*Online learning requires students to be very self-disciplined, be sure you understand and are prepared to comply with all required class assignments and deadlines. This graduate course is extremely time intensive. In addition, it includes a team project in which your colleagues will be dependent on you to be courteous and put in the time necessary to perform at a high level. Be sure you are ready and willing to meet these time and workload challenges.*

**Online Office Hours:** During the online office hours listed above I will be at my computer and available for rapid messaging response. I also encourage students to interact with me during office hours to ask questions about upcoming assignments, get clarity on course concepts, and/or review your grading status in the course. If you wish to speak by phone, please email me with your phone number and best times to call. If you wish to access the course web conferencing room (WebEx) during office hours, please send me a message and we can interact that way

(includes video, voice and chat).

**Course Q&A, and Case Analysis Outline Discussion Forums:** As an additional interaction tool, I have set up discussion boards within the course web site for (1) a Q&A forum for questions concerning this course in general and (2) a forum for questions concerning the Case Analysis Outline, given in Appendix A. Please use these forums to ask questions which other students would also benefit from the Professor's response. For questions of a personal or individual nature, use Canvas messaging.

## COURSE INFORMATION

**Course Overview and Description:**

The purpose of this course is to demonstrate the importance of organizational behavior to your own personal and organizational life. You are or probably will be an employee of an organization—and in all likelihood of several organizations—during your career. You may eventually become a team leader, a manager, or an executive. Studying organizational behavior will help you attain the knowledge and competencies needed to perform effectively in all of these roles. These will help you diagnose, understand, explain, and act on what is happening around you in your job.

**Student Learning Objectives (SLOs):** At the conclusion of the course students will be able to:

1. Understand and apply concepts of organizational behavior.
2. Identify the primary outcomes of organizational behavior necessary for organizational effectiveness.
3. Discuss the individual, team and organizational mechanisms and characteristics that affect the primary outcomes of organizational behavior.
4. Understand and apply concepts relating to job satisfaction, stress, motivation, ethics and decision-making.
5. Critically analyze individual employee characteristics (personality and cultural values and the different types of abilities (cognitive, emotional and physical).
6. Utilize team mechanisms (communication, negotiation, leadership styles and behaviors) for team effectiveness.
7. Evaluate the importance of organizational structure and organizational culture within an organization.
8. Analyze real world organizational situations, and diagnose the critical issues and stakeholder concerns to be addressed.

9. Understand the relevance of organizational behavior for sustainability and sustainable development.

**Library EReserves:** The TAMUCT Library has arranged to place several supplemental articles and resources on electronic reserve specifically for this class. These resources have been designed directly into the course content. Students will find the links to these “EReserves” on the Canvas Course Web Site associated with the Unit where they are assigned.

### **COURSE REQUIREMENTS**

**All exam and assignment due dates are given in the Course Schedule link.**

**Syllabus Changes:** Dr. Fry reserves the right to make changes to this Syllabus should circumstances during the semester warrant. Should this occur, a new Syllabus will be posted on the Course Web Site with a different date in the file name Students will be advised via a Course Message and Announcements.

**Late Submissions:** Unless otherwise stated, late submission of written work, presentations, etc. will result in a grade reduction of 10% for each day it is late (maximum of 30 %). No submissions will be accepted beyond 3 Days unless arrangements are made before the due date.

**Learning and demonstrating the ability to perform case analyses is a significant part of this course.** For one individual assignment and multiple team assignments, you are required to apply the Case Analysis Outline in Appendix A. Being able to apply this case analysis process, both individually and as part of a team, is what distinguishes graduate from undergraduate work in management. In doing so you are required to not only learn and demonstrate your knowledge of the basic vocabulary and concepts in organizational behavior, you must demonstrate that you can:

1. Take a real world situation and analyze it using distinct approaches that help you gain insight into the key issues that must be addressed to move the organization to the next significant level of performance.
2. Apply the most relevant concepts or models that can be used to assess the degree to which the organization is following them. The basic assumption here is that individuals and organizations that apply or adhere to these concepts/models are more effective.
3. If these models are being successfully followed and implemented, then the challenge is to offer, select, and implement alternatives that, given the situation analysis, will help insure that the organization continues to be effective.

4. If there is a discrepancy between the organization's behavior and what is prescribed by these models, the challenge is to offer, select, and implement alternatives that reduce this discrepancy.

5. Draw on at least one model that should be followed as part of your implementation strategy that will effectively address the issues you identified in the situation analysis.

The bottom line in all of this is to help you develop the ability and skill to more effectively apply relevant models of organizational behavior in your everyday life. If you can do so, it will fundamentally change the way you view your world and positively influence your personal and organizational effectiveness.

### **Individual Assignments:**

**1. Course Profile and Agreement: (10 points)** This form outlines information about yourself and requires you to agree that you have read and understood the requirements for the course and the responsibilities of a graduate student. Be sure to read the Syllabus fully and tour the course web site prior to signing this form. Should you have questions after reading the Syllabus and touring the web site, post to the Course Q&A Discussion Board and Dr. Fry will respond. This Profile/Course Agreement is due at the end of the first week of class.

**2. Introductory Discussion Forum: (40 points)** We will be establishing a community of learning in this class and, given you will be working in teams, you need to get to know your student colleagues. The first week of class students are required to post an introduction to this Discussion Forum. Be sure to include: What degree you are pursuing, what point are in your studies, your current and past work experience, what you hope to learn in this class, what you are looking for in a team, what you would bring to a team, and a personal tidbit about you (e.g. hobbies or family). Posting a picture is optional. 20 points of your grade is based on an initial posting of at least 2 full paragraphs containing all the information listed above. The additional 20 points is based on responses to at least 2 of your colleagues (10 points each) addressing thoughtfully their portion of their post discussing what they expect to get out of the class and expectations of a team.

*Although there is only one discussion forum for this assignment, there are separate deadlines, one for posting your initial profile. See the syllabus link in Canvas for this assignment for the due dates.*

**Course Q&A, and Case Analysis Outline Discussion Forums:** *I have also set up discussion boards for (1) a Q&A forum for questions concerning this course in general and (2) a forum for questions concerning the Case Analysis Outline, given in Appendix A.*

**3. Chapter Exams (180 points) SLO 1:** There will be two objective examinations (all true/false and multiple-choice questions) during the semester. The exams are non-cumulative, and will include only materials covered in the assigned chapters for that exam. Exams 1 covers 7 chapters plus supplemental information covered to date in the class and be worth 79 points. Exam 2 covers 9 chapters for a possible 101 points. There are 15 questions per chapter and each question is worth .75 points. The best way to prepare for Exams is to listen to the Professor video for each chapter, take notes on any supplemental readings, and study the publisher provided PowerPoint presentations.

Exams will be available over a 72 hour period online. Exams will be timed (120 minutes for Exam 1 and 150 minutes for Exam 2) and, once started, must be completed in the same sitting. Exams will be open-book and open-notes, however given the time limitations you will only have time to consult notes for a few questions so you must study and be familiar with the material. You only get one attempt at each exam. Due dates for your exams are given in the Syllabus Course Link. Make-ups are only for those people who missed the exam due to a medical emergency and documented with a doctor's note. Should you have this situation, email Dr. Fry prior to the Exam period closing and request a makeup.

**Make ups will be give the weekend following the scheduled exam. If you miss that exam there will be one last chance to take it the last week of the semester.**

#### **4. Sustainability Discussion Forums (100 points) SLOs 8 & 9:**

There are two discussion forums. The first has you discuss organization structure as it relates to an organization you are familiar with. The second requires you to reflect on issues related to sustainability and sustainable development as it relates to leadership for sustainability (for more on sustainability, see The Additional Resources Module and Appendix B). 30 points of your grade is based on an initial posting of at least 2 full paragraphs containing all the information listed above. The additional 20 points is based on responses to at least 2 of your colleagues (10 points each) addressing thoughtfully their portion of their post.

Your postings/insights in the Discussion forum are based on the following:

- application of course concepts;
- demonstrated understanding of the assigned material;
- ability to articulate your analysis clearly; and
- integration of student colleagues' contributions and insights leading the discussion to a deeper level of understanding.

*Please note that there are separate deadlines, one for posting your initial profile and one for the responses to your colleagues for each discussion. See the Syllabus link in Canvas for due dates.*

#### **5. Organizational Behavior Development Journal Entries (OBDJ) (10 points each, total 100 points) SLOs 1-7:**

In this course you are required to compose journal entries in which you record what you have learned from completing each of the assigned exercises or assessments. The **OBDJ** is a key place where you should demonstrate that you have mastered and can apply course concepts. There are entries throughout the semester that are due with each module. Instructions for each entry are included in the course web site modules.

For the assessment related assignments students must report their scores, interpret them in accordance with learned text concepts, and then reflect on and discuss the implications for their current and future job settings. Each portion of this analysis for the assessments should be one complete paragraph. For exercises, be sure to include the Exercise Questions in bold along with your answers. Expected length for responses is 1-2 complete and fully proofread paragraphs per question.

*A well thought out and complete response to each exercise/self-assessment applies concepts from the text to fully support your analysis.* Grading points will be based on insightful and thorough treatment of the topic, including accurate application of text concepts.

OBDJ Assignments must be completed on time to receive credit.

The assigned exercises and assessments that will comprise your Organizational Behavior Development Journal are:

1. Ch. 16 University Culture, p. 533
2. Ch. 15 Centralization, p. 488
3. Stakeholder Exercise (based on supplemental reading)

4. Ch. 12 Project Team Cohesion, p. 391
5. Ch. 13 Political Skill, p. 422
6. Ch. 4 Core Job Characteristics, p. 105
7. Ch. 5 Type A Behavior Pattern, p. 138
8. Ch. 7 Unethical Behavior, pp. 222-223 do this as an individual only; address questions in 7.2, 7.4 & 7.5
9. Ch. 9 The Big Five, p. 268-269
10. Ch. 10 Emotional Intelligence, p. 317

**5. Individual Case Exam (150 points) SLOs 2-7** – This individual Case Exam will require you to analyze a textbook case or an article from a business periodical (e.g., Business Week, Fortune, Forbes, etc.). *This exam requires a case analysis that follows the Case Analysis Outline (see Appendix A).*

**Only use the case material provided. No other sources are to be used. There will be a 25 point deduction if you do so.**

This case exam will occur midway through the semester and be an excellent way to show your preparation for the coming Team Case Project. Due date and more detail on this exam is given in the Syllabus Course link in Canvas. Students are responsible for all material covered in the course up to the time of the case exam.

Your exam should be 5+ pages, single-spaced with 8 pt spacing between paragraphs. In addition, the report should have a beginning cover sheet, and an appendix with appropriate exhibits (e.g., stakeholder map).

*Be sure and restate the management question at the beginning of the Recommended Alternatives section. Make sure that your chosen alternative(s) will address this question.*

*Organize your exam using headings and subheadings that reflect the Case Analysis Outline. It is not a good idea to make me hunt for your answers.*

*Late submission will result in a grade reduction of 10% for each day it is late (maximum of 30 %). No submissions will be accepted beyond 3 Days from the due date unless arrangements are made ahead of time.*

#### **6. Individual Analysis of Team: Team Assessment and Plan for Change**

**(150 points) SLO 6:** This assignment challenges you to analyze the factors that influenced your team's effectiveness and to offer suggestions for how your team could have been more effective if you had the time to implement your recommendations. Single space writing within each paragraph with 8 pt spacing between paragraphs. Be sure to label each section.

**Section One:** Give a brief chronology of your team's development in bullet form. Be sure and draw on relevant material on the models of team development (Figure 11-2, page 344 in text). For each point, support your analysis with specific team occurrences.

**Section Two:** Access the Team Assessment Inventory on the library eReserves (password warriors) and analyze your team according to the inventory.

Report out your Team's scores for each of the seven sections of the inventory (I-VII) in bullet form. Write a short paragraph (2-3 sentences) analyzing each of the 2 sections for which your team scored the highest, and also for the 2 sections where your team scored the lowest. (4 short paragraphs total) highlighting why your team scored as it did.

Also, discuss at least two relevant items for each goal factor with an average score below 4. Be sure and identify the number of the item and its numerical score.

**Section Three:** What team dysfunctions are suggested by your team and individual scores you discussed above? If none, explain why you believe this was the case. For this section write one medium-length paragraph (3-4 sentences). Be sure and reference relevant team factors and items to support your conclusions.

**Section Four:** Based on this inventory, what specific changes would you propose to improve the effectiveness of your team? Determine 3-4 improvements. For each, write a short paragraph outlining the suggestion. Be sure and include at include relevant course concepts/models as support.

*No late submissions will be accepted for this assignment.*

### **Team Assignments:**

**1. Team Process Assignment (75 Points) CLO 3, 6, 7:** This assignment requires you as a team to begin forming and examine the process of how you will work together – one of the primary areas of focus in the study of organizational behavior. **Follow the outline given in the Team Handbook provided in the EReserves on the Course web site as an attachment with this assignment.**

- I. Who are we?
- II. What do we want to accomplish?
- III. How do we organize to meet our goals?
- IV. How will we operate?
- V. How do we continuously learn and improve?

**For section 1**, follow suggestions 1 & 3 (p. 4) for each group member.

**For section 2**, address all four categories on page 5 (performance, member satisfaction, team learning, and outsider satisfaction). This is about your team and the process you will follow to make sure your team goals are met.

**For section 3**, discuss the three major aspects (work structure, roles, norms) that are essential to organizing a team, especially the roles that will be assigned to each team member. Also be sure and include a detailed work structure per suggested steps 1-6 on page 7 for all team assignments.

**For section 4**, be specific about who will do what and how you will operate in terms of *taskwork* and *teamwork processes*. See chapter 12 for more on this.

**For section 5**, all will not be rosy. Address how you will handle such things as conflict and disagreements over the quality and quantity of a team member's contribution and how to provide feedback (p.13) if/when this comes up.

Finally, come up with a team name.

You will turn in your Team Process Assignment as an attachment (.doc or docx file) through the assignments link on the Course Menu, which will also include its due date. Use this format – Course Identification and Term\_Team Process Assignment\_Your Team Name. Submit only one assignment per group.

*If you do not achieve 53 points (70%) on the first try, you will be required to revise and resubmit. On*

*this second attempt you will only be able to achieve at most 60 points (80%) so best to complete the assignment completely the first time.*

**2. Team Case Project (195 points Total) CLO 1, 2, 6, 7, 8, 9:** For this project teams are required to pick an organization to study that is addressing issues related to sustainability and sustainability development. See Appendix B for possible candidates to study.

**A. Final Team Project Proposal (45 points):** As a group brainstorm and decide on a company you want to research extensively for your final case assignment. **Use Appendix B or library resources** to find credible company information. Business Source Complete, ABI Inform, Wall Street Journal, Lexus/Nexus and Regional Business News are good places to start your search. Be sure there is enough publicly published information about the company to pull together a well written in-depth case analysis.

After deciding on your company, and finding at least 5 credible references (not web pages), submit a 2-5 page , single-spaced with 8 pt spacing between paragraphs proposal for approval. **It should follow as much as possible at this stage the first two sections of Case Analysis Outline.** In particular formulate an initial management question and *provide sources in proper APA format (use the library links for sources and APA format)*. **Submit your proposal through the assignments link, which will also give its due date. Grading criteria for this proposal is provided in the Assignment in Canvas.**

For examples of how to write, reference, and cite in APA style see:

A sample paper using APA style guidelines can be reviewed at:  
<http://www.dianahacker.com/pdfs/Hacker-Shaw-APA.pdf>

After the proposals are graded, each team, **if you feel the need**, may schedule a WebEx meeting with Dr. Fry to receive feedback and discuss the upcoming major case analysis paper. If this is the case, contact Dr. Fry with possible meeting times and Dr. Fry will select one. A majority of the team members must attend. It is up to the team members to decide the meeting format (e.g., Skype, Zoom, Canvas WebEx), and offer all members, including Dr. Fry, invitations to the meeting.

**B. Final Team Project (150 points):** The analysis of the company, the format of the report and its grading will follow that of the Case Analysis Outline in Appendix A. For this project teams are required to pick an organization to study that is addressing issues related to sustainability and sustainability development. **Be careful to note, though, that the Case Analysis Outline (Appendix A in your syllabus) you are to follow DOES NOT include a SWOT analysis, but DOES include a stakeholder map and application of the Savage et al. framework.**

Companies that embrace sustainability do not pursue financial gain at any cost. Rather they actively seek to change the world for the better; they recognize that sustainability and sustainable development should be of equal importance with employee well-being and profits – i.e., embracing the Triple Bottom Line or People, Planet, and Profit. In doing so, they assess the social, environmental, and economic aspects of any action so that it is as sustainable as possible. These organizations view sustainability and sustainable development as not only meeting the needs of the present but also seeking to build the kind of world that we want our children and grandchildren to inherit.

You can choose a company/city/industry you currently work for or have experience with that is involved with an issue related to sustainability. Alternatively, you can choose an organization, public or private, that you may or may not have direct contact with. **For example sustainability organizations you might choose to study see appendix B.:**

It is incumbent on you to write up enough detail on the organization so that I can follow the application of course concepts/models to the case situation. *A general rule of thumb is that the case situation write up should comprise about 50% of your paper.*

*The paper will be due the final week of the semester and should be 10+ pages, single-spaced with 8 pt spacing between paragraphs. In addition to the 10+ pages, the report should have a beginning cover sheet, ending bibliography, and an appendix, if needed, with appropriate exhibits. The works cited page and citations should be in APA format. The analysis of the company, the format of the report, and its grading will follow that of the Case Analysis Outline in Appendix A.*

**Make sure that every citation in your references is cited in the body of your paper.** Multiple citations from the same web site only count as one citation toward the **fifteen-reference requirement.**

**Students in online classes do not need to prepare a PowerPoint Presentation for this assignment.** *Face-to face classes will present their case analysis the last class of the semester and will need to prepare a formal presentation.*

Be sure and take advantage of the library links in the course menu AND the business librarian, who is at your disposal for help on this project. It is not sufficient to use “googling” to find sources for this paper; you must use the library databases to find credible business press sources. Submit your Final Team Project through the assignments link, which will also give its due date (last Wednesday of the semester).

*No late submissions will be accepted for this project.*

#### **Team Member and Individual Performance:**

Collaboration is permitted **ONLY** for the team assignments. All other work in the course must be your individual work.

Teams will be assigned the third week of the semester. Based on the Introductory Discussion Forum, students are allowed to either form their own teams or be assigned to a Team. Teams are made of 4 or 5 members. If you wish to form your own team, contact fellow students via the course messaging system and obtain their agreement to join the team prior to messaging Dr. Fry. **Team preferences MUST be sent in a course message (copying all team members) to Dr. Fry by TUESDAY of week 3 at the latest.** At that point anyone not on a Team will be assigned to a Team.

Teams should begin working together immediately and will be given a Team page that includes a Team discussion forum, Collaborate room, and Wiki.

I expect each team member to fully participate on team projects. All team members will receive the same grade for the team assignments. However, I reserve the right to make exceptions to that practice as circumstances such as performance imbalance or communication issues warrant. I also reserve the right to administer peer evaluations at any time and to consider these in the allocation of grades among team members.

**If at any time, you believe that a team member is not living up to his/her commitments, you**

**have the right to remove them from your team.** To remove a team member:

1. First, meet as a team either in person or through the Collaborate web- conferencing tool and discuss the issue with the offending team member. Document your meeting in writing and send it to me via a message.
2. I will then initiate a conversation with the offending team member.
3. If the situation fails to improve, document the team member's lack of participation and performance.
4. Notify me in writing of the situation.
5. If I decide to remove the team member after consulting with the offended team members and the offending team member, the terminated member will be responsible for completing an independent Team Assigned Case Presentation and/or Final Case Project on their own.

*Unless otherwise stated, late submission of written work, presentations, etc. will result in a grade reduction of 10% for each day it is late (maximum of 30 %). No submissions will be accepted beyond 3 Days from the due date unless arrangements are made before the due date.*

**Note #3: Requests for Incomplete Grades:** Incompletes will only be given in emergency or other extreme circumstances and then only if a significant percentage of the course has been satisfactorily completed. Any request for an incomplete grade in this course must be approved by the professor prior to the last week of classes. Where possible, requests should be submitted in written form and must include an address and/or telephone number where you may be contacted throughout the following semester. Texas A&M University Central Texas uses the grade of 'K' on transcripts and grade reports to identify incomplete grades.

**Note #4:** Questions concerning one's grade on a particular task (e.g., test, case) should be resolved within one week after receiving the graded material. There will be no reviewing of previously graded material at the end of the semester.

**Note #5 - Peer Evaluation:** All students must fill out one or more peer evaluation forms. I use this as a mechanism to determine an individual's contribution to the team's effort. If you rate a team member significantly higher or lower than the other team members, you must write down the specifics of the situation and justify your rating.

**Note #6 - Posting of Grades:** Grades for Chapter Exams will be posted the day after the availability period has passed. Grades for Major assignments and the Individual Case Exams will be posted within one week following the due date.

### CLASS POLICIES

**Classroom Policies:** I expect you to treat this course *like a job*: Be **professional** in your speech, your writings including **posting on Canvas** and **communications to me, and most importantly, communications to your class and team members.**

As a member of this class, you are invited to think, question, disagree and offer alternatives. That is part of the academic experience, as well as part of learning to be a contributing, critical thinker in any professional setting. However, my expectation is that you will behave **professionally and courteously** toward another student and the professor, and respect the rights of others at all times. Failure to do so will be cause to report the offending student(s) to Academic Affairs.

Treat this class as a business setting. That means:

- You don't ever simply fail to show up for work in a corporate setting. Similarly, when taking an online course, even though you have more flexibility in deciding when to check course materials,

announcements, and upcoming assignments, you must log into your Canvas at least a couple times a week to stay on top of the course schedule.

- You would never schedule vacation during a critical work project in a corporate setting – that means that while you're in school you should schedule vacations between semesters or on approved university holidays, not during the semester.
- In a corporate setting, you can't decide you're just "not interested" in attending the meetings you and colleagues have previously scheduled for a critical work project. That means, while taking this course, you can't just decide you don't feel like showing up for the meetings you and your teammates have agreed on. If you needed to miss a scheduled meeting due to emergency, you would inform your teammates in a courteous manner and make arrangements to fill you in on what you missed.
- You would never show up to a business meeting empty handed and unprepared. Equally, you would never show up to meetings with your teammates unprepared. You should have read the relevant course materials (e.g., lecture videos, handouts, assignment requirements, etc.) prior to meeting with your teammates. You should also be prepared to make insightful contribution to the discussions.
- In a corporate setting, you would never submit poor quality work to your colleagues and managers. This means, while you're in school, you should do your best and submit graduate-level-worthy work to your teammates and the professor. This requires that you study relevant materials and carefully read and follow assignment instructions. This also requires that you demonstrate graduate-level writing skills (I strongly recommend that you utilize the writing center if needed).

**Netiquette:** Netiquette refers to appropriate ways of communicating through the Internet. It is very important to any online course including this course.

Here are some specific policies for this course:

- You do not dominate any discussion. You will let other students give input in the discussion.
- You do not use aggressive and/or offensive language to present your ideas or opinions to other students or the instructor.
- You do not use sarcastic language when you do not agree with another student or the instructor. Therefore, be cautious in using your humor and make sure you are just being humorous, NOT sarcastic.
- Popular emoticons such as ☺ can be helpful to convey your tone in your reply to another student in discussion but do NOT overuse them.
- You do not make fun of another student's ability to read or write.
- You should be open-minded and listening to others' opinions.
- You do not ever use Internet slangs like "LOL," "Q4U," and "C U" in your postings and emails.
- You always think, edit, and proofread your postings and emails before you push the "send" button to make sure your spelling and grammar is correct.
- You do not ever post your entire reply using all bold upper-case letters – it is hard on the eye and can be interpreted as "yelling" according to Internet language.
- You respect diversity (e.g., gender and ethnicity) in your communications.
- Your postings should be direct, to the point, and relevant. You do not include wordy sentences that do not add any value to the discussion.
- You should be patient and read all other discussions before you add something. This will help you avoid repeating something someone else has already contributed.

**Continued enrollment in this course indicates agreement with these policies.**

## PROFESSIONAL WRITING AND COMMUNICATION STANDARDS

**Course Standards:** Professional level writing and communication are critical skills in the business world. This standard should be displayed in all assignments for this class. All communications, both to the Professor and student colleagues should be kept professional, including Discussion Board postings and email/messaging correspondence. For written assignments, all work should be proofread, free of grammatical errors, include proper citations and be in accordance with American Psychological Association (APA) standards, including one inch margins and 12 pitch Times New Roman font. For information on APA standards and correct citation formats consult the [APA Publication Manual](#), and/or link to the Library and Research sources on the course menu. These key links include:

**University Library:** The University Library provides many services in support of research across campus and at a distance. We offer over 200 electronic databases containing approximately 250,000 eBooks and 82,000 journals, in addition to the 72,000 items in our print collection, which can be mailed to students who live more than 50 miles from campus. Research guides for each subject taught at A&M-Central Texas are available through our website to help students navigate these resources. On-campus, the library offers technology including cameras, laptops, microphones, webcams, and digital sound recorders.

Research assistance from a librarian is also available twenty-four hours a day through our online chat service, and at the reference desk when the library is open. Research sessions can be scheduled for more comprehensive assistance, and may take place on Skype or in-person at the library. Assistance may cover many topics, including how to find articles in peer-reviewed journals, how to cite resources, and how to piece together research for written assignments.

Our 27,000-square-foot facility on the A&M-Central Texas main campus includes student lounges, private study rooms, group work spaces, computer labs, family areas suitable for all ages, and many other features. Services such as interlibrary loan, TexShare, binding, and laminating are available. The library frequently offers workshops, tours, readings, and other events. For more information, please visit our [Library website](https://tamuct.libguides.com/) [https://tamuct.libguides.com/].

**University Library Services: *Information literacy*** focuses on research skills which prepare individuals to live and work in an information-centered society. Library research skills are another critical tool in the business world, and will be required for this class in conjunction with the final Team Case Project.

Librarians will work with students in the development of critical reasoning, ethical use of information, and the appropriate use of secondary research techniques. Help may include, yet is not limited to: exploration of information resources such as library collections and services, identification of subject databases and scholarly journals, and execution of effective search strategies. Library Resources are outlined and accessed at:

<http://www.tamuct.edu/departments/library/index.php>

Library databases that would be particularly helpful for the projects in this class are contained in

the Management Library Guide:

<http://tamuct.libguides.com/c.php?g=117073&p=762177>

These databases, such as *Business Source Complete* and *Hoover's*, go well beyond what students can find by just "googling" their company. These resources are not available to the general public, your University fees pay for these articles, which are in-depth and provide the depth you need to provide credible information on your case analyses.

The TAMUCT librarians are available to assist distance learning students doing research. **Ms. Margaret Dawson** is the lead Business Librarian and she is available to assist you and your team with your research. Her email is [madawson@tamuct.edu](mailto:madawson@tamuct.edu); she is Canvas proficient and can meet with you via chat, web-conferencing, in-person or phone.

This tool provides tutoring in over forty subject areas. Access Tutor.com through Canvas.

**University Writing Center:** Located in Warrior Hall 416, the University Writing Center (UWC) at Texas A&M University–Central Texas (TAMUCT) is a free workspace open to all TAMUCT students from 10:00 a.m.-5:00 p.m. Monday thru Thursday with satellite hours in the University Library Monday thru Thursday from 6:00-9:00 p.m. This semester, the UWC is also offering online only hours from 12:00-3:00 p.m. on Saturdays.

Tutors are prepared to help writers of all levels and abilities at any stage of the writing process. While tutors will not write, edit, or grade papers, they will assist students in developing more effective composing practices. By providing a practice audience for students' ideas and writing, our tutors highlight the ways in which they read and interpret students' texts, offering guidance and support throughout the various stages of the writing process. In addition, students may work independently in the UWC by checking out a laptop that runs the Microsoft Office suite and connects to WIFI, or by consulting our resources on writing, including all of the relevant style guides. Whether you need help brainstorming ideas, organizing an essay, proofreading, understanding proper citation practices, or just want a quiet place to work, the UWC is here to help!

Students may arrange a one-on-one session with a trained and experienced writing tutor by visiting the UWC during normal operating hours (both half-hour and hour sessions are available) or by making an appointment via [WCOOnline](#). For a brief introduction to the UWC and its services see: [https://www.youtube.com/watch?v=PAIb\\_LyUqTQ&feature=youtu.be](https://www.youtube.com/watch?v=PAIb_LyUqTQ&feature=youtu.be).

In addition, you can email Dr. Bruce Bowles Jr. at [bruce.bowles@tamuct.edu](mailto:bruce.bowles@tamuct.edu) if you have any questions about the UWC and/or need any assistance with scheduling.

**A Note about Sexual Violence at A&M-Central Texas:** Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at A&M-Central Texas, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Counseling Services (254-501-5956) located on the second floor of Warrior Hall.

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don't agree with their behaviors and tell survivors we will support them. Your actions matter. Don't be a bystander; be an agent of change. For additional information on campus policy and resources visit the [Title IX webpage](https://www.tamuct.edu/departments/compliance/titleix.php) [https://www.tamuct.edu/departments/compliance/titleix.php].

## Appendix A Case Analysis Outline

A significant amount of this course is centered on you learning how to apply the Case Analysis Outline given below. Being able to apply this case analysis process, both individually and as part of a team, is what distinguishes graduate from undergraduate work in management. For exams and assignments that require you to apply the Case Analysis Outline, you must demonstrate that you can:

1. Take a real world situation and analyze it using distinct approaches that help you gain insight into the key issues that must be addressed to move the organization to the next significant level of performance.
2. Apply the most relevant concepts or models that can be used to assess the degree to which the organization is following them. The basic assumption here is that individuals and organizations that apply or adhere to these concepts/models are more effective.
3. If these models are being successfully followed and implemented, then the challenge is to offer, select, and implement alternatives that, given the situation analysis, will help insure that the organization continues to be effective.
4. If there is a discrepancy between the organization's behavior and what is prescribed by these models, the challenge is to offer, select, and implement alternatives that reduce this discrepancy.
5. Draw on at least one model that should be followed as part of your implementation strategy that will effectively address the issues you identified in the situation analysis.

1. **Situation Analysis (20%):** Describe briefly in no more than 2-3 paragraphs the management situation reflected in the case. This is not a restating of the case details or history. Instead, it captures the essence of the management situation and leads to the development of the issue(s) statement to follow. Be sure and include a:
  - A. Vision/Purpose/Mission/Values Statement  
**Identify any issues related to:**
    1. The organization not having a stated set of Vision/Purpose/ Mission/Values.
    2. The organization not living up to its stated set of vision/Purpose/Mission/Values.
  - B. Stakeholder analysis:
    1. Identify key stakeholders.
    2. Identify expectations for each stakeholder.
    3. **Identify any issues related to** unmet stakeholder expectations.
    4. Apply the Savage et al., framework to the stakeholders and other relevant organizations (e.g. competitors) in the case.
2. **Issue(s) Statement & Management Question (15%):**
  - A. List and briefly summarize the key issues you identified in your Situation Analysis.
  - B. Close this section with a *single, concise but comprehensive underlying management question* that must be answered to address the key issues from A.
3. **Organizational Behavior Analysis (35%):** Apply in-depth 3 course concepts/models. This means that you should identify a model/concept (e.g., Org. Structure from Ch. 15, the Big Five Personality Factors from Ch. 5) and use it to analyze/describe what's going on in the case relative to the key issues and the management question to be addressed. If the case differs from what the model suggests or recommends, this provides evidence that the model can be useful in addressing the key issues and answering the management question.

4. **Identification and Evaluation of Alternatives (15%):**

*First restate the management question. Be sure that your chosen alternative(s) will address this question.*

Based on the Organizational behavior Analysis, identify three or more specific alternatives that should be evaluated to address the issues and the underlying problem identified in the management question. Label each with a brief key word name that identifies the alternative, i.e., Reorganize the Division. Then develop and fully discuss the pro's and con's, and related implications of each alternative.

5. **Recommended Alternative (5%):** Which of the alternatives in Section 4 does your team recommend and why? Give 2-3 concrete reasons this is the best alternative.

6. **Implementation and Conclusion (10%):** Describe and discuss the strategic and operational issues related to implementing the recommended alternative. Include a course concept/model to follow along with a timeline for implementing it.

## Appendix B Sustainability Resources

Companies that embrace sustainability do not pursue financial gain at any cost. Rather they actively seek to change the world for the better; they recognize that sustainability and sustainable development should be of equal importance with employee well-being and profits – i.e., embracing the Triple Bottom Line or People, Planet, and Profit. In doing so, they assess the social, environmental, and economic aspects of any action so that it is as sustainable as possible. These organizations view sustainability and sustainable development as not only meeting the needs of the present but also seeking to build the kind of world that we want our children and grandchildren to inherit.

The term “sustainability” has an important history. In 1983, the United Nations convened the World Commission on Environment and Development (WCED), known informally by the name of its chair, Gro Harlem Brundtland. The Brundtland Commission’s report, *Our Common Future* (1987), contains one of the most often cited definitions of sustainability:

“Sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs. It contains within it two key concepts:

- the concept of ‘needs’, in particular the essential needs of the world’s poor, to which overriding priority should be given; and
- the idea of limitations imposed by the state of technology and social and business organizations on the environment’s ability to meet present and future needs.”

The scope of sustainability is frequently described as including three spheres – social, environmental, and economic. To use an accounting metaphor, sustainability projects must be evaluated according to a “triple bottom line” of social, environmental, and economic responsibility. A Venn diagram depicts the interdisciplinarity of sustainability as a field of inquiry:

### *The Three Spheres of Sustainability*

You can choose a company/city/industry you currently work for or have experience with that is involved with an issue related to sustainability. Alternatively, you can choose an organization, public or private, that you may or may not have direct contact with.
