COVID-19 SAFETY MEASURES

To promote public safety and protect students, faculty, and staff during the coronavirus pandemic, Texas A&M University-Central Texas has adopted policies and practices to minimize virus transmission. All members of the university community are expected to adhere to these measures to ensure their own safety and the safety of others. Students must observe the following practices while participating in face-to-face courses, course-related activities (office hours, help sessions, transitioning to and between classes, study spaces, academic services, etc.) and co-curricular programs:

- Self-monitoring—Students should follow CDC recommendations for self-monitoring. Students who have a fever or exhibit symptoms of COVID-19 should participate in class remotely and should not participate in face-to-face instruction. Students required to quarantine must participate in courses and course-related activities remotely and must not attend face-to-face course activities. Students should notify their instructors of the quarantine requirement. Students under quarantine are expected to participate in courses and complete graded work unless they have symptoms that are too severe to participate in course activities.
- Face Coverings—Face coverings must be worn inside of buildings and within 50 feet of building entrances on the A&M-Central Texas Campus. This includes lobbies, restrooms, hallways, elevators, classrooms, laboratories, conference rooms, break rooms, non-private office spaces, and other shared spaces. Face coverings are also required in outdoor spaces where physical distancing is not maintained. The university will evaluate exceptions to this requirement on a case by case basis. Students can request an exception through the Office of Access and Inclusion in Student Affairs.
 - o If a student refuses to wear a face covering, the instructor should ask the student to leave and join the class remotely. If the student does not leave the class, the faculty member should report that student to the Office of Student Conduct. Additionally, the faculty member may choose to teach that day's class remotely for all students.
- Physical Distancing—Physical distancing must be maintained between students, instructors, and others in the course and course-related activities.
- Classroom Ingress/Egress—Students must follow marked pathways for entering and exiting classrooms and other teaching spaces. Leave classrooms promptly after course activities have concluded. Do not congregate in hallways and maintain 6-foot physical distancing when waiting to enter classrooms and other instructional spaces.

Applied Leadership in Small Unit Operations
Spring 2021

The university will notify students in the event that the COVID-19 situation necessitates changes to the course schedule or modality

1. Course Description: MSL 302 is an academically challenging course where you will study, practice, and apply the fundamentals of Army leadership, Officership, Army values and ethics, personal development, and small unit tactics at the platoon level. At the conclusion of this course, you will be capable of planning, coordinating, navigating, motivating and leading a squad and platoon in the execution of a mission during a classroom practical exercise (PE), a Leadership Lab, and during a Joint Field Training Exercise (JFTX) in a field environment. You will be required to write peer evaluations and receive feedback on your abilities as a leader and how to improve those leader skills that can further develop you as a successful officer. This course includes reading assignments, homework assignments, small group assignments, briefings, case studies, practical exercises, a mid-term exam, and a final exam. You will receive systematic and specific feedback on your leader attributes, values, and core leader competencies from your instructor, other ROTC cadre, and MSL IV Cadets who will evaluate you using the Cadet Officer Evaluation System (OES). Successful completion of this course will help prepare you for the ROTC Cadet Leader Course (CLC), which you will attend in the summer at Fort Knox, KY.

2. Course Design

This course was designed to be student-centric placing the onus of learning on the student, but facilitated by the instructor. Army Officers are expected to be life-long learners who take responsibility and personal initiative for their learning. You must properly conduct your pre-class assignments to gain an understanding of the foundation on each subject in the course. Doing so will allow your instructor to spend the majority of the class time on specific areas that are least understood from the lessons, rather than your instructor re-teaching the subject from scratch. Your instructor has a wealth of experience and knowledge to share in the classroom; do your homework so your instructors can spend more time sharing their personal knowledge and experiences with your class. Class will be conducted in an interactive manner with ample opportunities for small group discussion and practical exercises. Everyone will be responsible for contributing to the success of the learning experience.

3. Character Development

NOTE: Throughout the year, your individual performance will be evaluated against required course end states and developmental outcomes. This evaluation is the PMS's

Military Science 302
Applied Leadership in Small Unit Operations
Spring 2021

assessment of your performance against the Army Leadership Requirements Model (ALRM).

Each Cadet is responsible and expected to attain (Know and Do) the respective requirements for each MS Level. The tasks are grouped into the ALRM Attributes and Competencies.

Uniforms and Appearance

On Monday classes all contracted CDTs will wear ROTC Polo shirt and kakis, slacks or skirts; non contacted cadets will wear business casual. Males will be clean shaved at every ROTC class, event and formation; and adhere to DA-pam 670-1 grooming standards. Females when in Polos or business casual will adhere to DA Pam 670-1 civilian clothes standards. On Wednesday class the uniform is serviceable ACU. Whenever a CDT comes to the Military Science suite they will adhere to DA PAM 670-1 grooming standards.

NOTE: PT shoes are not authorized for wear to MLS class.

Collaboration

You are encouraged to work together with your fellow Cadets and seek guidance and help from your instructor, MS IV Cadets, and other ROTC cadre.

Inappropriate Relationships

Per Army Directive 2016-17 (Protecting Against Prohibited Relations during Recruiting and Entry-Level Training) and IAW Department of Defense Instructions (DoDI) 1304.33 (Protecting Against Inappropriate Relations during Recruiting and Entry Level Training) the Army and all Army personnel (including any Army military, civilian, or contractor personnel) will treat each prospect, applicant, recruit, and trainee with dignity and respect as they pursue their aspiration of serving in the military. Army policy prohibits inappropriate relations between recruiters and prospects, applicants, and/or recruits and between trainers providing entry-level training and trainees. At a minimum and as required, the prospect, applicant, recruit, trainee, recruiter, or trainer will complete the following administrative actions. Commanders may add requirements to this list:

(1) Trainers providing entry-level training will sign DD Form 2982 that acknowledges their understanding of the prohibitions listed in paragraphs 1a(1)(a)-(n) of DoDI 1304.33 and also listed in paragraph 5d (of Army Directive 2016-17) and their responsibilities regarding the policies prohibiting inappropriate behaviors and relations outlined in the instruction. As a minimum the form will be retained in the trainer's record while they are assigned to training duty and will be revalidated annually.

(2) At the onset of the first training session, trainers will brief trainees on the policies stated in this instruction, and will provide information that trainees can use to contact someone in leadership if they wish to report any issue related to inappropriate conduct.

Military Science 302
Applied Leadership in Small Unit Operations
Spring 2021

(3) Trainees will sign a DD Form 2983 acknowledging their understanding and responsibilities as outlined in DoDI 1304.33, no later than the first day of entry-level training. As a minimum, the form will be retained in the trainees file until the trainee detaches from the training command or school.

Texas A&M-Central Texas expects its students, faculty, and staff to support the adherence to high standards of personal and scholarly conduct to preserve the honor and integrity of the creative community. Academic integrity is defined as a commitment to honesty, trust, fairness, respect, and responsibility. Any deviation by students from this expectation may result in a failing grade for the assignment and potentially a failing grade for the course. Academic misconduct is any act that improperly affects a true and honest evaluation of a student's academic performance and includes, but is not limited to, cheating on an examination or other academic work, plagiarism and improper citation of sources, using another student's work, collusion, and the abuse of resource materials. All academic misconduct concerns will be reported to the university's Office of Student Conduct. Ignorance of the university's standards and expectations is never an excuse to act with a lack of integrity. 13. Academic Dishonesty Policy: Academic Honesty Statement
(very important – read carefully)

1. Texas A&M Central Texas College and the Department of Military Science expect all students to maintain high standards of personal and academic honesty and integrity.

2. Student integrity is especially critical, because the opportunities for dishonesty (i.e. social media, Wikipedia, websites, etc...) are more readily available and the trust level is higher. Exploiting either of these opportunities is a particularly blatant and offensive act.

By enrolling and remaining as a participant in any Military Science course, you affirm that you will adhere to the strictest standards of academic honesty and integrity.

3. You must maintain academic integrity and honesty at all times, on all course assignments: homework, projects and exams.

4. You must work independently when required, and work effectively in groups when that is required. You must use only the resources and assistance permitted on a given course activity. Students should pay special attention to whether assignments are designated as 'individual' or 'group', as well as what materials, resources and help from others are permitted. If in doubt, ask prior to doing the assignment.

5. When you are permitted to use materials and ideas that belong to others, you must state the source of the information in APA format. If you use outside help or materials when not allowed, you are in violation of this policy in the way of cheating. If allowed to use outside materials, but do not cite the sources of your information, you are in violation of this policy in the way of plagiarism.

6. Students who assist other students in violating this policy are considered equally in violation.

7. Academic penalties will be in agreement with each university (TSU, TAMU-CT, CTC, UMHB) and will include, but not limited to the following:

- a) First offense, suspected: warning.
- b) First offense, documentable: zero on the assignment in question & reduction of one letter grade.
