COURSE INFORMATION
Course Overview and description:
This course is a part and a continuation of the Intermediate Accounting sequence. It extends and builds directly on what students have learned in ACCT 3303 and 3304. Topics that may be covered in the course include: accounting for pensions and other post-retirement benefits;
accounting for income taxes as such taxes affect a corporation's financial reporting; changes in accounting principles and correction of errors; preparation of the statement of cash flows. The course demonstrates interrelationships among topics that students have previously studied in isolation from each other.

**Course Objective:**
Your achievement level for each objective will be measured by your success in completing the assignments and exams. The successful student, upon completion of this course, will be expected to have achieved the following as a result of this course:

A) Knowledge Outcomes
1. The general revenue recognition criterion and exceptions to that general rule
2. The impact of timing differences between GAAP and income tax regulations
3. Situations that give rise to deferred tax assets and deferred tax liabilities
4. Practical difficulties in accounting for pensions and other post-retirement benefits
5. The general rule for accounting for changes in estimates and rationale for the rule
6. The methods of accounting for changes in accounting principle and what constitutes a change in accounting principle
7. The general requirement for correction of accounting errors
8. The categories of cash flows reported on the statement of cash flows and the types of events that make up each category

**Required Reading and Textbook(s)**
   With Connect

**COURSE REQUIREMENTS**
There will be a variety of graded and non-graded activities throughout the semester. Each activity will assess your command of the material as well as your understanding of the course goals and concepts. Activities are assigned and completed during the class period unless
otherwise noted and cannot be turned in late or if classes are missed.

**Chapter Homework:** Chapter homework will be conducted in Connect. The homework problems will consist of problems from the chapter.

**Chapter Quizzes:** Chapter quizzes will be conducted in Connect. The quizzes will consist of true/false questions, matching questions, and multiple-choice questions.

**Chapter Cases (group):** Chapter cases will be assigned for each chapter. Chapter cases are group assignments that consist of real-world scenarios. Each group will present their findings with a class presentation (PowerPoint Slides).

**Research Paper (group):** For this project, you will be working in groups of three or four students. Each student will individually research a company and analyze the Items for Analysis listed below. After your individual analysis is completed, you will compare your companies within your team and determine similarities and differences. You will then prepare a group paper and presentation that includes a discussion of which company is performing better financially.

**Items for Analysis**

1. Review your company’s current and long-term liabilities section of the most recently published balance sheet. Explain the details of the current and long-term debt based on the disclosures found in the financial statements. Do **not** complete a ratio analysis. Instead, focus on the details in the notes and determine how well the company presented the information to an informed reader. What did the company provide about its debts in the notes, and why is that information important? How does each company comply with the rules as provided in the FASB Codification?

2. Review your company’s stockholders’ equity section of the balance sheet. Explain the details of the stock transactions, including treasury stock (if applicable), based on the disclosures found in the financial statements. Do **not** complete a ratio analysis. Instead, focus on the details in the notes and determine how well the company presented the information to an informed reader. What did the company provide about its equity in the notes and why is that information important? How does each company comply with the rules as provided in the FASB Codification?

3. Review your company’s investments on the balance sheet. Explain the details of the investments based on the amounts and disclosures found in the financial statements. What information does the investment section, along with applicable notes to the financial statements, provide to the user? How does each company comply with the rules as provided in the FASB Codification?

4. Review your company’s revenue recognition note in the notes to the financial statements. Explain the details of the revenue recognition policies and procedures based on the disclosures found in the financial statements. How does this information help the user of the financial statements understand when and why revenue is recognized? How does each company comply with the rules as provided in the FASB Codification?

5. Review your company’s liabilities to determine if it offers a pension plan or the notes to determine if provides postretirement benefits for its employees. Discuss the type of
retirement plan the company provides and the overall impact of the plan on the financial statements. Would you want to work for that company based on the retirement plan it offers? How does each company comply with the rules as provided in the FASB Codification?

6. Determine if your company has assets under capital lease on its balance sheet. Explain the details of the leasing transactions, capital or operating, based on the amounts and disclosures found in the financial statements and the notes to the financial statements. How do the capital or operating leasing arrangements impact the overall profitability and debt position of your company? Do not complete a ratio analysis. Instead, focus on the details in the notes and determine how well the company presented the information to an informed reader. What did the company provide about its leases in the notes and why is that information important? How does each company comply with the rules as provided in the FASB Codification?

7. Examine the statement of cash flows for your company. Where is the company generating revenue? What investments did it make over the past fiscal year? Did the company have financing activities? How would you describe the overall cash position of your company? Again, use the notes to the financial statements (not ratio analysis) to support your findings. How does each company comply with the rules as provided in the FASB Codification?

Project Requirements

Prepare a comparative paper using the companies your team members analyzed. Summarize at least four of the seven Items for Analysis listed above for each individual company. All team members need to analyze the same four items. The paper should flow logically, appear to be written in one voice, and included the following:

1. An introductory paragraph about the industry in which your companies compete.
2. Body of the paper consisting of a comparative analysis of the four Items for Analysis as they apply to your companies and are “proven” through the FASB Codification.
3. A conclusion presenting your opinion of the adequacy of your companies’ disclosures and application of the law as described in the FASB Codification, clearly identifying which company best discloses the financial data in accordance with the FASB Codification.

General Requirements

Prepare this assignment according to the guidelines found in the APA Style Guide, located in the Student Success Center. An abstract is required.

Final Exam: There will be one comprehensive exam. The exam will cover topics identified, cases, class discussions, and other material.

Grading Criteria Rubric and Conversion
Students earn their course grades by completing scheduled assignments; no extra credit
assignments are given. To satisfactorily pass this course, students must complete each of the

**University Writing Center**
Located in Warrior Hall 416, the University Writing Center (UWC) at Texas A&M University–Central Texas (TAMUCT) is a free workspace open to all TAMUCT students from 10:00 a.m.-5:00 p.m. Monday thru Thursday with satellite hours in the University Library Monday thru Thursday from 6:00-9:00 p.m. This semester, the UWC is also offering online only hours from 12:00-3:00 p.m. on Saturdays.

Tutors are prepared to help writers of all levels and abilities at any stage of the writing process. While tutors will not write, edit, or grade papers, they will assist students in developing more effective composing practices. By providing a practice audience for students’ ideas and writing, our tutors highlight the ways in which they read and interpret students’ texts, offering guidance and support throughout the various stages of the writing process. In addition, students may work independently in the UWC by checking out a laptop that runs the Microsoft Office suite and connects to WIFI, or by consulting our resources on writing, including all of the relevant style guides. Whether you need help brainstorming ideas, organizing an essay, proofreading, understanding proper citation practices, or just want a quiet place to work, the UWC is here to help!

Students may arrange a one-to-one session with a trained and experienced writing tutor by visiting the UWC during normal operating hours (both half-hour and hour sessions are available) or by making an appointment via WCOnline [https://tamuct.mywconline.com/]. In addition, you can email Dr. Bruce Bowles Jr. at bruce.bowles@tamuct.edu if you have any questions about the UWC and/or need any assistance with scheduling.

**University Library**
The University Library provides many services in support of research across campus and at a distance. We offer over 200 electronic databases containing approximately 250,000 eBooks and 82,000 journals, in addition to the 85,000 items in our print collection, which can be mailed to students who live more than 50 miles from campus. Research guides for each subject taught at A&M-Central Texas are available through our website to help students navigate these resources. On campus, the library offers technology including cameras, laptops, microphones, webcams, and digital sound recorders.

Research assistance from a librarian is also available 24 hours a day through our online chat service, and at the reference desk when the library is open. Research sessions can be scheduled for more comprehensive assistance, and may take place on Skype or in-person at the library. Assistance may cover many topics, including how to find articles in peer-reviewed journals, how
to cite resources, and how to piece together research for written assignments.

Our 27,000-square-foot facility on the A&M-Central Texas main campus includes student lounges, private study rooms, group work spaces, computer labs, family areas suitable for all ages, and many other features. Services such as interlibrary loan, TexShare, binding, and laminating are available. The library frequently offers workshops, tours, readings, and other events. **OPTIONAL POLICY STATEMENTS**

**A Note about Sexual Violence at A&M-Central Texas**

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don’t agree with their behaviors and tell survivors we will support them. Your actions matter. Don’t be a bystander; be an agent of change. For additional information on campus policy and resources visit the Title IX webpage [https://www.tamuct.edu/departments/compliance/titleix.php].

**Behavioral Intervention**

Texas A&M University-Central Texas cares about the safety, health, and well-being of its students, faculty, staff, and community. If you are aware of individuals for whom you have a concern, who are exhibiting behaviors that pose a threat to safety, or individuals causing a significant disruption to our community, please make a referral to the Behavioral Intervention Team. You can complete the referral online [https://cm.maxient.com/reportingform.php?TAMUCentralTexas&layout_id=2].

Anonymous referrals are accepted. Please see the Behavioral Intervention Team website for more information [https://www.tamuct.edu/student-affairs/bat.html]. If a person’s behavior poses an imminent threat to you or another, contact 911 or A&M-Central Texas University Police at 254-501-5800.
