Every post has to relate to class materials or professional concepts and include APA citation(s).

This is due by the end of the class time that day. Late post will receive **zero** point.

Discussion Board Rules

This is a space for us to share our idea, engage in dialogues, and learn from each other. Below are criteria for the discussion post, criteria for content of the discussion post, and rules about etiquette.

Criteria for discussion post: The response post should be at least 100 words and is due by the end of the class time that day.

Criteria for content: The content of the discussion board should be your own ideas supported by information from the text, assigned readings, PowerPoints, or other **scholarly references** you find. Your post should not **entirely** consist of quotes from an outside source, regurgitation of someone else's ideas, or personal stories. For example:

Big Bird (2012) stated that sexual violence was not an issue in developed countries. I disagree with that statement. I intern at a domestic violence shelter for my practicum and hear about the violence that occurs in this area. Even though Elmo (2013) stated that violence against women is lower in countries that have more liberties for women, violence against women in developed countries is still an epidemic. Since most victims of sexual violence know their perpetrator (Kermit, 2007) and most perpetrators are male (Dora 2013), I believe that we should develop preventative programs in middle and high school about sexual violence.

Discussion Board Etiquette:

- Refrain from inappropriate language and personal attacks.
- Review your comments before you post for spelling and grammatical errors and to make sure it's what you really want to say.
- Do not make sexist, racist, homophobic, or victim-blaming comments at all.
- Disagree with ideas, but do not make personal attacks.
- Be open to be challenged or confronted on your ideas or prejudices.
- Challenge others with the intent of facilitating growth. Do not demean or embarrass others.
- A majority of your reply should not be quotes from the initial post.
