## COURSE REQUIREMENTS

Course Requirements includes point values for each- not just a percentage)

**Reading Assignments:** All assigned chapters will be used as a basis for canvas course contents. Students are expected to study the required chapters and go through review questions after each chapter in every week. Students are required to check Announcement page of Canvas on a regular basis to get any updates regarding the course assignments and due dates.

Students are required to complete one midterm exam, one final exam, four class tests, five Canvas discussion questions, and four homework assignments, and one final term project. The topic of all exams will be declared in the Canvas course website. Canvas discussions are counted towards class participation points for this course. Students are required to update their Canvas settings (Account > Settings > Notifications) to allow notifications to send right away for all course-related activities.

**Tests:** There will be four (4) tests for this online course. The class tests will be conducted online through Canvas course website. Each class test will be worth 40 points. The class tests will be timed and once started, must be completed at the given time.

**Exams:** There will be one (1) Midterm and one (1) Final exam. The Midterm Exam will cover Chapters 1-6 and worth 200 points, and the Final Exam will cover chapters 7-12 and worth 200 points. The Final Exam will NOT be comprehensive for this course. All chapters covered after the Midterm Exam will be considered for the Final Exam.

**Assignments:** Four (4) homework assignments related to IT Security and Risk Management will be given to the students. The due dates of these assignments will be posted in canvas course

portal. Each assignment will be worth 40 points. The assignment grading rubric will be provided in Canvas Course Portal.

**Canvas Discussion:** As this is an online course, there is NO lecture or other face-to-face interaction. To simulate the class environment, there will be multiple discussion questions throughout the semester. You will be expected to participate by posting an initial post of your own and (usually) respond to at least two other student's posts (at a minimum). The discussion questions will be posted at the beginning of the week, and you will have until the Sunday of the same week to complete. **NOTE:** *There may be more than one question in some weeks.*

There will be at five (5) discussion questions for the course. Canvas Discussion posts are worth 80 points. If the quality of your postings is not sufficient, the points will not be earned. You are expected to contribute to the class discussions in meaningful ways. That means:

- Contributing new and relevant information to the course discussion and from readings of the textbooks.
- Commenting in a positive manner.
- Building on the remarks of your fellow students – i.e., improving upon what someone else said.
- Posing questions of your fellow students; and sharing quotes, websites, and other supplementary information.
- Demonstrating practical application of the week's key concepts from your professional/personal experience.
- "Substantive" does not include "I agree," "Great point," or "You're wonderful" type postings. These types of postings are examples of positive "teaming" and are fine but not by themselves. They do not add depth or breadth to the discussion. A "substantive" initial posting should include:
  - Your thesis (main point)
  - Your supporting arguments
  - A reference to class or outside material to support your thesis
  - An example from your experiences to support your thesis.

## Term Project

### The final term project's objectives are:

- To practice the formal procedure of system/network security analysis and planning.
- To examine the vulnerability and security needs of a private organization.

- To devise strategies to overcome potential malicious attacks, threats, and risks.

**You will write a four to six (4-6) page paper in which you:**

**OPTIONAL POLICY STATEMENTS**

**A Note about Sexual Violence at A&M-Central Texas**

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Wellness and Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don't agree with their behaviors and tell survivors we will support them. Your actions matter. Don't be a bystander; be an agent of change. For additional information on campus policy and resources visit the [Title IX webpage](https://www.tamuct.edu/compliance/titleix.html) [https://www.tamuct.edu/compliance/titleix.html].

Texas A&M University-Central Texas cares about the safety, health, and well-being of its students, faculty, staff, and community. If you are aware of individuals for whom you have a concern, please make a referral to the Behavioral Intervention Team. Referring your concern shows you care. You can complete the [referral](https://cm.maxient.com/reportingform.php?TAMUCentralTexas&layout_id=2) online [https://cm.maxient.com/reportingform.php?TAMUCentralTexas&layout\_id=2].
