Application Activity/Journal Article Critique. (Due October 3rd) One application activity will be assigned in this course. This activity will require the summary of a research article and will be submitted through Canvas. The summary will be written based on an empirical research article that is listed in the Supplemental Material section in Canvas. The Article summary will be worth 100 points. All summaries should be approximately 2-3 pages, not including cover & reference pages, in length and written in APA format (abstract is NOT needed). **All papers must be submitted to Canvas.** If students have content that is identical to another work, students will not be credited for the assignment and the student's plagiarism will be reported. - Who were the participants
- What Methods/Procedures did the researchers use
- What were the results
- Were there any limitations of this study, if so, what were they
- Personal Reflection of the article

Since this assignment is an application of a research article, it is expected that information will be used from the article. In the event that you write about important aspects of the article, it is expected that proper citations will occur.

Athlete Interview: (Due October 15th) For this assignment, you are to interview an athlete that plays either at the Varsity High School level or higher. Considering we are in a pandemic; the athlete may not be playing their sport currently. However, the athlete can reflect back to their previous season and recall any of these techniques that they might have used. Be prepared for any unplanned follow-up questions for the athlete if you need to dig deeper. The requirements and questions for the interview are as follows:

- Ask 2 open-ended questions pertaining to mental imagery use during practice and during performance.

- In what ways are you currently implementing imagery into your practice as a way to improve your skills?
- During a game, what type of imagery do you use to help with your performance execution?
- Ask 1 open-ended question regarding aggression within their sport.
 - In your sport, how do athlete's use aggression to their advantage or to help them win the game?
- Ask 1 open-ended question regarding the athlete's goal setting strategy/approach.
 - What type of experience do you have with goal setting as it relates to your sport?
- Ask 1 open-ended question pertaining to the anxiety or stress that they undergo in order to be a successful athlete.
 - As an athlete, what type of anxiety or stress do you typically experience during the season?

This assignment is your interview to conduct and follow through with. You are responsible for contacting an athlete, scheduling an interview and conducting the interview. If your athlete is a high school student, you may need to have the athlete and their parent/guardian complete a waiver. The interview does NOT need to be recorded unless you want to record for the purposes of this assignment. The interview does NOT have to be done face-to-face and can be completed via: phone, Zoom, Skype, Facebook call...whatever method works for you and the athlete. You may want to have a transcript or notes from the interview for the purposes of the paper submission.

Once you have completed the interview, you will then complete a paper that discusses the interview. The following sections must be covered in your paper submission:

- Athlete's age, sport played and number of years playing the sport
- Each question asked should be its own paragraph
- A summary of the athlete's answers for each question (avoid quoting the athlete)
- Your personal reflection on the athlete's answers and how they have incorporated aspects of sport psychology into their sport

If there are any references used in your paper, make sure to include a reference section. The paper needs to be written in APA formatting: 12pt font, Times New Roman, double spaced, cover page. You do NOT need to include an abstract. If you have questions regarding APA formatting, please visit the TAMUCT Writing Center or https://owl.purdue.edu/owl/research_and_citation/apa_style/apa_style_introduction.html

OPTIONAL POLICY STATEMENTS

A Note about Sexual Violence at A&M-Central Texas

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Wellness and Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don't agree with their behaviors and tell survivors we will support them. Your actions matter. Don't be a bystander; be an agent of change. For additional information on campus policy and resources visit the [Title IX webpage](https://www.tamuct.edu/compliance/titleix.html) [<https://www.tamuct.edu/compliance/titleix.html>].
