**Required Texts**

The student study website for your textbook (Schutt 2017) can be found at [https://edge.sagepub.com/schuttusw](https://edge.sagepub.com/schuttusw). Here you will find helpful tools to increase your knowledge of research methods, concepts etc.

**Course Description**

Principles and methods of social research, including research design, methods of observation, questionnaires, interviews and other sources of social data; qualitative and quantitative techniques of inference; analysis and research report writing.

**Course Objectives**

**Knowledge Outcomes:**
1. Students will know the nature of scientific inquiry.
2. Students will understand the process of forming research questions.
3. Students will know the techniques of conducting sociological research and critiques of these techniques.
4. Students will understand issues of measurement and sampling.
5. Students will understand the ethical considerations of research.
6. Students will learn and practice writing within the discipline of sociology.
Skills Outcomes:
1. **Critical thinking**: Students must have “sociological insight” in order to see through official explanations of social life, common sense conclusions, and conclusions based solely on personal experience. Using the tools of the discipline, sociologists analyze social life that entails using their sociological imaginations.

2. **Abstract thinking**: Sociology is a discipline of theory testing. Research techniques and statistics help us describe social phenomena and allow us to evaluate theoretical statements.

3. **Persistence**: Just because we live in a society does not mean we automatically know everything about it. Hard study is required, and thinking is mandatory! Research methods help us see through the veneer of official accounting of the world around us. Research is about persistent curiosity.

4. **Flexibility**: Students will learn the discovery of hidden social processes. It is imperative that we become flexible in our thinking and willing to process what we already know. Students should be active agents in their own learning.

5. **Expansion of knowledge**: This course aims to expand students’ breadth of knowledge of social behavior, organization, and diversity within populations. Research techniques help us see how social processes affect individual development and life chances.

6. **Discipline style writing**: The student will learn how to link the thinking and writing dimensions of the research process within the discipline of sociology.

Value Outcomes:
1. Students will value scientific inquiry.
2. Students will be able to discern false information from factual information.
3. Students will understand the appropriate method to utilize given the scientific question.

Class/Instruction Policies

**Taking a Sociological Perspective**: I encourage questions and discussion concerning course material and sharing personal observations and experiences. However, since you are enrolled in a sociology course, the main goal is to utilize a sociological perspective. This means that you should try to analyze various topics with an objective point of view. Objective point of view means looking through the lens of sociology. How does sociology utilize objectivity, you might be asking? Sociology is a social science – qualitative and quantitative research techniques are used to collect data about the social world. Sociologists must always strive to maintain an objective outlook when observing the social world. Therefore, in this course, you will be challenged to look within the layers of a social phenomenon or put another way, to look beyond what you see on the surface. In addition, you will not agree with everything you hear in class from the professor or your classmates. Part of becoming educated requires that your ideas are challenged. As a college-level student, you should be able to see different points of view of the same issue. I expect students to be respectful towards every person in this classroom, even if they disagree with certain viewpoints.
The role of the instructor is to present critical ideas, to offer an analytical framework for understanding the course material, to work with students in providing an inspiring learning environment, and to provide and receive constructive feedback. It is not the instructor’s role to tell the student what to think. The student’s responsibility is to read the readings with a critical mind, to question, to complete assignments on time, to participate in the exchange of ideas, and to work toward an inspiring learning environment. It is the responsibility of all of us to create a safe learning environment free of racism, sexism, classism, ageism, ableism, homophobia, transphobia and heterosexism.

Late Work: I will NOT be accepting late work under any circumstances. If you are turning in assignments, they must be uploaded at the specified due date and time in Canvas. I will not accept that assignment through email. You will earn a zero for the assignment and/or paper.

Additional Help: If you need additional help on assignments, papers, or any materials covered in class, you are more than welcome to set up an appointment with me or we can talk via email. Since this is an online class and you may not be in the area, email and/or talking on the phone may be the best solution. I am available equally to all of my students.

Incomplete Grades: I DO NOT GIVE OUT INCOMPLETE GRADES. ALL ASSIGNMENTS AND TESTS ARE DUE ON THE DATES OUTLINED IN THE SYLLABUS.

Other Relevant Issues
- If you have to leave early, please let me know before class begins.
- Please do not come to class late. Not only does this cause disruption but coming in late is disrespectful to the professor and your classmates.

- No texting or playing on social media while class is in session. No Facebook or other forms of social media during class time. Please do not listen to music while sitting in my class. I will ask you to leave the class and you will not earn attendance credit.

Located in Warrior Hall 416, the University Writing Center (UWC) at Texas A&M University—Central Texas (TAMUCT) is a free workspace open to all TAMUCT students from 10:00 a.m.-5:00 p.m. Monday thru Thursday with satellite hours in the University Library Monday thru Thursday from 6:00-9:00 p.m. This semester, the UWC is also offering online only hours from 12:00-3:00 p.m. on Saturdays.

Tutors are prepared to help writers of all levels and abilities at any stage of the writing process. While tutors will not write, edit, or grade papers, they will assist students in developing more effective composing practices. By providing a practice audience for students’ ideas and writing, our tutors highlight the ways in which they read and interpret students’ texts, offering guidance and support throughout the various stages of the writing process. In addition, students may work independently in the UWC by checking out a laptop that runs the Microsoft Office suite and connects to WIFI, or by consulting our resources on writing, including all of the relevant style guides. Whether you need help brainstorming ideas, organizing an essay, proofreading, understanding proper citation practices, or just want a quiet place to work, the UWC is here to help!

Students may arrange a one-to-one session with a trained and experienced writing tutor by visiting the UWC during normal operating hours (both half-hour and hour sessions are available) or by making an appointment via WCONline [https://tamuct.mywconline.com/]. In addition, you can email Dr. Bruce Bowles Jr. at bruce.bowles@tamuct.edu if you have any questions about the UWC and/or need any assistance with scheduling.

Course Requirements

1. **Research Design Drafts for Final Proposal Paper (200 total points):** You will complete three drafts (assignments). These drafts are designed to help in the development of your final proposal paper. Also take a look at [https://libguides.usc.edu/writingguide/researchproposal](https://libguides.usc.edu/writingguide/researchproposal). This website is an excellent resource, providing what your actual research proposal paper should contain.

**Instructions:** There are three parts to this assignment with each having a different due date. The goal is to complete each draft which will culminate into your Final Research Proposal Paper. The more work you put into these assignments, the less you should have to complete at the end of the semester when writing the final paper proposal. But the main goal is to construct an outline for what will become your final project. For the questions posed below, do not simply provide a one sentence answer. Provide dialog to support your answers. The grading rubrics for each draft are also located at the end of your syllabus. In addition to your textbook (Schutt 2017), you will also find helpful *Writing in Sociology: A Brief Guide* by Smith-Lovin and Moskovitz (2017). This short guidebook will help in the writing of your design drafts as well as your final proposal paper.

**Part 1: Research Question Development (50 total points) – Due Saturday September 19 by midnight**

1. State the topic in which you want to write your research proposal. (10pts)
2. What is your research question? Is it exploratory, explanatory, or descriptive in nature? (10pts)
3. What theoretical perspective drives your research question and your research (i.e. inductive or deductive) (10pts)
4. Why are you investigating this topic? (10pts)
5. You will earn points for spelling, grammar and sentence structure (10pts)

**Part 2: Review of the Literature – Annotated Bibliography (110 total points) – Due Saturday October 19 by midnight**

To begin your exploration of the topic, provide an annotated bibliography of 10 scholarly research articles on your topic. An annotated bibliography is basically a summary of each article. You want to summarize the important details about the research. The abstract of any research article and conclusion are very good places to start but you want to read the entire article. Also take a look at [https://libguides.usc.edu/writingguide/researchproposal](https://libguides.usc.edu/writingguide/researchproposal). This website is an excellent resource, providing what a research proposal paper should contain, including the literature review.
1. Each article is worth 10 points for a total of 100 possible points. You will also be graded on spelling, grammar and sentence structure (10pts).

2. You will use the annotated bibliography to construct your literature review in the final research proposal due at the end of the semester. This means that you will not cut/paste the annotated bibliography into the final paper. If you do, you will not earn points in your final paper proposal for your literature review section. You will write a cohesive literature review for the final paper. Let me know if you have any questions.

**Part 3: Research Design (40 total points) – Due Saturday November 16 by midnight**

1. Choose your research design. Depending on what method you choose, you will need to discuss how you will collect your data, state hypotheses, define concepts, variables etc. (10pts)

2. How you will you collect your sample? This will depend on the methods that you choose (i.e. Qualitative vs. Quantitative) (10pts)

3. What might be some of the limitations of your proposed study? (10pts)

4. You will earn points for spelling, grammar and sentence structure (10pts)
2. **Final Research Proposal Paper (200 points) – Due Monday December 9 at 8:00am:**
   Your final paper will include the sections that are contained in a research proposal paper (except for the results since you will not actually conduct the research). Your assignments/drafts leading up to the final paper should be utilized for the final project. **Keep in mind that you are not doing the actual research.**

**The Format and Organization of Paper**

- **Font:** Times New Roman 12
- **Margins:** 1” (inch) top and bottom, 1 (inch) left and right
- **Pages should be numbered** (page # centered at the bottom of the page)
- **Section breaks/headings for each section of your paper**
- **Your literature review should include no less than 10 scholarly research articles.**
- **Please double space your paper.**
- **10 - 15 pages of written text (3750 words).** All items in the appendices are not included in the page totals.
- **You should use American Sociological Association (ASA) Reference style.**

Please organize your final paper by using the following sections. The website [https://libguides.usc.edu/writingguide/researchproposal](https://libguides.usc.edu/writingguide/researchproposal) is also helpful in providing an overall depiction of what your proposal can contain. Below are the sections that you will want to include in your final research proposal paper:

- **Abstract**
- **Introduction, Background and Significance**
- **Review of the literature**
  - Your annotated bibliography is NOT your review of the literature. You want to write a literature review as you would for any social science research paper. Your annotated bibliography is used to help construct your final literature review section of this final paper proposal, but that is all. If you have questions, please let me know.
- **Methods/Research Design**
  - Measurement of concepts and variables
  - Data Collection Method
  - Selection of Subjects – Sample
- **Discussion/Conclusion**
  Even though you are not conducting an actual study, include a conclusion and answer the following: Summarize your findings. Are any other interpretations possible? Are your results substantively important? Do you think your findings would have been different under different methodological restraints (e.g., different size sample or different research design)? What light did the study shed on the theoretical frame? How do your results relate to social policy or the greater world beyond academia? What additional research questions and hypotheses are suggested or could be posed by your results?
- **References (in ASA format)**
3. Research Article Critique Papers (4 papers x 45pts/each = 180 total points): For your Research Article Critique Papers, I will provide you with an article to critique. In your tentative course syllabus, you will find the due dates for these papers. I will specify which article to critique for that week. The link to each article is located in Canvas under each assignment tab.

Just a word of warning, I do not want you all to copy/paste your information directly from the articles to fill in the information. Please provide your own analysis. If you do need to directly quote, use proper referencing. If all of your information is copy/pasted into your final assignment, this will be considered an act of plagiarism.

Directions:
• For your Research Article Critique Papers, I will provide you with an article to critique. In your tentative course syllabus, you will find the due dates for these papers. I will specify which article to critique for that week. Your articles are located under each assignment link in Canvas.
• Read the article and fill out the following information below, providing some detail regarding each section. My goal is to provide you with an article that is relevant to the course information you are learning about for that week OR material we have already covered. However, keep in mind that you may not understand everything that you read but the goal is to study each article and do your best to determine the correct answers.
• On page 216 (Appendix A) of your textbook, you can review “Questions to Ask about a Research Article.” On page 218 (Appendix B) of your textbook, you will also find an outline detailing “How to Read a Research Article.”
• Please make sure that you practice good spelling, grammar and sentence structure. This is a senior level class and you will earn points for your writing skills.
• You will find your grading rubric at the end of your syllabus. Do not leave any of your sections blank. If you are unsure of your answer, provide some dialog. I would prefer that you at least try. Sections of your critique include:

Assignment Outline
1. List citation of the article that you are reading (using American Sociological Association – ASA Reference style). Page 57 of your ASA guide goes over how to list a journal article.
2. Theoretical orientation
3. Measurement
4. Sampling
5. Research design - Specify type of method (examples below):
   • Experiments
   • Survey Research
   • Field Research
   • Content Analysis
   • Analyzing Existing Statistics
   • Comparative or History Research
   • Evaluation Research
6. Data analysis
7. Reporting (conclusions)
4. **Attendance (70 points):** Starting the first week of classes, I will take attendance using a sign-in sheet. The class will meet approximately 14 times. You will earn 5 points per day. Therefore, total number of attendance points that you can earn is 13x5=70 points. I consider all absences legitimate so I do not differentiate by labeling some types as excused and others unexcused; all absences are counted the same way. Please note: If you miss a class, you are responsible for getting notes or other materials from other students in the class. **If you come in late to class, you will not be allowed to sign in at the end of class. No exceptions.**

5. **ETS – Major Field Test in Sociology (50 points):** On Wednesday December 4th, sociology majors will be required to take this exam. Please meet at the testing center at 6pm to take this exam. The testing center is located in WH, room 212.

**Please make note that VeriCite has been enabled for all assignments. This system is much like turnitin where you can see what text from your assignment is taken from other sources. Use this embedded tool to help with your writing and referencing.**
