# COURSE INFORMATION

## Course Description

This course provides an overview of professional social work. It examines the historical development of the profession of social work; introduces the profession's values, ethics, and practice principles; examines the major interventive methods of social work practice; identifies the generalist base of social work practice; and explores the social service delivery networks which comprise the social welfare system in urban environments. Social work's historic commitment to social justice and to the elimination of poverty is integrated throughout the course. Ecological social systems framework is also introduced and integrated as diversity and global impacts are introduced. The course format includes lecture presentations, discussion, guest presentations, reading assignments, examinations, student volunteer service, and visits to social agencies.

*Prerequisites:* None

## Nature of Course

Introduction to social work focuses on the profession of social work: historical development, values, ethics, and various aspects of practice with an emphasis on the generalist perspective and populations at risk. Students experience aspects of the profession by identifying and responding to community/neighborhood challenges through volunteer, service-learning work with local non-profit community agencies. There, students engage in individual service activities, which are designed to help them gain an understanding of community problems and the social work skills necessary for a professional response. The course also assists students in developing professional writing with a focus on American Psychological Association (APA) format of writing, as well as helping students to determine their desire to enter the field of social work or other helping professions.

## Teaching Method

The primary teaching approach in this course will be collaborative learning. Material in the course will be presented through class discussions on readings, videotapes, and in-class group exercises. Guest presenters and field trips will provide an in depth view of the current challenges and services.

## Program Mission

The mission of the BSW Program at Texas A&M University - Central Texas is to prepare high quality graduates for entry-level generalist social work practice and advanced education. This education is delivered in a rigorous and student-centered learning environment that promotes professional behavior, values and ethics, human and community well-being, respect for human diversity, and a global perspective, and is guided by a person-in-environment framework, knowledge based on scientific inquiry, and social work competencies.

## Program Framework

The Social Work Program curriculum is rooted in a framework established by the Council on Social Work Education (CSWE). Specifically, the program endeavors to develop social workers who promote human and community well-being by being able to demonstrate the following 9 core competencies upon graduation:

1. Demonstrate ethical and professional behavior
2. Engage diversity and difference in practice
3. Advance human rights and social, economic, and environmental justice
4. Engage in practice-informed research and research-informed practice
5. Engage in policy practice
6. Engage with individuals, families, groups, organizations, and communities
7. Assess individuals, families, groups, organizations, and communities
8. Intervene with individuals, families, groups, organizations and communities
9. Evaluate practice with individuals, families, groups, organizations, and communities

Each core competency has specific, measurable practice behaviors that help students and their professors determine if the competency has been achieved. There are 31 total practice behaviors. The complete list of practice behaviors can be found at the

end of this syllabus or by reviewing the student handbook.

**Course Objectives & Related CSWE Practice Behaviors**

The objectives for this course, that support the CSWE related practice behaviors, are:

1. Students will understand the development of the social work profession, recognize the methodologies used in the social work profession, and become familiar with the multiplicity of settings in which social workers practice and the diversity of roles and function they perform.
2. Students will be able to understand the scope of the social challenges facing individuals, organizations, and communities in the Central Texas Region and explore solutions to community problems through volunteer service and reflection on that service, thereby understanding the importance of individual and group volunteer action in solving community problems and that there are a variety of approaches to solving community problems.
3. Through volunteer work with local agencies, students will work to conduct themselves as professional social workers, understand the importance of professional written communication, and become more aware of his/her personal beliefs about the individual's relationship to the community through exploring personal values, individual action, and social values.

## CODE OF CONDUCT FOR CLASSROOMS

Social work practitioners respect others. Unfortunately, we have had extreme problems with disruptive and disrespectful behavior by students in classes, leading to the development of this code of conduct, which all students are required to follow. Please see the Rubric for Assessing Profession Behaviors.

1. Students are expected to be present for every scheduled class session (with camera's on for virtual classes) to enrich the learning experience.
2. Once class has begun, students are expected to remain for the duration of the class. It is expected that all students will take care of personal affairs (i.e., get beverages, take care of phone calls, meeting with students and other professors, use the restroom, etc.) before class begins. Students who have a medical/physical condition for which they need to request an exception to this policy need to discuss this with the professor to see if an exception can be granted. Students leaving the class outside of these parameters should not attempt to re-enter the class and will receive a 0 for class participation and/or attendance that day. Students are expected to display professional decorum at all times. This includes, but is not limited to, respecting classmates and the instructor. In this regard, it is expected that students will not speak to/hold conversations with/pass notes to other students once class has begun without recognition by the professor to do so. Talking during lecture, out of turn, or while other students are talking is disruptive to the learning environment, disrespectful to peers, and unprofessional in demeanor. Students are strongly encouraged to engage in discussion in respectful and appropriate manners; hence, it is expected that students apply classroom etiquette and raise a hand if there is something to share or to answer a question. It is also expected that students will display patience in raising a hand and recognize that the professor will eventually call on the student and/or may attempt to vary responses from peers and not call on the student in an effort to do so. Shouting out answers, making loud noises, and/or waving a hand vigorously to capture attention is unprofessional and inappropriate behavior. Consistent display of such behavior will result in consultation by the professor and can potentially impact the attendance/participation grade.
3. To support the academic learning environment, students are asked to refrain from sharing personal information in class that will not support/add significantly to the class discussion. Sharing of personal stories and/or issues that are not related to the topic can distract class learning and limit knowledge sharing by the professor and other students. In this regard, please note that the professor reserves the right to redirect/limit such conversations in class unless students are expressly asked to share such information by the instructor.
4. Use of personal technology or gadgets during class period is prohibited. This includes laptop computers, cell phones, i-pads, kindles, e-readers (unless the student has purchased the class textbook for use in this way, in which case this needs to be discussed with the professor), or any other kind of equipment. Exceptions to this are use of audio recording devices during lecture (with permission) and aid of assisted technology as permitted via a disability accommodation. Failure to adhere to this rule can result in being asked to leave the class and receiving a 0 for class participation/attendance for the day.
5. Late work will not be accepted or graded unless this has been discussed with and approved by the professor BEFORE class on the due date of the assignment. *Being absent from class on a day when an assignment is due does NOT grant a student an extension to the due date*; the student must still arrange to get that assignment turned in to the professor before class starts. Allowing students to turn in assignments late for a grade is not fair to other students who got their work done on time, disrupts the grading process for the professors, and sends a message that such behavior is professionally "okay," which it is not. This, as well as all other policies, will be held to strict code, and failure to adhere to this policy will result in a 0 for the assignment. This is inclusive of all assignments.
6. TAMU-CT expects all students to maintain high standards of personal and scholarly conduct and avoid any form of academic dishonesty, for which disciplinary sanctions exist. Academic dishonesty includes, but is not limited to, plagiarism (intentional or unintentional), copying another person's work, turning in someone else's work as your own, downloading material from the internet and inserting it into a paper as if it was your own work, taking ideas from classes or readings and putting them in a paper without citations/references, cheating on an examination or other academic work, collusion, and the abuse of resource materials. Any idea, even paraphrased ideas, used or borrowed must be given credit by showing the source with an

appropriate citation or reference. **Any student who violates the university's policies regarding Academic Honesty will receive a failing grade in this course and will be reported to the Director of Student Affairs for additional university sanctions.** More information can be found at [www.ct.tamus.edu/studentconduct](http://www.ct.tamus.edu/studentconduct).

1. Class discussions, oral presentations, and written materials must adhere to professional standards of expression and conform to the style described by the American Psychological Association. This includes avoidance of the use of language that degrades women, people of color, gays, lesbians, bisexuals, transgendered, and other diverse and at-risk populations. All students are expected to display the utmost respect for all people, regardless of differences.

The aforementioned policies are designed to create and foster a positive and rewarding learning environment for all students. Failure to adhere to the aforementioned class policies, as well as university policies, demonstrates a potential inability to conduct oneself professionally in the field of study. These policies are applicable throughout the program and, as such, students who consistently fail to comply with this code of conduct will be considered inappropriate candidates for the degree of Bachelor of Social Work at TAMU-CT as their behavior is considered inappropriate for a social work practitioner.

Students need to understand that the way you behave in class and the degree of responsibility you demonstrate in approaching your school work are used by the professors as a measure of your readiness to be formally admitted to the social work major, accepted for a field agency placement, and allowed to graduate with a BSW degree. Students who consistently fail to comply with this code of conduct will be considered inappropriate candidates for any of these measures of success in social work education because their behavior is considered inappropriate for a social work practitioner.

## OPTIONAL POLICY STATEMENTS

### A Note about Sexual Violence at A&M-Central Texas

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Wellness and Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don't agree with their behaviors and tell survivors we will support them. Your actions matter. Don't be a bystander; be an agent of change. For additional information on campus policy and resources visit the [Title IX webpage \[https://www.tamuct.edu/compliance/titleix.html\]](https://www.tamuct.edu/compliance/titleix.html).
