COURSE REQUIREMENTS
This course is made up of a series of assignments and assessments to assist you in achieving the course and learning objectives/outcomes. Each week you will work on various combinations of assignments, activities, classroom discussions, readings, group research, etc. which will be made available to you by each Monday.

Chapter Homework. Chapter homework will be due each Sunday no later than 12:00 a.m. Some of your assignments are algorithmic, which means that everyone in the class will have a different version of the problem to work. It will be the same basic problem that is in the book, but with different numbers. You will be able to print the problem and work it out and then return to the site and enter the answers. You should use these to review/study for exams since you will not have access to them online after the due date. In these types of problems, you may be given hints as you work and you will be shown the correct answer after you submitted your answers. If you want to improve your grade on these homework problems, you may work them more than once. You may have up to three attempts with a different version being given each time. Each set of homework problems will generally be divided into two sets to make it easier to complete an assignment, check your answers, and redo it to improve your grade without having to redo all problems. These assignments may be used to measure the course embedded outcome assessment objectives listed earlier in this syllabus. Each assignment will generally be available one week before the due date (approximately 7 days). The chapter homework is worth 200 points.

Chapter Quizzes. Chapter quizzes (approximately 20 to 25 questions) will be given at regular intervals (all scheduled to be due on Sunday no later than 12:00 a.m.) to give you flexibility in pacing your instruction, but encourage you to keep on track to finish the material in a timely manner. These quizzes will be a random selection from a group questions online and the answers will be different for each student. These graded quizzes will be timed and may be taken up to TWO times. I will always take the higher of the two grades if you choose to retake a given quiz. Quizzes will be accessed on the Connect Accounting web, just like your homework. You should allow at least an hour or two to take the quizzes. The actual time will vary depending on the type and number of questions asked. All quizzes will be available approximately one week prior to the due date. The due date for all the quizzes are listed on the assignment sheet by the date. After the due dates for each quiz, you will be able to access your quiz grade and see the suggested solution for each question. The chapter quiz is worth 300 points.

Final Examination. You will have one exam (a final) that will be from the same database of the questions that is used for the chapter quizzes and will have different solutions for each student. The exam will also be accessed on the Connect Accounting website. The graded exam will be timed and may be submitted only one time. You should schedule about two hours to take the exams, but the actual time allowed will depend on the type and number of questions asked. The
final exam is worth 400 points.

**Chapter Group Cases.** Chapter cases will be given to preselected groups. The cases will be selected from the end of the chapters. The group participants will be responsible to write a summary of the questions asked in the case and to prepare a power point presentation to present to the class. The groups will be graded on the submitted paper and class presentation. The paper must be completed in APA format. The chapter group case is worth 100 points.

**Grading Criteria Rubric and Conversion**

OPTIONAL POLICY STATEMENTS:
A Note about Sexual Violence at A&M-Central Texas
Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don’t agree with their behaviors and tell survivors we will support them. Your actions matter. Don’t be a bystander; be an agent of change. For additional information on campus policy and resources visit the Title IX webpage [https://www.tamuct.edu/departments/compliance/titleix.php].
