### **Course Description**

This course is for those students who have an interest in social work in the generalist field. The course gives a full description of the history and development of social work as a profession and emphasizes the social worker's role in various aspects of practice. The course is also designed to expose students to a variety of challenges facing communities in the Central Texas region, and to help students develop an understanding of their individual role in addressing those challenges through community service and volunteer activity.

Prerequisites: None

### **Nature of Course**

Introduction to social work focuses on the profession of social work: historical development, values, ethics, and various aspects of practice with an emphasis on the generalist perspective and populations at risk. Students experience aspects of the profession by identifying and responding to community/neighborhood challenges through volunteer, service learning work with local non-profit community agencies. There, students engage in individual service activities, which are designed to help them gain an understanding of community problems and the social work skills necessary for a professional response. The course also assists students in developing professional writing with a focus on American Psychological Association (APA) format of writing, as well as helping students to determine their desire to enter the field of social work or other helping professions.

### **Teaching Method**

The primary teaching approaches in this course will be lecture, experiential and active (applied) learning. Material in the course will be presented through interactive class discussions on readings and discussions on assignments. Classroom discussions will be a combination of interactive, collaborative learning, educational lecture, and guest speakers talking about a variety of social work positions. Students will also engage in service learning within a community nonprofit agency and process those experiences through classroom discussions.

### **About Your Professor**

As your Instructor, I look forward to providing support and guidance to assist you on your journey to learning about what it means to be a generalist social worker. I hold a Bachelors and

Masters in Social Work and worked in child welfare for over eight years. I enjoy being able to share my experiences to better help your understanding of the opportunities, realities and challenges of the social work profession. My desire is that your experiences in this interactive course will help you identify an area of social work practice that calls to you.

### **Program Mission**

The mission of the BSW Program at Texas A&M University - Central Texas is to prepare high quality graduates for entry-level generalist social work practice and advanced education. This education is delivered in a rigorous and student-centered learning environment that promotes professional behavior, values and ethics, human and community well-being, respect for human diversity, and a global perspective, and is guided by a person-in-environment framework, knowledge based on scientific inquiry, and social work competencies.

**Generalist Social Work Practice:** Work with individuals, families, groups, communities and organizations in a variety of social work and host settings. Generalist practitioners view clients and client systems from a strength's perspective in order to recognize, support, and build upon the innate capabilities of all human beings. They use a professional problem solving process to engage, assess, broker services, advocate, counsel, educate, and organize with and on behalf of clients and client systems. In addition, generalist practitioners engage in community and organizational development. Finally, generalist practitioners evaluate service outcomes in order to continually improve the provision and quality of services most appropriate to client needs.

Generalist social work practice is guided by the NASW Code of Ethics and is committed to improving the well-being of individuals, families, groups, communities and organizations and furthering the goals of social justice.

## Program Framework

The Social Work Program curriculum is rooted in a framework established by the Council on Social Work Education (CSWE). Specifically, the program endeavors to develop social workers who promote human and community well-being by being able to demonstrate the following 9 core competencies upon graduation:

1. Demonstrate ethical and professional behavior
2. Engage diversity and difference in practice
3. Advance human rights and social, economic, and environmental justice
4. Engage in practice-informed research and research-informed practice
5. Engage in policy practice
6. Engage with individuals, families, groups, organizations, and communities
7. Assess individuals, families, groups, organizations, and communities
8. Intervene with individuals, families, groups, organizations and communities
9. Evaluate practice with individuals, families, groups, organizations, and communities

Each core competency has specific, measurable practice behaviors that help students and their professors determine if the competency has been achieved. There are 31 total practice behaviors. The complete list of practice behaviors can be found at the end of this syllabus or by reviewing the student handbook.

## Course Objectives & Related CSWE Practice Behaviors

This course provides content that helps to prepare you, the generalist social work student, to engage in the following CSWE competencies and related practice behaviors:

- 1.1 Make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulations, models of ethical decision-making, ethical conduct of research and additional codes of ethics as appropriate to context
- 1.2 Use reflection and self-regulation to manage personal values and maintain professionalism in practice situations
- 1.3 Demonstrate professional demeanor in behavior, appearance; and oral and, written and electronic communication
- 1.5 Use supervision and consultation to guide professional judgment and behavior

- 2.2 Present themselves as learners and engage clients and constituencies as experts of their own experiences
- 2.3 Apply self-awareness and self-regulation to manage the influence of personal biases and values in working with diverse clients and constituencies

The objectives for this course, that support the CSWE related practice behaviors, are:

1. Students will understand the development of the social work profession, recognize the methodologies used in the social work profession, and become familiar with the multiplicity of settings in which social workers practice and the diversity of roles and function they perform.
2. Students will be able to understand the scope of the social challenges facing individuals, organizations, and communities in the Central Texas Region and explore solutions to community problems through volunteer service and reflection on that service, thereby understanding the importance of individual and group volunteer action in solving community problems and that there are a variety of approaches to solving community problems.
3. Through volunteer work with local agencies, students will work to conduct themselves as professional social workers, understand the importance of professional written communication, and become more aware of his/her personal beliefs about the individual's relationship to the community through exploring personal values, individual action, and social values.

The following table shows the relationship between: A) the course objectives, B) the CSWE related practice behaviors, and C) the assignments used to assess your ability to fulfill the objective related to the practice behavior:

Failure to comply with attendance and participation in class will be reflected on the professional development rubric and be part of the student's record. Each class is worth 5 points for attendance, 5 pts for participation.
- Students receive a zero (0) for any absence. If you are unable to avoid missing a class, will be tardy or have an early departure from class, **you must notify the professor via email before the class period** to explain the absence.
- *At times, assignments on Canvas will serve as your attendance/participation grade (for example, a Canvas assignment). Failure to complete and submit these assignments in accordance with the instructions provided can and will result in a deduction of attendance/participation points for that day's assignment, up to and including receiving a zero for the assignment/day.*
- *Please note: If your schedule is such that you find it consistently difficult to arrive to class on time, remain for the full class, or arrive to class at all, it is advised that you find a course that would best meet your scheduling needs.*

**Service Learning Volunteer Experience (150pts) & Service Learning Final Evaluation (150pts)**

Each student enrolled in this course will be required to establish a volunteer placement and successfully complete 30 hours volunteering at that agency during the semester (approximately 2.5 hours a week). Each student must have a different volunteer placement. This will be measured by the submission of necessary forms.

You must submit:

- i. A Service Learning Volunteer Contract (10pts) form signed by the person at the agency who will be supervising your service learning activities (to be given out in class).
- ii. A Release and Indemnification Agreement (10pts) signed by you (to be given out in class).
- iii. Service Learning Volunteer Time Card (50pts) signed by you and supervisor showing completion of 30 hours.
- iv. Midterm Professional Evaluation of student completed by your supervisor. (10pts)
- v. Service Learning Bingo (50pts) completed by you and 1-5 sentences explaining how you have demonstrated this social work skill

- vi. Service Learning Final Evaluation form by your volunteer supervisor (150 points will come from this evaluation)
- vii. Student evaluation of Agency form you complete. (20pts)

Your Volunteer Contract and Release form must be submitted by the **6th class day**. If you have not secured your volunteer placement by then, you will need to withdraw from the class. Failure to withdraw from the class will result in an "F" in the course.

**Volunteer hours must be completed no later than **December 6th**. Final signed time sheets will be due at this time as well. Volunteer hours cannot be completed before this date. Student is expected to complete 2-3 hours per week fall & spring or/4-5 per week summer. Failure to complete the hours will result in an "F" in the course. Any student who is dismissed from their volunteer agency for concerns of unprofessional or unethical conduct will receive an "F" in the course. Students cannot volunteer at their place of employment, this includes a separate department within the organization.**

#### **Service Learning Time Sheets 50pts**

Each student will submit a time sheet with the log of hours of the time s/he spent volunteering at their community agency. Students are responsible to enter their time correctly and keep a copy for their records. Time sheets require supervisor signature and will be due in the beginning of each month. **Students who falsify any information on a time sheet will receive an "F" in the course.** Professor reserves the right to contact the agency supervisor to confirm time sheet reported by student. Providing all completed time sheets showing 30 hours timely will demonstrate the student has earned the 50 points for the volunteer experience.

#### **Reflection Journal: 100 pts**

Each student will keep a journal of individual service/volunteer experiences. A journal entry should include a cover page, reference page when applicable and two sections: (1) This paragraph includes the activities the student took part in and demonstrating correct citation and, (2) the second paragraph includes the student reflections/thoughts/feelings/concerns/ideas, etc. about these activities. Each journal entry should be double spaced, 12 font size, Times New Roman and about one page in length and be free of grammatical errors. Each section, (1) and (2), should be in paragraph form (minimum of 5 sentences). Each section is required in the journal. If one section is left out of the journal, this will be an automatic 5 point deduction. It absolutely must include some reflection about both thoughts and feelings about the activities the student witnessed and/or in which you engaged to get. The students will also include what practice behavior

they demonstrated based on the journal entry. 1 point of the 10pts will reflect that the student has utilized tutor.com or the writing center to check grammar, spelling or punctuation. For every grammatical/spelling/punctuation/APA error found, points will be deducted.

The agency profile paper should be a professional paper that describes in detail important structural aspects of a social service organization or agency where the volunteer experience is being conducted. It should describe the agency's organizational structure, funding, mission, policies and procedures, service area(s), and types of clients served. It should also include a description of how volunteers impact the agency and recommendations to assist the agency with functioning in one of the above areas. The paper should be based on information you obtain while volunteering with the agency, interviews with staff, interviews with clients, written material (such as information pamphlets or policy and procedure manuals), newspaper articles and/or volunteer work experience within the organization. - The student who is placed at the agency will be the group leader
- Co-Leaders will be identified
- Students will either volunteer their time or donate an item if they cannot be present
- The leader along with Ms. Molina will develop a theme for the event

## CLASS POLICIES

The following policies apply to all students enrolled in this course:

1. Students are not permitted to enter class more than ten (10) minutes late. Exceptions will be made with prior discussion and approval by the professor only.
2. Once class has begun, students are expected to remain for the duration of the class. It is expected that all students will take care of personal affairs (i.e., get beverages, take care of phone calls, meeting with students and other professors, use the restroom, etc.) before class begins. Students who have a medical/physical condition for which they need to request an exception to this policy are advised to speak with the Disability Services Coordinator and/or discuss this with the professor to see if an exception can be granted. Students leaving the class outside of these parameters should not attempt to re-enter the class and will receive a 0 for class participation and/or attendance that day.  
***Please note:** During the summer when classes are 2 hours and 30 minutes in length, the instructor will have a minimal 10 minute break built into each scheduled learning period to support student needs.*
3. Students are expected to display professional decorum at all times. This includes, but is not limited to, respecting classmates and the instructor. In this regard, it is expected that students will not speak to/hold conversations with/pass notes to other students, use cell phones, or engage in other types of unprofessional behaviors once class has begun. Talking during lecture, out of turn, or while other students are talking is disruptive to the learning environment, disrespectful to peers, and unprofessional in demeanor. Students are strongly encouraged to engage in discussion in a respectful and appropriate manner; hence, it is expected that students apply classroom etiquette and raise a hand if there is something to share or to answer a question. It is also expected that students will display patience in raising a hand and recognize that the professor will eventually call on the student and/or may attempt to vary responses from peers **and not call on the student in an effort to do so**. Shouting out answers, making loud noises, and/or waving a hand vigorously to capture attention is unprofessional and inappropriate behavior. Consistent display of such behavior

will result in consultation by the professor and can potentially impact the attendance/participation grade.

***Please note:** This professor will NOT assign seats to students. If behavior accelerates to such a need, a meeting will be requested with the student, the instructor and potentially the department to address appropriateness to be able to continue with the course. If it is determined that the behavior significantly impacts/impairs learning for other students, the student may be asked to leave the class permanently, resulting in an F for the course.*

4. To support the academic learning environment, students are asked to refrain from sharing personal information in class that will not support/add significantly to the class discussion. Sharing of personal stories and/or issues that are not related to the topic can distract class learning and limit knowledge sharing by the professor and other students. In this regard, please note that the professor reserves the right to redirect/limit such conversations in class unless students are expressly asked to share such information by the instructor.
5. **NO TECHNOLOGY IS PERMITTED DURING IN CLASS EXAMS, QUIZZES, OR OTHER TYPES OF ASSIGNMENTS AS DEFINED BY THE PROFESSOR, UNLESS GIVEN SPECIFIC PERMISSION BY THE PROFESSOR.** During such assignments, students may be asked to turn in cell phones to the professor, place bags beneath desk or to the side of class, or other request to minimize use of such technology. Students discovered to be using cell phones, ipads, e-readers, recording devices, etc. during assignments without expressed, written approval by the professor to do so will receive a zero (0) for the assignment and referred to Student Affairs for academic integrity concerns. Students warned against doing so once and found to do so again in this or any subsequent course will receive an F for the course in which the behavior was identified and referred to Student Affairs.
6. Students are NOT permitted to work collaboratively (together) on *any* assignment unless given EXPRESSED permission by the instructor to do so. This includes homework, take home quizzes, papers, etc. Failure to adhere to this policy can result in a zero (0) on the assignment and referral to Student Affairs for academic integrity concerns.

7. **All assignments must be turned in at the beginning of class on the day they are due.** The professor will explain to you when the beginning of class is for the course (*for example*: 10 minutes after the start of class, following the class greeting by the instructor, etc.). Papers that are not stapled will not be accepted. Late work ***will not*** be accepted or graded unless this has been discussed with and approved by the professor **BEFORE** the due date (not the time) of the assignment. *Being absent from class on a day when an assignment is due does NOT grant a student an extension to the due date;* the student must still arrange to get that assignment turned in to the professor before class starts. Allowing students to turn in assignments late for a grade is not fair to other students who get their work done on time, disrupts the grading process for the professors, and sends a message that such behavior is professionally “okay,” which it is not. This, as well as all other policies, will be held to strict code, and failure to adhere to this policy will result in a zero (0) for the assignment. This is inclusive of all assignments.

***Please note:*** *This professor considers it unprofessional and unacceptable to run into class with a newly printed paper and attempt to assemble the paper at the professor’s desk/podium (getting pages together, stapling, etc.) prior to turning the paper/assignment in. This shows failure to effectively plan and take initiative to get assignments turned in on time. Two (2) points will be deducted from any paper/assignment (even if turned in before class) that is prepared and submitted in such a manner;* hence, it is advisable to appropriately assemble papers for submission **BEFORE** entering class.

8. Unless otherwise noted, hard copies of papers must be submitted. Students should be prepared to submit electronic copies of any paper for class at the discretion of the instructor. Papers that are not stapled will not be accepted.
9. All papers submitted for grading **MUST** adhere to APA 6<sup>th</sup> edition standards unless otherwise stated by the professor. This means that all papers must, *minimally*, be: 1) typed, 2) double spaced, 3) use Times New Roman font, 4) use 12 point font, 5) include an APA style cover page, and 6) include in-text citations **AND** a reference page for **ANY SOURCED INFORMATION** (this includes

information learned in current or previous classes, read online, learned during a personal communication, reviewed over email, read in a text-book, etc.).

Further, all typed papers submitted in class MUST be stapled or clipped together (if too large for staple). It is not acceptable, nor professional, to hand in a paper that is not professionally bound (in academia, professionally bound means stapled or securely clipped together). Unless instructed to do so, submitting papers in folders, binders, etc. are not required and should be limited in use.

10. TAMU-CT expects all students to maintain high standards of personal and scholarly conduct and avoid any form of academic dishonesty. Academic dishonesty includes, but is not limited to, plagiarism (intentional or unintentional), copying another person's work, turning in someone else's work as your own, downloading material from the internet and inserting it into a paper as if it was your own work, taking ideas from classes or readings and putting them in a paper without citations/references, cheating on an examination or other academic work, collusion, and the abuse of resource materials. Any idea, even paraphrased ideas, used or borrowed must be given credit by showing the source with an appropriate citation and reference.
  
11. **Additional & Important Note on Writing Assignments:** All written assignments are expected to be the original work of the student. While paraphrasing and some direct quotations are permitted, it is expected this will be done within the context of your own analysis and synthesis of the information read. Paraphrasing is a skill of reading information and, using your own thoughts, summarizing the information in a way that supports the topic discussed. While the paraphrase involves your own thoughts, it originates from a source and that source is cited. Quoting is a matter of taking words, verbatim, from another source and restating them without, or with minimal, manipulation. Quotations are placed in quotation marks (" ") or placed in a block format within the text. Quoting does not involve analysis and synthesizing and, therefore, does not require critical thinking except when used appropriately to support (not substitute) an idea. Because of this, students are discouraged from using significant quotations as this limits your learning experience. Students found to excessively quote will be penalized. Students using words as their own without appropriately citing will be penalized – including failing the assignment and up to failing the course.

Students found to have plagiarized (using words as your own without giving **proper credit**, whether paraphrasing or directly quoting) will also be referred to the Student Affairs. Therefore, it is **VERY** important that students take academic integrity in writing very seriously. If you are in doubt, it is always best to cite your source and/or speak with your professor for more guidance. The Writing Center, Library, and Owl Purdue are also resources that can help you.

12. Class discussions, oral presentations, and written materials must adhere to professional standards of expression and conform to the style described by the American Psychological Association (APA, 2009). This includes avoidance of the use of language that degrades women, people of color, gays, lesbians, bisexuals, transgendered, and other diverse and at-risk populations. All students are expected to display the utmost respect for all people, regardless of differences.

### 13. Use of Technology in Service Learning:

The Internet has created the ability for students and social workers to communicate and share information quickly and to reach millions of people easily. Participating in social networking and other similar Internet opportunities can support a students' personal expression, enable individual social workers to have a professional presence online, foster collegiality and camaraderie within the profession, provide opportunity to widely advocate for social policies and other communication. Social networks, blogs, and other forms of communication online also create new challenges to the social worker-client relationship. Students should weigh a number of considerations when maintaining a presence online:

(a) Students should be cognizant of standards of client privacy and confidentiality that must be maintained in all environments, including online, and must refrain from posting identifiable client information online or conducting searches using client information.

(b) When using the Internet for social networking, students should use privacy settings to safeguard personal information and content to the extent possible, but should realize that privacy settings are not absolute and that once on the Internet, content is likely there permanently. Thus, students should routinely monitor their own Internet presence to ensure that the personal and professional information on their own sites and, to the extent possible, content posted about them by others, is accurate and appropriate.

(c) Students should never interact with clients, co-workers, or supervisors on the Internet, students must maintain appropriate boundaries of the social worker-client relationship in

accordance with professional ethical guidelines, just as they would in any other context. Example, do not ask your supervisor, clients, or co-workers to be your friends on Facebook. **Example, do not accept friend request of any client or anyone you work with at your service learning agency.**

(d) To maintain appropriate professional boundaries students should consider separating personal and professional content online. Should a client seek out a student online, the student should direct the client with the students professional contact information.

(f) Students must recognize that actions online and content posted may negatively affect their reputations among clients and colleagues, may have consequences for their social work careers and can undermine public trust in the social work profession.

*(Adopted from the American Medical Association, 2010)*

#### ***Final Note Regarding Class Policies***

*The aforementioned policies are designed to create and foster a positive and rewarding learning environment for all students. Failure to adhere to the aforementioned class policies, as well as university policies, demonstrates a potential inability to conduct oneself professionally in the field of study. These policies are applicable throughout the program and, as such, students who consistently fail to comply with these policies will be considered inappropriate candidates for field placement and/or the degree of Bachelor of Social Work at TAMU-CT, as their behavior is considered inappropriate for a social work practitioner.*

*An assessment of student behavior as it relates to class policies, and overall decorum required throughout the TAMU-CT social work program and the University, is provided via the "Rubric for Assessing Professional Behaviors" (attached to this syllabus). Any student in this course found to perform below the standard requirements will be provided with a rubric outlining areas for concern. Failure to obtain scores of 3 or 4 in any of the 15 professional behavior areas listed in the rubric will limit a student's ability to be assigned a field placement and/or can result in removal from a field placement. These behaviors, which align with the National Association of Social Workers (NASWs) core values and ethics, TAMU-CTs Code of Conduct, and the Social Work Program class*

*policies, are considered the expected professional behaviors of social work interns and future generalist social workers and, therefore, are held to the strictest code.*

## University Policies

### Drop Policy.

### **A Note about Sexual Violence at A&M-Central Texas**

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

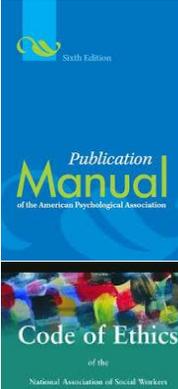

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don't agree with their behaviors and tell survivors we will support them. Your actions matter. Don't be a bystander; be an agent of change. For additional information on campus policy and resources visit the [Title IX webpage](https://www.tamuct.edu/departments/compliance/titleix.php) [https://www.tamuct.edu/departments/compliance/titleix.php].

### **Textbook Purchasing**

A student of this institution is not under any obligation to purchase a textbook from a university-affiliated bookstore. The same textbook may also be available from an independent retailer, including an online retailer.

**ACKNOWLEDGEMENT AND AGREEMENT FOR ACADEMIC INTEGRITY IN  
INTRO TO SOCIAL WORK**

All written assignments are expected to be the original work of the student. While paraphrasing and some direct quotations are permitted, it is expected this will be done within the context of your own analysis and synthesis of the information read. Paraphrasing is a skill of reading information and, using your own thoughts, summarizing the information in a way that supports the topic discussed. While the paraphrase involves your own thoughts, it originates from a source and that source is cited. Quoting is a matter of taking words, verbatim, from another source and restating them without, or with minimal, manipulation. Quotations are placed in quotation marks (") or placed in a block format within the text. Quoting does not involve analysis and synthesizing and, therefore, does not require critical thinking except when used appropriately to support (not substitute) an idea. Because of this, students are discouraged from using significant quotations as this limits your learning experience. Students found to excessively quote will be penalized. Students using words as their own without appropriately citing will be penalized – including failing the assigned project and up to failing the course. Students found to have plagiarized (using words as your own without giving **proper credit**, whether paraphrasing or directly quoting) will also be referred to the Student Affairs. Therefore, it is **VERY** important that students take academic integrity in writing very seriously. If you are in doubt, it is always best to cite your source and/or speak with your professor for more guidance. The Writing Center, Library, and Owl Purdue are also resources that can help you. *You are required to acknowledge receipt and understanding regarding the policy for academic integrity in this course by signing and submitting the acknowledgement statement. Failure to do so will result in consultation with the professor, program faculty and/or Student Affairs and could limit your successful continuation in this course.*

My printed name and signature below confirms that I acknowledge the above mentioned Academic Integrity guidelines for this course. I willingly agree to participate in the class and abide by ALL academic integrity parameters for this course (including ALL university and class policies). I further understand that failure to do so can result in academic penalties including and leading up to failure of the course and referral to Student Affairs.
