Course Overview

This course examines the major schools of sociological thought, including perspectives from both classic and contemporary sociological theory.

Course Description:

This course will focus on the historical development of sociological theory by examining the major works of classical, contemporary and postmodern social theorists. We will begin with a review of the foremother, Harriet Martineau and forefather of sociological theory, Auguste Comte. We will also examine major sociological contributions by theorists ranging from the nineteenth century to the postmodern era that include the following: Karl Marx, Emile Durkheim, Max Weber, George Herbert Mead, George Simmel, Charlotte Perkins Gilman, W.E.B. Du Bois, Talcott Parsons, Robert Merton, Erving Goffman, Harold Garfinkel, Anthony Giddens, Randall Collins, Peter Blau, George Homans, R.S. Perinbanayagam, Ralf Dahrendorf, William Julius Wilson, Janet Chafez, Patricia Hill Collins, Cornell West, Michel Foucault, Pierre Bourdieu, Jean Baudrillard, Manuel Castells, Immanuel Wallerstein, and others. Some major themes will include Functionalism, Conflict Perspective, Symbolic Interactionism, Structures of Inequality, Social Structure, Social Change, Modernity, Identity Politics, and Postmodernism.

Class/Instructor Policies

Writing Intensive Course

This course will assign a range of writing assignments that are worth a significant part of the final grade. These assignments will include weekly theoretical application papers, and a final research paper. When taught online, weekly course discussions will also be required to help the student understand theoretical concepts, theories etc. Therefore, writing assignments will be an integral part of measuring the mastery of the content in a course. In addition, feedback will be

given to students on all assignments submitted so that students can improve on the quality of their submissions.

Taking a Sociological Perspective: I encourage questions and discussion concerning course material and sharing personal observations and experiences. However, since you are enrolled in a sociology course, the main goal is to utilize a sociological perspective. This means that you should try to analyze various topics with an objective point of view. Objective point of view means looking through the lens of sociology. How does sociology utilize objectivity, you might be asking? Sociology is a social science – qualitative and quantitative research techniques are used to collect data about the social world. Sociologists must always strive to maintain an objective outlook when observing the social world. Therefore, in this course, you will be challenged to look within the layers of a social phenomenon or put another way, to look beyond what you see on the surface. In addition, you will not agree with everything you hear in class from the professor or your classmates. Part of becoming educated requires that your ideas are challenged. As a college-level student, you should be able to see different points of view of the same issue. I expect students to be respectful towards every person in this classroom, even if they disagree with certain viewpoints.

The role of the instructor is to present critical ideas, to offer an analytical framework for understanding the course material, to work with students in providing an inspiring learning environment, and to provide and receive constructive feedback. It is not the instructor's role to tell the student what to think. The student's responsibility is to read the readings with a critical mind, to question, to complete assignments on time, to participate in the exchange of ideas, and to work toward an inspiring learning environment. It is the responsibility of all of us to create a safe learning environment free of racism, sexism, classism, ageism, ableism, homophobia, transphobia and heterosexism.

Late Work: I will NOT be accepting late work under any circumstances. If you are turning in assignments, your work must be uploaded in Canvas at the specified due date and time. I will not accept that assignment through email. You will earn a zero for the assignment and/or paper.

Additional Help: If you need additional help on assignments, papers, or any materials covered in class, you are more than welcome to set up an appointment with me during my office hours or at a time that we can both agree on. The best way to get in touch with me is through email. I no longer have an office phone.

Incomplete Grades: I DO NOT GIVE OUT INCOMPLETE GRADES. ALL ASSIGNMENTS AND TESTS ARE DUE ON THE DATES OUTLINED IN THE SYLLABUS.

Course Requirements

1. Theoretical Application Essays (200 total points): There are a total of 8 theoretical application essays (**Worth 25 points each**) due in this course.

- These theoretical essays will cover material that we are discussing for that week. For instance, if we are discussing Marx, your question for that week will focus on Marx. This also means that you should stay up with your readings since not doing so will negatively affect the quality of work that you produce.
- During the week that essay questions are due, you will turn them in through Canvas no later than Friday by midnight. Please upload your paper under the proper assignment link. Otherwise, you will not earn credit for that assignment.
- You must submit your essays in a Word document or .pdf. Please double-space your papers and use Times New Roman for your font.
- Your essays should be no less than 500 words. When grading your essays I will be focusing on content as well as length. I will also grade on organization (introduction, body and conclusion of your essay), as well as spelling, grammar and sentence structure and correct referencing. Please see the grading rubric at the end of this syllabus.

- Make sure that you fully answer the questions by providing analysis. The goal of these essays is to increase your critical thinking by applying the theories you have learned.
- Based on the structure of these questions, the only reference you will have to use is your book. Please use ASA (American Sociological Association) format since you will be using this style in your final paper.
- You will find a list of the theoretical application questions located directly after your course schedule with corresponding due dates. If you have any questions about the essays, please let me know.
- I will not accept late papers. Once you miss the due date, you will not be able to submit your paper. Please do not submit late paper to me through email.

2. **Research Paper (200 points): Due Monday August 6 by midnight.** Choose a contemporary social problem that interests you and explore that issue from one or more of the theoretical perspectives discussed in class. I will be looking at how well you apply the theory or theories to the social issue you have chosen to write about. Please see my grading rubric and tentative paper outlines at the end of this syllabus.

- Your research paper should be no less than 2500 words. This length requirement **does not include** your title page, abstract or your reference page. Please submit your double-spaced paper in Times New Roman using 12 point font.
- You must use no less than 7 - 10 **scholarly** references, but feel free to use more. Scholarly references are those found in social science journals or other scholarly journals. You can also utilize a book or two but the main focus should be on finding sources that have researched your topic. Please do not get all of your sources from online websites and cut/paste into your paper. Again, you should integrate **scholarly** research articles into your dialog/analysis.
- For your research paper, you must also reference correctly. If you take information from a source, you must give credit to your reference. Please use **ASA (American Sociological Association)** referencing style. The ASA reference guide is listed under required texts on the first page of your syllabus. Please use the ASA guide. Purdue Owl does not provide all of the ASA requirements.
- Not only must you reference correctly, but you should include a reference page and reference your sources within the text of your paper. If you write a paper but do not provide references within the text of your paper and/or provide a reference sheet, **you will earn a zero for the paper.**
- In addition, I do not accept “recycled” papers or more specifically, papers that have been written for another class! Also, if you copy/paste any of your application essays into your final paper, you will earn a zero for that paper.
- Once you upload your paper, make note of the report generated by **Vericite**. Vericite will pinpoint exactly what text used in your paper comes from other sources. The system will also provide a percentage designating how much of your text comes from other sources. Please stay under 20%.

3. Postings (9 Postings x 13 points each = 117 total points):

- You will have 9 postings for this course. You will be required to comment on a question (s) that I post and then respond to three of your classmates. You will receive a total of 13 points for providing a substantive post, responding to three classmates, presenting good writing skills and adhering to deadlines.
- In your tentative schedule below, you will find the dates and times when postings open for discussion and when they are no longer available. “No longer available” means that once the discussion is closed, you will not be able to make up those points.
- **Weekly posts will open up on Mondays at 8:00am and close on Fridays at 11:59pm. Your main posting will be due by Wednesday evening at midnight. If you main posting is not submitted on time, you will not earn all points. Additionally, you will have until Friday at midnight to complete all replies to at least three classmates.**
- You will post to questions that will cover material from your readings and various topics that we discuss in this class. Since the postings cover your readings, I would like you all to use your book as a reference. I do not want information cut/pasted from the internet such as Wikipedia. If you do so, you will not earn points for that posting.
- Whenever you post, I also want you to reference using ASA. Remember that anytime you take information from a source (either directly quoting or paraphrasing), you must reference even if you are doing so in a posting.
- All posts must be substantive and demonstrate to me that you have done all the reading associated with the discussion. In order to get full credit for your individual post, you must answer each question that I pose to you. In order to get the points in responding to your classmates, you must put thought and effort into your response. A thin answer such as “I totally agree with you” or “That was a really cool post” will not be considered for credit.
- Finally, your postings and your essay papers are two different assessments. Do not copy your theoretical application essays into the discussion board. If you do, you will not earn discussion points for that particular week.

****GRADING RUBRICS FOR COURSE REQUIREMENTS CAN BE FOUND AT THE END OF YOUR SYLLABUS**

Theoretical Application Questions

- 1. Question #1 (Chapter 1) Due on Friday June 8**
 - According to Allan (2014), “Self-evaluation is the inclination and ability to observe, critique, and change one’s own thinking and conclusions” (p. 17). Why is it important for the sociologist to engage in self-evaluation?
- 2. Question #2 (Chapter 3) Due on Friday June 15**
 - “For most political economists in Marx’s time, commodification, value, profit, private property, and the division of labor were seen as natural effects of social evolution” (Allan 2014:60). Overall, how did Marx view these “natural effects” of capitalism?
- 3. Question #3 (Chapter 4) Due on Friday June 22**
 - Discuss “ideal types” and “verstehen” as specific methods used in Weber’s theory.
- 4. Question #4 (Chapter 5) Due on Friday June 29**
 - According to Allan (2014), Durkheim recognizes that “society is built on a foundation of shared values and morals. Yet he also realizes that there are structural forces at work in modernity that relentlessly produce cultural diversity, something that could tear away the foundation of social solidarity” (p. 123). That said, how do you think Durkheim’s theory can be applied to the organic society that we live in today?
- 5. Question #5 (Chapter 6) Due on Friday July 6**
 - How did Mead use symbolic interactionism to interpret the social world?
- 6. Question #6 (Chapter 7) Due on Friday July 13**
 - Focusing on Du Bois, discuss the reasons why perspectives of oppressed groups are able to give the kinds of critical insights necessary for social change.
- 7. Question #7 (Chapter 8) Due on Friday July 20**
 - Please discuss how Parson’s and Merton’s approaches to theory building differed. Provide examples to illustrate.
- 8. Question #8 (Chapter 9) Due on Friday July 27**
 - According to Dahrendorf, power is a normal part of how we structure society and create social order. He argues that it is power that defines and enforces the guiding principles of society (rather than assuming collective agreement about norms, values and social positions). Based on Dahrendorf’s theoretical position, briefly discuss how power structures society. Provide examples in your discussion.
