### **COVID-19 Safety Measures:**

To promote public safety and protect students, faculty, and staff during the coronavirus pandemic, Texas A&M University-Central Texas has adopted policies and practices to minimize virus transmission. All members of the university community are expected to adhere to these measures to ensure their own safety and the safety of others. Students must observe the following practices while participating in face-to-face courses, course-related activities (office hours, help sessions, transitioning to and between classes, study spaces, academic services, etc.) and co-curricular programs:

- Self-monitoring—Students should follow CDC recommendations for self-monitoring. Students who have a fever or exhibit symptoms of COVID-19 should participate in class remotely and should not participate in face-to-face instruction. Students required to quarantine must participate in courses and course-related activities remotely and must not attend face-to-

face course activities. Students should notify their instructors of the quarantine requirement. Students under quarantine are expected to participate in courses and complete graded work unless they have symptoms that are too severe to participate in course activities.

- **Face Coverings**— Face coverings must be worn inside of buildings and within 50 feet of building entrances on the A&M-Central Texas Campus. This includes lobbies, restrooms, hallways, elevators, classrooms, laboratories, conference rooms, break rooms, non-private office spaces, and other shared spaces. Face coverings are also required in outdoor spaces where physical distancing is not maintained. The university will evaluate exceptions to this requirement on a case by case basis. Students can request an exception through the Office of Access and Inclusion in Student Affairs.
- If a student refuses to wear a face covering, the instructor should ask the student to leave and join the class remotely. If the student does not leave the class, the faculty member should report that student to the Office of Student Conduct. Additionally, the faculty member may choose to teach that day's class remotely for all students.
- **Physical Distancing**—Physical distancing must be maintained between students, instructors, and others in the course and course-related activities.
- **Classroom Ingress/Egress**—Students must follow marked pathways for entering and exiting classrooms and other teaching spaces. Leave classrooms promptly after course activities have concluded. Do not congregate in hallways and maintain 6-foot physical distancing when waiting to enter classrooms and other instructional spaces.
- The university will notify students in the event that the COVID-19 situation necessitates changes to the course schedule or modality.

**Article Reviews:** (20 points, due by the end of Week 10)

Students will find 2 peer reviewed journal articles published in the last 10 years from a Psychology or Counseling journal with a developmental focus. The developmental focus may simply be focused on one age group (e.g. teens, elderly) but it is encouraged to look for papers that show changes over the lifespan.

The 2 article reviews should be a page or two long each and posted in Canvas in the class discussion thread. The reviews do not need to be in APA format, but simply explain the article's method, findings, and a short discussion about how the findings could impact practice or future research.

This review is to be original work by the student, meaning that the student based their work on their own library research and intellectual work expressly for this class. While you are encouraged to pursue topics that you have an interest and background in, it is not acceptable to recycle work completed for other courses.

This assesses SLO 2 and 3. Rubric: 6 points Informational content, 3 points peer reviewed source, 1 point for clarity.

**Tests:** (60 points, see calendar for dates, Weeks 5, 9, 15 & Final)

Examinations will cover assigned readings, lecture material, and class discussions. Students are expected to take all examinations as scheduled. It is the student's responsibility to contact the professor to arrange alternative times to take tests. This should be completed in advance of scheduled test times.

This assesses SLO3. Rubric: Quality of responses to questions taken from Study Questions, points based on quantity of concepts from readings and quality of details from theories, with emphasis on the incorporation of feedback into responses.

**Reading Reflections:** (20 points: 4 required for 5 points each, due by class time most weeks)

Students will be expected to turn in four reading reflections covering the current weeks reading assignments. These will be two to three paragraphs in length. Reading reflections should be description of how a concept from that week's readings relates to a real world experience of the student. As this will involve the use of "I", these reflections will not be in APA format. Autobiographical content is expected but should not be overly sensitive as confidentiality may not be maintained. Reflections will be posted for other students to read, and so the protecting the identity of 3<sup>rd</sup> parties is important. Do not identify other people involved in the situation used to illustrate the concept being discussed beyond generic "my brother" or "my aunt" descriptions. The reading reflections should **NOT** be a summary of the chapter, but rather a reflection of the information to real life experiences. Students may turn in more than four reading reflections, in which case the four highest grades will be counted. Students may choose the chapters to reflect on.

Reading reflections are due by the end of every week that covers a chapter. **Late reading reflections will not be accepted.**

This assesses SLO1 and 2. Rubric: Points awarded for correctly illustrating concepts from the reading with personal experiences that do not identify 3<sup>rd</sup> parties.

**Posting of Grades:** All grades will be posted in Canvas. Students can expect to see grades returned within 10 days of submission under normal circumstances.

**A Note about Sexual Violence at A&M-Central Texas:**

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don't agree with their behaviors and tell survivors we will support them. Your actions matter. Don't be a bystander; be an agent of change. For additional information on campus policy and resources visit the Title IX webpage [<https://www.tamuct.edu/compliance/titleix.html>].

**Behavioral Intervention:**

Texas A&M University-Central Texas cares about the safety, health, and well-being of its students, faculty, staff, and community. If you are aware of individuals for whom you have a concern, please make a referral to the Behavioral Intervention Team. Referring your concern shows you care. You can complete the referral online [[https://cm.maxient.com/reporting-form.php?TAMUCentralTexas&layout\\_id=2](https://cm.maxient.com/reporting-form.php?TAMUCentralTexas&layout_id=2)].

Anonymous referrals are accepted. Please see the Behavioral Intervention Team website for more information [<https://www.tamuct.edu/student-affairs/bat.html>]. If a person's behavior poses an imminent threat to you or another, contact 911 or A&M-Central Texas University Police at 254-501-5800.
