Required Reading and Textbook(s): *Intro to Interdisciplinary Studies*

Edition: 2nd ISBN: 9781506346892 By: Repko et al.

COURSE REQUIREMENTS

This course has five gradable components:

Reading Responses (80 points total):

There will be eight Reading Responses. Responses will be worth ten points each.

Reading Responses will ask students to engage, negotiate, and apply the course text to demonstrate an understanding of interdisciplinarity.

These responses will be graded more on the level of engagement with the text than on formal aspects of academic writing, but they should be written clearly and with the audience (your professor and classmates) in mind. Once we have discussed the elements of an academic paragraph and academic styles (MLA, APA etc.) the grading will reflect those expectations.

In-Class Quizzes (40 points total)

There will be eight in-class quizzes during the semester to assess whether students have read and understood the reading material. Each quiz will be worth 5 points

Quizzes will be given at the beginning of the class period.

If you are unable to attend class a make-up assignment will be due *before* the following class period and emailed via tamuct email to the instructor.

Mid-term Assignment (40 points):

The mid-term assignment will ask students to demonstrate how a particular problem can be addressed using an interdisciplinary approach. Students will create a poster that will identify, analyze, and critically evaluate at least two disciplinary insights and apply them to a real-world problem. Students will also be required to present their poster in class with a prepared explanation.

Annotated Bibliography (40 points):

The annotated bibliography will demonstrate the importance of disciplinary or naturally interdisciplinary perspectives to an interdisciplinary project.

Students will correctly annotate six articles (either peer reviewed or approved by the instructor)

relevant to their final project.

The annotated bibliography will be graded on adherence to MLA style format in addition to the quality of the summary.

Final Project (100 points):

The final project will demonstrate understanding of the interdisciplinary process using the Broad Model Approach presented in the text. Although the project will stop short of actual academic argument, the process should be based in recognized scholarship.

The project will consist of

- A class presentation (20 points)
- 3-4 slides which provide a brief overview of the project, underscores the important points, and engages a wide range of audiences (20) points
- A 5-6-page paper (without bibliography) divided into the Six Steps of Repko's Broad Model and demonstrates how each step applies (or could apply) to the problem (60 points)

Detailed Assignment Sheets will be distributed as the assignments are announced.

Non-gradable Component

Each student has a unique perspective built by their own experiences and learning and each student's participation in the classroom is key to creating a learning community. Additionally, participation in class discussions builds confidence and prepares students to use their voice and experience for the benefit of any community they inhabit.

Grading Criteria Rubric and Conversion

Each assignment will be weighed as follows:

Reading Responses 8@10 points each	80 points
Quizzes 8@5 points each	40 points
Mid-term Assignment	40 Points
Annotated Bibliography	40 points
<u>Final Project</u>	<u>100 points</u>
TOTAL	300 points=100%

Final grades will be computed according to the following scale:

- A= 90%
- B= 80%
- C= 70%
- D= 60%
- F= 59% or less

Students will earn the letter grade their percentage designates. 89%, for instance, is a B. Please take every assignment seriously to avoid the frustration of just missing a grade.

Late Work

Late work will not be accepted in this class. If attendance in class is impossible, students will

email the assignment to the instructor via tamuct email *before* the beginning of the class it is due.

Posting of Grades

- *Since assignments will be turned in via hard copy during class, they will be hand-graded and returned to the student in class. Once the Canvas component of the course is populated grades will be posted on the Canvas Grade book where students will be able to monitor their status.*
- *Assignments will usually be graded within less than a week, optimally by the next class meeting.*

OPTIONAL POLICY STATEMENTS:

A Note about Sexual Violence at A&M-Central Texas

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don't agree with their behaviors and tell survivors we will support them. Your actions matter. Don't be a bystander; be an agent of change. For additional information on campus policy and resources visit the [Title IX webpage](https://www.tamuct.edu/departments/compliance/titleix.php) [https://www.tamuct.edu/departments/compliance/titleix.php].

INSTRUCTOR POLICIES.**Late Work**

Late work will not be accepted in this class. If attendance in class is impossible, students will email the assignment to the instructor via tamuct email before the beginning of the class it is due.
