

SOCl 5389: QUALITATIVE RESEARCH METHODS
100% online

Professor: Roslyn Schoen, PhD

Office: Heritage Hall 204B

Office hours: Tuesdays and Thursdays 1-4 PM

Course Description: This course will provide students with an advanced understanding of the methodological approaches we commonly think of as qualitative research methods, with special emphases on various types of interviewing, observation techniques, ethnographic field-based methods, and content analysis. Students will learn both the techniques of qualitative research and engage in philosophical, ethical, and theoretical conversations around qualitative methods. The course will explore issues of research ethics as they pertain to qualitative research in the social sciences as well as the history and epistemological basis of qualitative research methodology.

Course Objectives: The primary objective of this course is to familiarize students with the intellectual and pragmatic issues concerning qualitative research methods in the social sciences. Students will be able to...

1. Understand qualitative research in the social sciences, including data collection techniques, analysis, writing, and presenting qualitative material.
2. Be familiar with the history of qualitative research in the social sciences.
3. Apply the theoretical conventions of qualitative research methodology to empirical cases.
4. Practice various forms of data collection and analysis related to observation, interviewing, and textual analysis.
5. Discuss the epistemological history of qualitative methods and understand the distinction between these epistemological assumptions and those of other types of social science research.
6. Examine the ethical responsibilities of qualitative researchers in light of the much closer contact with “subjects” and “informants” than in other areas of research.
7. Think collectively and critically about qualitative research, including the ability to locate and assess the quality of published qualitative studies.
8. Identify the professional norms and styles for writing and presenting qualitative research findings.

Mode of instruction and course access: This is an online course with all assessments and lectures available through our course Canvas page.

By providing a practice audience for students' ideas and writing, our tutors highlight the ways in which they read and interpret students' texts, offering guidance and support throughout the various stages of the writing process. In addition, students may work independently in the UWC by checking out a laptop that runs the Microsoft Office suite and connects to WIFI, or by consulting our resources on writing, including all of the relevant style guides. Whether you need help brainstorming ideas, organizing an essay, proofreading, understanding citation practices, or just want a quiet place to work, the UWC is here to help!

Students may arrange a one-on-one session with a trained and experienced writing tutor by visiting the UWC during normal operating hours (both half-hour and hour sessions are available) or by making an appointment via [WCOnline](#). In addition, you can email Dr. Bruce Bowles Jr. at bruce.bowles@tamuct.edu if you have any questions about the UWC and/or need any assistance with scheduling.
