appropriate assignment specific tutorial or Question and Answer.
- Complete the homework assignments. In completing the homework assignments follow the instructions given in this syllabus.

Required Textbook and Software

Text: Nottingham, Q. J. and Hawkes, J. S. (2013). *Discovering Business Statistics*. Charleston, SC: Hawkes Learning Systems. ISBN: Hardcopy w/Minitab software: 978-1-938891-02-1; Electronic Copy w/Minitab software: 978-1-938891-01-4.

NOTE: A student of this institution is not under any obligation to purchase a textbook from a university-affiliated bookstore. If you choose to use other sources to purchase the textbook, you must access the [Hawkes Learning Store](#) and purchase a separate student access code for your use during this course. Purchasing the textbook and software package either from the university bookstore or from Hawkes Learning System will ensure you have the most current software bundle. Post Script: Previous to FALL 2015, Minitab was not bundled with the textbook.

Hand held calculator. Must have square root key in addition to the basic functions of addition, subtraction, multiplication, and division – at a minimum. I do not provide instruction on the use of calculators.

MS Excel. Access to a computer with Microsoft EXCEL (you will use MS Excel).

Internet Access. Constant access to the internet is required to complete all assignments and exams. (It is your responsibility to ensure you have constant access to the internet).

All students are required to obtain the program: Minitab v. 18 or Minitab Express. The software is bundled with the textbook. You will need to take the Minitab access code to e-Academy On the Hub website using the following URL: <http://www.onthehub.com/Minitab>.

Recommended: Laptop computer, with Windows and MS Office suite. Only Minitab Express can be used on Apple operating systems. Please note: Minitab Express has a lower functionality than Minitab 18, but will

BUSI 3311 115 Business Statistics (CRN 60120)

meet all requirements of this course.

Please note: You will have to register with OnTheHub with your student email address in order for you to download the software (this could take 24-48 hours for OnTheHub to verify your email address).

Course Requirements and Structure

Online Course: This course is completely online and will be conducted in an asynchronous mode. The asynchronous mode does not require the students or the instructor to be online at any specified day or time. Daily work (including listening to the recorded lectures) is completed by the student according to the weekly schedule in this syllabus, but at a time that is convenient to the student. This mode does require the instructor to be available (online), at least 5 days a week, to answer questions. Students are responsible for ensuring constant access to the Internet and operability of their personal computers.

Course Classroom: The classroom will be in the Canvas Learning Management System (LMS) under this course's name and section number. Please refer all technical problems to the Canvas help desk; contact information is on the Canvas login page.

Login to A&M-Central Texas Canvas [<https://tamuct.instructure.com>].

Username: Your MyCT username (xx123 or everything before the "@" in your MyCT e-mail address)

Password: Your MyCT password

Technology Support: For login problems, students should contact Help Desk Central.

24 hours a day, 7 days a week:

Email: helpdesk@tamu.edu

Phone: (254) 519-5466

[Web Chat](http://hdc.tamu.edu): [<http://hdc.tamu.edu>]

Please let the support technician know you are an A&M-Central Texas student.

For issues with **Canvas**, select "chat with Canvas support," submit a support request to Canvas Tier 1, or call the Canvas support line: 1-844-757-0953, links to all are found inside of Canvas using the "Help" link.

Canvas Course Navigation: Please read the "Start Here" letter (in the Canvas classroom) and become familiar with the online classroom environment.

Canvas Discussions: Select Discussions from the menu found on the left side of the Canvas class home page. All discussions and questions will be placed in their respective topics for ease of understanding by all class members and the instructor. All entries are threaded so that you may easily see a question and the respective responses to that question. All class members are invited to fully participate in the discussions, assisting their class members when they are able. This means class members may answer questions if they know the answers. Please note discussions are not required as part of your grade but are highly encouraged

BUSI 3311 115 Business Statistics (CRN 60120)

for better understanding and clarification of the theory and in conducting calculations of specified problems within Hawkes Learning System. The instructor will always read each question and the respective answers to ensure correctness and accuracy. If the instructor is unable to effectively answer the question in the threaded discussions groups, the instructor may provide a recorded answer (similar to the recorded lectures) and post that recorded answer in the Recorded Q&A folder on the main Learning Module webpage, in Canvas

Lectures: All lectures are pre-recorded and can be found in the respective Module folder on the homepage of the Canvas classroom. Recommend you use either an external speaker system or a headset to listen to the lectures. All associated presentations are in Portable Document Format (.pdf) and are also located in the respective Module folder on the homepage of the Canvas classroom. Ensure you listen to the lectures according to the schedule at the end of this syllabus. The schedule is the minimum requirement; there is no penalty for working ahead. However, exams will be provided according to the schedule. In the respective Module, select the link for the recorded lecture. The lecture will automatically play.

Individual Participation: To ensure successful course completion, participation is expected. Participation is defined as actual work conducted in the HLS learning environment and in discussion threads in the Canvas classroom. Listening to lectures is required and will be in accordance with this syllabus. It is important for students to become familiar with HLS, as all work, quizzes, and exams will be conducted in HLS. Lectures are based on given sections within the text.

Access to Hawkes Learning System (HLS): Please select the link for Getting Started with HLS in the Getting Started menu in Canvas. Hawkes Course ID for business statistics is TAMUCTDBS. If you choose not to purchase a textbook, you will need to purchase the access code from the HLS website.

Note: HLS is designed to be used online. Students are responsible to have full internet access throughout this course, to ensure they are able to complete homework, quizzes, and exams.

Assignments: All assignments, quizzes, and exams will be accomplished through the Hawkes Learning System. HLS is a Web-based, artificially intelligent assessment and learning system. There will not be any “traditional” homework assignments, as each student will be required to complete work on the HLS system. In addition to exams students will be graded on the progress made through each chapter, in HLS. See Grade Computation below. Late assignments and exams will be reduced 20% for each day they are late.

Chapter Reviews: The graded portions of the homework assignments will be the chapter review for each of the chapters. Students are advised to work through the practice problems within the chapter review section of each required chapter, prior to certifying in the chapter. Homework feedback is provided automatically when completing the chapter review for a grade (also known as certifying). Students will be given a minimum of “3 strikes”. This means the student may miss up to three questions, before being sent back to practice. If the student is sent back to practice, the program will automatically go to the area in which the student is having problems. If the student successfully completes the certifying chapter review, the HLS grade book will be automatically updated.

BUSI 3311 115 Business Statistics (CRN 60120)

Calculations Aids: In addition to Minitab or Minitab Express, you will find MS Excel Spreadsheets available that will assist you in analyzing data used throughout this course. The aids are found in the Canvas Classroom in Module 0 by selecting the Modules link on the left-side menu.

Exams: There will be four objective exams administered during the semester as indicated on the course calendar. Exams represent the independent work of students. You will have two attempts to provide you the opportunity to improve your score. The highest score will be used. If you are satisfied with your grade on the first attempt, you are not required to take the second attempt. All exams will be HLS based and will be completed online. All students will be given minimum of 2 hours to complete 15-20 problems. All exams must be taken, as scheduled, to pass the course. HLS provides immediate feedback, upon completion of the exam. Reenter the exam to see the problems missed and a correct method of answering the problems.

NOTE: You will fail this course if you attempt to only take the exams and not complete the required online homework assignments.

Instructor Access: The instructor will be available during normal office hours, at class time, and online a minimum of 5 days a week and will answer all questions, either in the messages or discussions forums, within 24-36 hours of the question's posting date. Feedback for assignments and exams will be as written in paragraphs 4.7 and 4.8. Please ask all content related questions in the Discussion threads so that all students may benefit from both your questions and my response.

Grading Criteria

Grade Computation: Students earn their course grades by completing scheduled assignments; no extra credit assignments are given. To pass this course satisfactorily, students must complete each of the graded items listed below. Failure to complete appropriate assignments and exams may result in a failing grade. Refusal to complete homework assignments will result in a failing grade.

Grading Scale:

Grade	Percentage	Point Range
A	90- 100%	236.7 - 263
B	80-89.99%	210.4 – 236.6
C	70-79.99%	184.1 – 210.3
D	60-69.99%	157.8 – 184.0
F	59.99 % & below	0 – 157.7

BUSI 3311 115 Business Statistics (CRN 60120)

Final grades will be calculated as follows:

Assessment	Points	Percentage
Meet and Greet	3	1%
4 Exams (30 points each)	120	46%
14 Homework Assignments: Chapter Reviews (10 points each)	140	53%
TOTAL	263	100%

Course Schedule

COURSE OUTLINE AND ASSIGNMENTS			
WK	Class/Activity	Subject	Homework / Quiz / Exam Due Dates
1 4-10 Jun	Intro Lecture 1 (Ch 1-2) Lecture 2 (Ch 3)	Introduction to HLS/Minitab and Syllabus Statistics, Data Reality, and Problem Solving Organizing, Displaying, and Interpreting Data (Module Goal: 2.11)	Meet and Greet (10 Jun)
2 11-17 Jun	Lecture 3 (Ch 4.1 – 4.3) Lecture 4 (Ch 4.4, 4.5, 4.7, 4.8) Lecture 5 (Ch 5)	Numerical Descriptive Statistics (Module Goal: 2.11) Probability, Randomness, and Uncertainty (Module Goal: 2.11)	Ch 1, Ch 2, Ch 3 Reviews (17 Jun)
3 18-24 Jun	Lecture 6-7 (Ch 5) Lecture 8-9 (Ch 6)	Probability, Randomness, and Uncertainty (Module Goal: 2.11) Discrete Probability Distributions, Information about the Future (Module Goal: 2.12)	Ch 4, Ch 5 Review (24 Jun)
4 25 Jun – 1 July	Exam 1 Lecture 10 (Ch 7) Lecture 11 (Ch 8)	Exam1 (Lectures 1 – 7; Ch 1-5) Continuous Random Variables Sampling and Sampling	Exam 1 (25-26 Jun) Ch 6 Review (1 July)

BUSI 3311 115 Business Statistics (CRN 60120)

COURSE OUTLINE AND ASSIGNMENTS			
WK	Class/Activity	Subject	Homework / Quiz / Exam Due Dates
	Lecture 12-13 (Ch 9)	Distributions (Module Goal: 2.12) Estimating Means and Proportions: Single Samples (Module Goal: 2.13)	
5 2-8 July	Lecture 14-15 (Ch 10)	Hypothesis Testing: Single Samples (Module Goal: 2.13)	Ch 7, Ch 8 Review (8 July)
6 9-15 July	Exam 2 Lecture 16-18 (Ch 11)	Exam 2 (Lectures 8 – 11; Chs 6-8) Inferences about Means and Proportions: Two Samples (Module Goal: 2.13)	Exam 2 (9 - 10 July) Ch 9, Ch 10, Ch 11 Reviews (15 July)
7 16-22 July	Exam 3 Lecture 19 (Ch 12) Lecture 20 (Ch 13)	Exam 3 (Lectures 13 – 18; Chs 9-11) Analysis of Variance (ANOVA) (Module Goal: 2.14) Regression, Inference, and Model Building (Module Goal: 2.14)	Exam 3 (16-17 July) Ch 12, Review (22 July) Ch 13 Review (22 July)
8 24-27 July	Lecture 21 (Ch 15) Exam 4	Looking for Relationships in Qualitative Data (Module Goal: 2.14) Exam 4 (Lectures 19– 22; Chs 12, 13, 15)	Ch 15 Review (26 July) EXAM 4 (26-27 July)

BUSI 3311 115 Business Statistics (CRN 60120)

University Resources, Procedures, and Guidelines

Drop Policy: If you discover that you need to drop this class, you must complete a [Drop Request Form](https://www.tamuct.edu/registrar/docs/Drop_Request_Form.pdf) [https://www.tamuct.edu/registrar/docs/Drop_Request_Form.pdf].

Professors cannot drop students; this is always the responsibility of the student. The Registrar's Office will provide a deadline on the University Calendar for which the form must be completed, signed and returned. Once you return the signed form to the Registrar's Office, you must go into Warrior Web and confirm that you are no longer enrolled. If you still show as enrolled, FOLLOW-UP with the Registrar's Office immediately. You are to attend class until the procedure is complete to avoid penalty for absence. Should you miss the drop deadline or fail to follow the procedure, you will receive an F in the course, which may affect your financial aid and/or VA educational benefits.

Academic Integrity: Texas A&M University -Central Texas values the integrity of the academic enterprise and strives for the highest standards of academic conduct. A&M-Central Texas expects its students, faculty, and staff to support the adherence to high standards of personal and scholarly conduct to preserve the honor and integrity of the creative community. Academic integrity is defined as a commitment to honesty, trust, fairness, respect, and responsibility. Any deviation by students from this expectation may result in a failing grade for the assignment and potentially a failing grade for the course. Academic misconduct is any act that improperly affects a true and honest evaluation of a student's academic performance and includes, but is not limited to, cheating on an examination or other academic work, plagiarism and improper citation of sources, using another student's work, collusion, and the abuse of resource materials. All academic misconduct concerns will be reported to the university's Office of Student Conduct. Ignorance of the university's standards and expectations is never an excuse to act with a lack of integrity. When in doubt on collaboration, citation, or any issue, please contact your instructor before taking a course of action. More information can be found at [Academic Integrity](#).

In this course, any evidence of cheating or collusion will result in a grade of zero (0) for each affected assignment or exam and each participating student will be reported to the Office of Student Conduct.

Academic Accommodations: At Texas A&M University-Central Texas, we value an inclusive learning environment where every student has an equal chance to succeed and has the right to a barrier free education. The Department of Access and Inclusion is responsible for ensuring that students with a disability receive equal access to the University's programs, services and activities. If you believe you have a disability requiring reasonable accommodations please contact the Department of Access and Inclusion at (254) 501-5831. Any information you provide is private and confidential and will be treated as such.

For more information please visit our [Access & Inclusion](https://www.tamuct.edu/student-affairs/access-inclusion.html) webpage [https://www.tamuct.edu/student-affairs/access-inclusion.html].

Texas A&M University-Central Texas supports students who are pregnant and/or parenting. In accordance with

BUSI 3311 115 Business Statistics (CRN 60120)

requirements of Title IX and guidance from US Department of Education's Office of Civil Rights, the Dean of Student Affairs' Office can assist students who are pregnant and/or parenting in seeking accommodations related to pregnancy and/or parenting. For more information, please visit <https://www.tamuct.departments/index.php>. Students may also contact the institution's Title IX Coordinator. If you would like to read more about these [requirements and guidelines online](#), please visit the website [<http://www2.ed.gov/about/offices/list/ocr/docs/pregnancy.pdf>].

Tutoring: Tutoring is available to all A&M-Central Texas students, both on-campus and online. On-campus subjects tutored include Accounting, Advanced Math, Biology, Finance, Statistics, Mathematics, and Study Skills. Tutors are available at the Tutoring Center in Warrior Hall, Suite 111.

If you have a question regarding tutor schedules, need to schedule a tutoring session, are interested in becoming a tutor, or any other question, contact Academic Support Programs at 254-519-5796, or by emailing Larry Davis at Imdavis@tamuct.edu.

Chat live with a tutor 24/7 for almost any subject on your computer! Tutor.com is an online tutoring platform that enables A&M-Central Texas students to log-in and receive FREE online tutoring and writing support. This tool provides tutoring in over forty subject areas. Access Tutor.com through Canvas.

The University Writing Center: Located in 416 Warrior Hall, the University Writing Center (UWC) at Texas A&M University-Central Texas is a free workspace open to all TAMUCT students from 10am-5pm Monday-Thursday with satellite hours in the University Library on Mondays from 6:00-9:00pm. Students may arrange a one-on-one session with a trained and experienced writing tutor by visiting the UWC during normal operating hours (both half-hour and hour sessions are available) or by making an appointment via [WCOnline](#) [<https://tamuct.mywconline.com/>]. In addition, you can email Dr. Bruce Bowles Jr. at bruce.bowles@tamuct.edu to schedule an online tutoring session. Tutors are prepared to help writers of all levels and abilities at any stage of the writing process.

While tutors will not write, edit, or grade papers, they will assist students in developing more effective composing practices. By providing a practice audience for students' ideas and writing, our tutors highlight the ways in which they read and interpret students' texts, offering guidance and support throughout the various stages of the writing process. In addition, students may work independently in the UWC by checking out a laptop that runs the Microsoft Office suite and connects to WIFI, or by consulting our resources on writing, including all of the relevant style guides. Whether you need help brainstorming ideas, organizing an essay, proofreading, understanding proper citation practices, or just want a quiet place to work, the University Writing Center is here to help!

If you have any questions about the University Writing Center, please do not hesitate to contact Dr. Bruce Bowles Jr. at bruce.bowles@tamuct.edu.

University Library: The University Library provides many services in support of research across campus and at a distance. We offer over 200 electronic databases containing approximately 250,000 eBooks and 82,000 journals, in addition to the 72,000 items in our print collection, which can be mailed to students who live

BUSI 3311 115 Business Statistics (CRN 60120)

more than 50 miles from campus. Research guides for each subject taught at A&M-Central Texas are available through our website to help students navigate these resources. On-campus, the library offers technology including cameras, laptops, microphones, webcams, and digital sound recorders.

Research assistance from a librarian is also available twenty-four hours a day through our online chat service, and at the reference desk when the library is open. Research sessions can be scheduled for more comprehensive assistance, and may take place on Skype or in-person at the library. Assistance may cover many topics, including how to find articles in peer-reviewed journals, how to cite resources, and how to piece together research for written assignments.

Our 27,000-square-foot facility on the A&M-Central Texas main campus includes student lounges, private study rooms, group work spaces, computer labs, family areas suitable for all ages, and many other features. Services such as interlibrary loan, TexShare, binding, and laminating are available. The library frequently offers workshops, tours, readings, and other events. For more information, please visit our [Library website](https://tamuct.libguides.com/) [https://tamuct.libguides.com/].

A Note about Sexual Violence at A&M-Central Texas

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at A&M-Central Texas, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Counseling Services (254-501-5956) located on the second floor of Warrior Hall.

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don't agree with their behaviors and tell survivors we will support them. Your actions matter. Don't be a bystander; be an agent of change. For additional information on campus policy and resources visit the [Title IX webpage](https://www.tamuct.edu/departments/compliance/titleix.php) [https://www.tamuct.edu/departments/compliance/titleix.php].

Important University Dates:

June 2018

- **Fri, 1st** | Minimester ends
- **Fri, 1st** | Priority Deadline to Submit Graduation Application
- **Fri, 1st** | Tuition and Fee Payment Deadline (10-week, 8-week, 1st 5 week sessions)
- **Mon, 4th** | Class begins (1st 5 week, 10 week and 8 week)
- **Mon, 4th** | ADD/DROP/LATE REGISTRATION BEGINS (10-week, 8-week, & 1st 5-week sessions) (\$25 fee assessed for late registrants)
- **Thu, 7th** | Last day to drop 1st 5-week classes with no record
- **Mon, 11th** | Last day to drop 8-week classes with no record
- **Tue, 12th** | Last day to drop 10-week classes with no record

BUSI 3311 115 Business Statistics (CRN 60120)
