3.0 Ethics

Students are expected to conduct themselves in a professional and ethical manner at all times. They are expected to maintain confidentiality of all information related to clients,
as well as all information related to cases presented in practicum/internship classes. This is the student’s responsibility regardless of procedures in place at the site. Students are responsible to know and follow legal and ethical confidentiality practices of the field placement site, as well as applicable codes of ethics. Knowledge of HIPAA and/or FERPA is expected. In addition, students shall not use any client identifying information in any practicum/internship documentation, including tapes. Any questions regarding confidentiality must be discussed with the university instructor as well as the site supervisor.

Committing an ethical violation during practicum/internship would have academic consequences.
