**Interview/Brief Literature Review (8 points possible)**

Objective: to investigate characteristics of individuals with happy and lengthy marriages

Type/length of activity: interviews and four- to six-page synopsis paper

Directions: Locate two couples who describe themselves as being happily married for at least 20 years. Set up a time to interview them and/or have them fill out a questionnaire that you develop regarding their marriage and each partner’s personality. Develop a questionnaire that includes the following questions, as well as any others you want to include:

- How did you meet? At what age did you meet and marry?
- How many children do you have? At what age did you have children?
- Describe your educational backgrounds and occupations.
- Did both partners always work full time? Why or why not?
- How have you divided household chores in the past and at present?
- Are your children still at home? If not, how did you cope with the empty nest?
- At what stages in the marriage have you been the happiest? Unhappiest?
- How do you resolve conflict?
- What types of social outlets/hobbies does each of you have?
- Do you have common interests or very different ones?
- How large is your social circle of close friends/relatives?
- Do you have traditional or nontraditional views of gender roles?

Be sensitive to the feelings of your interview subjects. If they seem upset by a question, do not press for an answer; just go on to the next question. Following your interviews, write a synopsis that includes the following:

- The gender and age of each person you interviewed (no names; you may use initials).
- The list of questions you generated (if applicable).
- A brief life story of each of the couples, with a summary of their answers.
- Your conclusions about any common elements or characteristics of successful marriages.
- Compare your results to the video: John Gottman’s “Four Horsemen of the Apocalypse” notion, which
has been presented in several Dateline and 20/20 TV news stories. Use the following YouTube link, https://www.youtube.com/watch?v=1o30PsX8is, to identify commonalities between the Four Horsemen (problems) and antidotes to the Four Horsemen that the couples engage in.

- Gottman claims to be able to predict with 75–90% accuracy whether or not couples will remain together, based on their patterns of communication. His research findings are outlined in his book, titled The Seven Principles for Making Marriage Work. Compare his findings with students’ thoughts about what promotes divorce and what can be done to help couples increase the longevity of their relationships.

Book Reference:

Specifics for the paper:

The literature review should be between 2 and 3 pages long. You will need to be brief. Remember that a paragraph can be as little as three sentences. Papers must be in APA format. It is your responsibility to obtain and follow the APA Publication Manual (7th ed.). Please cite two scholarly journal articles in your paper. Like all APA papers, you need an intro, body, and conclusion. Rubric details more specific information. This assesses SLO2 and 3. *Please note that you will NOT need an abstract for this submission. Additionally, your cover page and references will not be included in your page requirement.

Celebrations of Knowing and Synthesizing (2x 20 points each = 40 points possible)
I do not believe in exams, but I do believe in Celebrations! Wear your party hat and get ready to celebrate what you know! We will celebrate twice. The first celebration will cover Chapters 1-12 and associated videos. Celebration II will cover material from Chapters 13-19 and associated videos.

Weekly Assignments (1 required most weeks = 13 points possible)
Each week students will complete activities that relate to the information gleaned from the course readings/videos. Weekly assignments will include but are not limited to discussions, interviews, personal reflections, completing activities with children, and case studies.

OPTIONAL POLICY STATEMENTS

A Note about Sexual Violence at A&M-Central Texas

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Wellness and Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don’t agree with their behaviors and tell survivors we will support them. Your actions matter. Don’t be a bystander; be an agent of change. For additional information on campus policy and resources visit the Title IX webpage [https://www.tamuct.edu/compliance/titleix.html].

You can complete the referral online [https://cm.maxient.com/reportingform.php?TAMUCentralTexas&layout_id=2].
