INSTRUCTION & COURSE ACCESS

This course will meet on campus for 1 class session prior to leaving for the study abroad trip. After the initial meeting on campus, the class will spend the rest of the course either traveling or abroad in Scotland. All coursework will be submitted post-travel online via Canvas (https://tamuct.instructure.com).

COURSE DESCRIPTION

The program will focus on religious studies and archaeology through a survey of religion in ancient Scotland. The program will include visits to archaeological, historical, and primarily religious sites throughout a variety of locations in Scotland that will allow the students to actively engage with the course material and local culture in a unique and personal way.

COURSE OBJECTIVES

1. Students will visit and study prehistoric and early Christian archaeological sites in Scotland with a focus on religious beliefs, practices and material culture.
2. Students will gain an understanding of the variety of types of prehistoric archaeological sites and their relationship to the religion and culture of ancient Scotland including: carved stones, henge and burial cairns, long barrows, forts and castles, monasteries, standing and recumbent stone circles, and sacred spaces.
3. Students will study the cultural chronology and settlements of peoples and cultures within Scotland from the beginnings of the earliest hunter-gatherers up through its near complete Christianization by the 16th century.

**STUDENT LEARNING OUTCOMES**

*By the end of this course students will be able to:*

1. Outline the archaeological evidence of the settlement and early religious practices of hunter-gatherers and early settlers in Scotland in the Mesolithic period (8,000-4,000 BC).
2. Identify the timeline for the transition from foraging to farming in Scotland.
3. Interpret the archaeological evidence for the first farming settlements and how they are linked to religious mortuary sites such as burial mounds and ritual sacred places such as stone circles.
4. Explain the processes involved in settlement expansion in Bronze Age Scotland (2000-1000BC) and the archaeological evidence for religious and cultural practices at this time.
5. Evaluate the purpose and function of the castles, forts, and large settlements of the Iron Age (1000BC -AD 80) and how movement, territoriality, and political organization of peoples may have affected religious and mortuary practices, especially those related to mortuary and monumental expression.
6. Outline changes in religious and archaeological evidence of the Scottish people as a result of the Roman interlude (AD 80-AD 400).
7. Interpret the archaeological evidence for cultural interaction between post-Roman Scottish peoples and the gradual Christian conversion of Scotland between AD 500 and AD 1500.
**REQUIRED READING AND TEXTBOOK(S):**

**COURSE REQUIREMENTS**

a. **Required readings:** The textbooks are excellent guides of the sites we will be visiting as well as a resource for general information on culture, religion, and archaeology. Students will be expected to finish reading the required textbooks in their entirety before the end of the course. Students may choose to bring them abroad, but are not required to do so. If a student has questions regarding the readings, please ask the instructors.

b. **Participation.** Students are expected to arrive at each scheduled group meeting location on time and stay until dismissal of each group meeting. Failure to do so without a reasonable excuse (ex: illness) will result in deduction of participation points. There are a total of 500 participation points allotted for this course, or 50 per day abroad.

c. **Journal entries.** Students will record journal entries for each day abroad. As we travel students will be encouraged to complete journals **during** our trip as it will be difficult to remember all of your experiences if they are recorded these after returning home. Journal entries can be handwritten in a notebook or typed on a personal electronic device. Entries should include the date, the weather, the location, the activity or activities for the day, how the day’s visit/tours/activities tie into the readings, and notes on any tours or lectures we attend. Students may also want to record general thoughts about the day’s visit (favorites, food, etc) or things to look forward to. If so inclined students may wish to add photos or drawings to your journal entries, but these are not required.
a. **Submitting your journal entries:** At the end of the course students will be required to type up and submit these journal entries. Submitted work will include one journal entry per day, or 10 total entries, compiled into one document. Formatting is as follows: name and course title in the header, double-spaced, 12 point font, and 1” margins. Students will submit completed entries online via Canvas and these are due by FRIDAY, JUNE 1, no later than 6pm.

d. **Reaction paper.** Students will submit a final reaction paper in addition to their journal entries. The final reaction paper will be a critical evaluation of the seven student learning outcomes identified at the start of this syllabus (page 2, Student Learning Outcomes). In particular, students will submit a paper that ties in their experiences abroad and the course readings with each of the student outcomes to reflect on what they learned in the course. The attached rubric will be used by instructors to grade the reaction paper. Formatting is as follows: name and course title in the header, double-spaced, times new roman, 12 point font, 4 pages minimum. Students will submit their completed reaction paper online via Canvas by FRIDAY, JUNE 1, no later than 6pm.

a. **NOTE:** Upper-level students are expected to have adequate knowledge of the essentials of grammar, writing style, and paper organization in accordance with the APA manual. If the student does not have adequate knowledge in these areas, then the purchase and use of additional books are recommended. Failure to provide written work in accordance with the essentials of acceptable, English writing style and APA guidelines will result in poor grades. Examples of non-standard English usage include sentence fragments, dangling modifiers, lack of agreement between pronouns and their antecedents or subjects and verbs, bulleted items, flagrant misuse of punctuation, second-person pronouns, and slang or abbreviated expressions.
