COVID-19 SAFETY MEASURES

To promote public safety and protect students, faculty, and staff during the coronavirus pandemic, Texas A&M University-Central Texas has adopted policies and practices to minimize virus transmission. All members of the university community are expected to adhere to these measures to ensure their own safety and the safety of others. Students must observe the following practices while participating in face-to-face courses, course-related activities (office hours, help sessions, transitioning to and between classes, study spaces, academic services, etc.) and co-curricular programs:

- Self-monitoring—Students should follow CDC recommendations for self-monitoring. Students who have a fever or exhibit symptoms of COVID-19 should participate in class remotely and should not participate in face-to-face instruction. Students required to quarantine must participate in courses and course-related activities remotely and must not attend face-to-face course activities. Students should notify their instructors of the quarantine requirement. Students under quarantine are expected to participate in courses and complete graded work unless they have symptoms that are too severe to participate in course activities.

- Face Coverings—Face coverings must be worn inside of buildings and within 50 feet of building entrances on the A&M-Central Texas Campus. This includes lobbies, restrooms, hallways, elevators, classrooms, laboratories, conference rooms, break rooms, non-private office spaces, and other shared spaces. Face coverings are also required in outdoor spaces where physical distancing is not maintained. The university will evaluate exceptions to this requirement on a case by case basis. Students can request an exception through the Office of Access and Inclusion in Student Affairs.
  - If a student refuses to wear a face covering, the instructor should ask the student to leave and join the class remotely. If the student does not leave the class, the faculty member should report that student to the Office of Student Conduct. Additionally, the faculty member may choose to teach that day’s class remotely for all students.

- Physical Distancing—Physical distancing must be maintained between students, instructors, and others in the course and course-related activities.

- Classroom Ingress/Egress—Students must follow marked pathways for entering and exiting classrooms and other teaching spaces. Leave classrooms promptly after course activities have concluded. Do not congregate in hallways and maintain 6-foot physical distancing when waiting to enter classrooms and other instructional spaces.

- The university will notify students in the event that the COVID-19 situation necessitates changes to the course schedule or modality.
COURSE INFORMATION

Course Overview and Description
This course involves the study, research and analysis of proactive strategies for organizational change using the theories and techniques of applied behavioral science. This course covers the phases of consulting, strategies, intervention decisions and actions, multiple roles, skills and phases of internal and external consultants, ethical dilemmas and guidelines, and the implementation of action research.

Student Learning Outcomes:

GENERAL LEARNING OUTCOMES:
By engaging in this course, students will develop in each of the following general cognitive and practical skill areas:

A. **Analogue thinking.** Analogue thinking involves the application of terms and conceptual models to specific—and especially new—contexts.

B. **Analytical thinking.** Analytical thinking involves the careful consideration of data in an attempt to answer diagnostic-type questions such as, “What is happening here?” “How do these facts all relate to each other?” and “What does it all mean?” Analytical thinking is the bedrock of decision-making: it is only after engaging in analytic thinking that one should begin to ask the questions, “Is this good or bad?” and “What should I do?”

C. **Integrative thinking.** Integrative thinking involves the application of multiple conceptual or disciplinary frameworks to a single problem or scenario.

D. **Imaginative and creative thinking.** Imaginative and creative thinking involves the identification, articulation, and realization of novel and hitherto unarticulated possibilities. This sort of thinking may also include the three types of thinking described above.

E. **Learning-by-reading.** Learning-by-reading is a cognitive skill involving the active mental acquisition, storage, organization, and retrieval of thoughts and ideas that have been disseminated in a print medium.

F. **Written communication.** Written communication is a skill involving the coherent and compelling expression of (typically one’s own) thoughts and ideas (which are often derived or synthesized from the thoughts and ideas of others) through written language. **Please note that ALL assignments in this course are evaluated for correct grammar, spelling, syntax, and style.**

G. **Spoken communication.** Spoken communication is a skill involving the coherent and compelling expression of one’s own thoughts and ideas through spoken language.

H. **Collaboration.** Collaboration is the skill of cooperatively engaging in one or more of the above mental or practical tasks with one or more other people. It involves a particular set of organizing, coordinating, cooperating, and communicating skills that are not required when working alone.
COURSE-SPECIFIC LEARNING OUTCOMES:
At the conclusion of the course the student will be able to:

- Define various terms related to organizational development and change
- Describe key characteristics of the four organizational frames
- Formulate a response to a complex organizational scenario after conducting analysis using all four organizational frames
- Explain the nature and functioning of several system archetypes
- Correctly diagnose system archetypes from organizational data
- Evaluate the relative benefits of various data collection methodologies
- Conduct a basic quantitative and/or qualitative analysis of organizational data
- Design and plan the implementation of an OD intervention

COURSE REQUIREMENTS

Performance Expectations and Deliverables

GENERAL PROFESSIONAL BEHAVIOR STANDARDS:
While engaged in the pursuit of each the General and Course-Specific Learning Outcomes listed above, each student will be expected to:

- **Demonstrate PROFESSIONAL INITIATIVE** at all times by taking responsibility for one’s own performance in the course, as well as for any opportunities one may be able to take to enhance the course for others. This should be demonstrated vis-à-vis course assignment details, course deadlines (and personal time management, generally), contributions to groupwork, use of required course technology, and the anticipation and competent management of contingencies relating to oneself and to others that may affect one’s performance in the course (e.g., job, family, other courses).

- **Demonstrate PROFESSIONAL COURTESY** at all times by maintaining a professional tone in all communication with all persons involved with this course: peers, professor, etc. This includes any communication that may involve reporting interpersonal conflict, engaging in discussions or disputes, or giving / responding to negative feedback. Professional courtesy also includes a commitment to listening well, and to engaging in meaningful dialogue where other parties are given ample opportunity to contribute to the discussion or assignment at hand without fear of disruption, retribution, or unwarranted criticism. Finally, it also includes common courtesies such as letting group members know in advance if you going to be unavailable for a scheduled meeting, or if you are going to miss an agreed-upon deadline due to an unforeseen disruption.

- **Demonstrate PROFESSIONAL INTEGRITY** at all times by complying with all guidelines and restrictions regarding the completion of student work, the use of external sources, the general compliance with the TAMUCT academic integrity policy, and the giving of specific, accurate, and timely peer performance evaluation when appropriate.

- **Demonstrate a commitment to PROFESSIONAL DEVELOPMENT** at all times by reading, comprehending, integrating, and applying all reading materials to all course assignments and activities, and by successfully completing all assignments and activities to the best of one’s abilities at the present time.

- **Demonstrate PROFESSIONAL MATURITY** at all times by accepting the circumstances under which one has chosen to attempt to complete this course, and by accepting the evaluation of one’s work by one’s peers and/or instructor without complaining or resorting to irrelevant appeals (e.g., “but I have to keep my 4.0 GPA”). This is notwithstanding any exceptional situations in which a student is able to provide written documentation that a legitimate, objective evaluation error has been made, or in which normal evaluation policy should be set aside because of a documented emergency.

GRADE COMPONENTS:
Examinations.
There will be two exams in this course. Each will count 20% of the final grade in the course. Details about this exam (format, length, content) will be given through the Canvas page.

Quizzes.
There will be 8 reading quizzes in this course (1 for each module). Each will count 1.25% of the final grade in the course. These quizzes are meant to be quick and easy, and will not require any preparation or study other than simply completing the assigned readings for the week.

Discussions.
Students are required to post to a discussion forum each week. Each of the 8 discussions will count 1.25% of the final grade in the course. Posts may be based on current events, specific readings, a short case, or other topics as selected by the instructor. Each week, students must upload their own post and reply to two other classmates.

Film analysis.
Students will complete a written film analysis during the course. This analysis will be worth 150 points, or 15% of the final course grade. The film will function as a visual case study, and students will be required to conduct a diagnosis and analysis of multiple particular elements of the film as dictated in specific instructions to be provided through the Canvas page.

Case analysis.
Students will complete a written case analysis during the course. This analysis will be worth 150 points, or 15% of the final course grade. Students will be required to conduct a diagnosis and analysis of multiple particular elements of the case as dictated in specific instructions to be provided through the Canvas page.

Personal journal.
Each student will be given a private space on the course webpage to create a journal. This journal is meant to be a place where students can reflect and record their musings on course readings. The journal is meant to be developmental. Journal topics should be focused, and students should choose ONE (1) and only one assigned reading during every course module (every 1 to 2 weeks depending on course format), and use the journal area to reflect on how this reading impacted them, how it was thought provoking, how it spoke to a current or past organizational situation the student has encountered, etc. Journal entries should not be summaries or critiques of the reading.

Each of the eight entries is worth 12.5% of the final course grade. Entries that are late or inconsistent with the assignment parameters will receive no credit, and no opportunity is given to make up missed journal posts. Journal entries must include the following components for full credit:

- **Specific details about a specific assigned reading.** General musings about leadership or organizations are not permissible.
- **Specific and meaningful connections between the reading and some personal or organization context with which you are familiar.** And “meaningful” means that the
reading, upon reflection, triggered an insight, not just a memory. How did this reading help you understand something you didn’t understand before? Or how did it challenge you to think differently?

- Implication/application for your growth as a leader. How might this reading affect your practice from here on?

The purpose of the journal is to help students develop as individuals and to reflect on their roles and responsibilities within the particular organizational contexts in which they participate or have participated. Your instructor will evaluate journal entries on the basis of the evidence of “quality time” spent on the assignment, as evidenced by thoughtful, subtle, insightful, reflective, and non-trivial responses. As mentioned above, good journal entries reflect on and explore the intersection of three things: the material from the reading, an organizational setting with which you are familiar, and your own practice vis-à-vis the material and this organizational setting. Unless otherwise indicated, I will look for all three of these in each entry. Please see the sample entries (a good one and a bad one) I have posted for you on Canvas, as well as additional guidance on what ought to be included.

Grade Computation:
Students earn their course grades by completing the items below; no extra credit assignments are given. To pass this course satisfactorily, students must complete each of the graded items listed below.

Final grades will be calculated as follows:

Grading Scale:
The grade scale utilized in this course is as follows (all values in percents):

- above 89.4  A
- 79.5 – 89.4  B
- 69.5 – 79.4  C
- 59.5 – 69.4  D
- below 59.5  F

Students will typically earn one of three grades in this class: an A (high pass), B (pass), and C (low pass). Students who exhibit acceptable levels of quality, engagement, and effort will receive a B. Students who exhibit exceptional levels of quality, engagement, and who take
active (and proactive) responsibility for not only their own learning but also for the learning of the class as a whole will receive an A. Students who do not complete all of the course requirements (e.g., they do not keep a journal), or who complete them very poorly will typically receive a C or a D. Students who commit a serious academic integrity violation or who default on multiple course requirements will receive an F.

5.0 Course Schedule

What appears below is the expected schedule we will follow for this course. However, it should be considered tentative and unofficial. **THE OFFICIAL COURSE SCHEDULE WILL BE MAINTAINED ON THE COURSE CANVAS PAGE.**

For purposes of this class, modules are two (2) weeks in duration and run from Monday through Sunday. The first and last modules of the course may be slightly abbreviated as per the University Academic Calendar. The abbreviation *RO* indicates that the reading comes from our textbook, *Reframing Organizations*. A Note about Sexual Violence at A&M-Central Texas

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don’t agree with their behaviors and tell survivors we will support them. Your actions matter. Don’t be a bystander; be an agent of change. For additional information on campus policy and resources visit the Title IX webpage [https://www.tamuct.edu/compliance/titleix.html].

Behavioral Intervention

Texas A&M University-Central Texas cares about the safety, health, and well-being of its students, faculty, staff, and community. If you are aware of individuals for whom you have a concern, please make a referral to the Behavioral Intervention Team. Referring your concern shows you care. You can complete the referral online [https://cm.maxient.com/reportingform.php?TAMUCentralTexas&layout_id=2].

Anonymous referrals are accepted. Please see the Behavioral Intervention Team website for more information [https://www.tamuct.edu/student-affairs/bat.html]. If a person’s behavior poses an imminent threat to you or another, contact 911 or A&M-Central Texas University Police at 254-501-5800.

Syllabus Changes and Errors

Your instructor reserve the right to make changes to the syllabus as needed. You will be advised of any changes with ample notice via Canvas. Changes can arise from pedagogical necessity, from the discovery of an error in the syllabus document itself, or from unanticipated contingencies in the semester. If you believe you have found an error (e.g., a
scheduling error) or inconsistency in the syllabus please notify your instructor immediately.
