# **BIOL 4475-110, CRN: 80361, PROTEOMICS**

## Fall 2022

Texas A&M University-Central Texas

## COURSE DATES, MODALITY, AND LOCATION

Course Dates: August 22 - December 9, 2022 This course meets face-to-face, for lecture on Tuesday and Thursday from 9:30 AM - 10:45 AM at Heritage Hall 315 and for laboratory on Thursdays from 11.15 AM – 2.15 PM, at Heritage Hall 315, with supplemental materials made available online through the A&M-Central Texas Canvas Learning Management System [https://tamuct.instructure.com/].

## INSTRUCTOR AND CONTACT INFORMATION

Instructor: Dr. Chamindika Siriwardana Office: 302G Heritage Hall Phone: 254-519-8717 Email: <u>c.siriwardana@tamuct.edu</u>

**Office Hours:** In-office on Tuesday 2.30 PM – 3.30 PM and Wednesday 9.00 AM – 12.00 noon, or by appointment (in-office and virtual).

## **Student-instructor interaction**

Email: Important information about the class will be communicated via email. All students must have an active email account that is checked daily. I try to answer all emails the day I get it, but if you get no answer in 24hrs please resend it. Please write "BIOL 4475- (type your specific topic here)" in the subject line of the email. This tells me to prioritize your message because it is course related.

## **Emergency Warning System for Texas A&M University-Central Texas**

**SAFEZONE.** SafeZone provides a public safety application that gives you the ability to call for help with the push of a button. It also provides Texas A&M University-Central Texas the ability to communicate emergency information quickly via push notifications, email, and text messages. All students automatically receive email and text messages via their myCT accounts.

Downloading SafeZone allows access to push notifications and enables you to connect directly for help through the app.

You can download SafeZone from the app store and use your myCT credentials to log in. If you would like more information, you can visit the <u>SafeZone</u> website [www.safezoneapp.com].

To register SafeZone on your phone, please follow these 3 easy steps:

- 1. Download the SafeZone App from your phone store using the link below:
  - <u>iPhone/iPad</u>: [https://apps.apple.com/app/safezone/id533054756]

## o Android Phone / Tablet

[https://play.google.com/store/apps/details?id=com.criticalarc.safezoneapp]

- 2. Launch the app and enter your myCT email address (e.g. {name}@tamuct.edu)
- 3. Complete your profile and accept the terms of service

For updates on COVID information, please monitor the University website

[https://www.tamuct.edu/covid19/]

If at any point during this semester this course needs to meet online, we will use the synchronous online format (with all meetings recorded and available for students). The meetings will be held on WebEx on the course Canvas page.

### **COURSE INFORMATION**

## **Course Overview and description**

Proteomics (BIOL-4475-110) is an undergraduate level, 4-credit, course offered by the Department of Science and Mathematics. It is a combined lecture and laboratory course.

In the course, students will study the theory and practice of current techniques in protein analysis including separation, quantification, sequencing, and identification. Current research advances and case studies will also be examined.

Prerequisite(s): BIOL 4471.

## **Student Learning Outcomes (SLOs)**

At the end of this course students will:

- 1. Understand the theory of protein analysis techniques.
- 2. Explain the chemistry underlying the biological processes involving proteins.
- 3. Understand the practical application of proteomic studies.
- 4. Master basic techniques in proteomics lab and demonstrate ability to write scientific lab reports. Required Reading and Textbook(s)

#### Required Reading and Textbook(s)

Twyman R. 2013. Principles of Proteomics. 2<sup>nd</sup> ed. Garland Science. ISBN-13:978-0815344728.

#### COURSE REQUIREMENTS

Assignment/ Assessment Type	Percentage	Assignment/Assessment	Points	SLOs
Exams	55%	Quizzes (8 X 5 points)	40	1-3
		Final Exam	15	1-3
Participation	20%	Presentation	10	1-3
		Literature Review	10	1-3
Laboratory	25%	Lab Reports (5 X 5 points)	25	1-4
Course Total	100%		100	

#### Quizzes:

We will have eight 10-15 min. quizzes at one to two-week intervals, which will be notified beforehand. Each quiz will be worth five points. A quiz will include material you learned until the previous quiz. I will not quiz you on nitty-gritty details that anyone with the proper knowledge can look up online or at a library but test if you understood the concepts. Combined the quizzes will contribute to the largest portion of your grade so make sure you do not miss them.

#### **Presentations:**

Each student will make a 10-15-minute presentation. You will select and present a paper of your choice related to proteomics from a high-ranking journal. You will have to submit your paper two weeks in advance and must be preapproved.

#### Lab Reports:

At the end of each experiment, you will write a lab report based on the experiment. Some experiments will be short and take only one lab, whereas others are long and take several labs to complete. Plagiarism is a serious offense, and any instances of plagiarism will result in action against the offending student(s).

#### Literature Review:

Each student will write a review paper on a topic reseated to proteomics. For the current semester, the topic will be a review of the SARS-CoV-2 protein interaction map.

#### Final Exam:

The final exam will cover all subject matter learned during the semester. The final exam will be a take-home exam and will be posted on Canvas. The final exam is due on the last day of class.

#### Writing in the Biological Sciences Tutorials:

The writing in biological sciences tutorials are posted on the Canvas home page. These tutorials are uniform across the Department of Biology at TAMUCT. Please refer to these tutorials for writing assignments such as the lab reports, literature review report, final exam and extra credit.

## **Grading Criteria Rubric and Conversion**

A 4.00 (90 +) Achievement is outstanding relative to the level necessary to meet course requirements.

**B 3.00 (80-89%)** Achievement that is significantly above the level necessary to meet course requirements.

C 2.00 (70–79%) Achievement that meets the course requirements in every respect.

**D 1.00 (60–69%)** Achievement that is worthy of credit even though it fails to meet fully course requirements.

**F 0.00 (less than 60%)** Represents failure and signifies that the work was either (1) completed but at a level of achievement that is not worthy of credit or (2) was not completed and there was no agreement between the instructor and the student that the student would be awarded an "I" (incomplete).

I (Incomplete) The "I" shall be assigned at the discretion of the instructor when, due to extraordinary circumstances, the student was prevented from completing the work of the course on time. The assignment of an "I" requires a written agreement between the instructor and student specifying the time and manner in which the student will complete the course requirements. In no event may any such written agreement allow a period of longer than one year to complete the course requirements. For graduate and professional students, an "I" is to remain on the transcript until changed by the instructor or department. For all other students, work to make up an I must be submitted within one year of the last day of final examinations of the term in which the "I" was given; if not submitted by that time, then the "I" will automatically change to an F. To obtain an incomplete you must have been doing passing work in the course

## **Posting of Grades**

All grades will be posted on the Canvas grade book within one week of the due date for the exam/assignment.

## **Grading Policies**

Read these carefully as I am strict with my policies.

**Grading Policy and Point Breakdown:** Grades in this course will be criteria-based on a number of activities including exams and projects. This means that grades will not be curved and anyone achieving a 90% or above will receive an A in this course.

**Grade Dispute Policy:** Grading disputes must be put in writing (with justification such as supporting statements from the text or another credible source) and given to me no earlier than 24 hours after the assignment has been returned. I will consider your request carefully but reserve the right to adjust your grade up or down.

**Assignments:** These will be varied in nature, but will consist of activities that cause the students to reflect upon the state of knowledge of the topic of the week, how that topic is perceived in the media, and/or analysis of specific research projects relevant to the subject. All assignments are to be turned in, on time (i.e. at class time on due date), to the Canvas website. I will not accept e-mailed assignments of any kind.

**Late Assignments:** I expect all assignments to be turned in on time. Late assignments interfere with my ability to provide timely, detailed feedback, as well as with your ability to learn and process new material. Accordingly, any unauthorized late assignment will receive a 5% reduction in grade for each day it is late. No assignments will be accepted after it has been graded and returned.

**Exams/Quizzes:** The exams/quizzes will be a mixture of matching, multiple-choice and short answers, designed to provoke reflection, critical thought, and application of knowledge. You will receive a list of several samples or real exam questions ahead of time. You are encouraged to prepare for the exam by reviewing reading materials, outlining a draft of a response, and discussing these thoughts with your peers. You will then demonstrate your individual, integrated thoughts on the topic in a closed-book exam during the class period. **Missed exams:** If you know you will miss an exam, please contact me BEFORE the exam. I will gladly give make-up exams if the student has an unavoidable reason for missing the exam (i.e. death in the family, severe illness). Keep in mind that I will expect documentation of your reason for missing the exam (e.g. doctor's note, obituary notice). Exams must be made up within a week of the originally scheduled date, with no exceptions regardless of excuse.

## COURSE OUTLINE AND CALENDAR

Week	Lecture Topic	Laboratory Topic		
1 (8/23-	Introduction to the course	Safety Training		
8/25)	Part 1: Proteins	Making protein gels for the semester		
	Proteins - Biochemistry			
2 (8/30-	Proteins – Molecular Biology	Experiment 1. Comparative Proteomics:		
9/1)	Quiz 1, 9/1	SDS-Page gel		
		Protein extraction from fish		
3 (9/6-9/8)	Part 2: Core Methodology	SDS-Page and Phylogenetic tree		
	Introduction to Proteomics (Chapter 1)	construction		
4 (9/13-	Experimental Design	Experiment 2: Comparative Proteomics:		
9/15)	Sample Preparation	Western Blot		
	Quiz 2, 9/13	SDS-Page and Western Blot/ Lab Report 1		
		due		
5 (9/20-	Protein Separation (Chapter 2)	Development of Western blot		
9/22)				
6 (9/27-	Protein Separation (Chapter 2)	Experiment 3: Gateway Cloning		
9/29)	Quiz 3, 9/27	PCR amplification/ Lab Report 2 due		
7	MS analysis	TOPO reaction and transformation		
(10/4/10/6)	Quiz 4, 10/6			
8 (10/11-	Edman Degradation	Plasmid extraction		
10/13)	Data Analysis & protein identification			
9 (10/18-	Student Presentations on 10/18 & or	LR reaction & transformation		
10/20)	10/20			
10 (10/25-	Part 3: Validation	Plasmid extraction		
10/27)	DNA cloning			
	Quiz 5 (10/25)			
11 (11/1-	Gene editing	Experiment 4: Yeast 2-hybrid (Y2H)		
11/03)		Transformation/ Lab Report 3 due		
12 (11/8 –	Interaction Proteomics	Colony selection & plate setup		
11/10)	Quiz 6 (11/8)			
13 (11/15-	Bioinformatics	Plate cleaning		
11/17)	Quiz 7 (11/15)			
14 (11/22)	Part 4: Protein Microarrays	Y2H plate observations		
15 (11/29-	Part 5: Applications of Proteomics	Experiment 5: CRISPR-Cas9		
12/1)	Quiz 8 (12/1)	Virtual lab/ Lab Report 4 due		
12/6	Final Exam/ Literature Review due/ Lab Report 5 due			

## Complete Course Calendar

## Important University Dates

Link to the current academic calendar: https://www.tamuct.edu/registrar/academic-calendar.html

#### **TECHNOLOGY REQUIREMENTS AND SUPPORT**

#### **Technology Requirements**

This course will use the A&M-Central Texas Instructure Canvas learning management system. We strongly recommend the latest versions of Chrome or Firefox browsers. Canvas no longer supports any version of Internet Explorer.

Logon to A&M-Central Texas Canvas [https://tamuct.instructure.com/] or access Canvas through the TAMUCT Online link in myCT [https://tamuct.onecampus.com/]. You will log in through our Microsoft portal.

Username: Your MyCT email address. Password: Your MyCT password

#### **Canvas Support**

Use the Canvas Help link, located at the bottom of the left-hand menu, for issues with Canvas. You can select "Chat with Canvas Support," submit a support request through "Report a Problem," or call the Canvas support line: 1-844-757-0953.

For issues related to course content and requirements, contact your instructor.

#### **Online Proctored Testing**

A&M-Central Texas uses Proctorio for online identity verification and proctored testing. This service is provided at no direct cost to students. If the course requires identity verification or proctored testing, the technology requirements are: Any computer meeting the minimum computing requirements, plus web camera, speaker, and microphone (or headset). Proctorio also requires the Chrome web browser with their custom plug in.

#### **Other Technology Support**

For log-in problems, students should contact Help Desk Central, 24 hours a day, 7 days a week

Email: <u>helpdesk@tamu.edu</u> Phone: (254) 519-5466 <u>Web Chat</u>: [http://hdc.tamu.edu] *Please let the support technician know you are an A&M-Central Texas student.* 

#### UNIVERSITY RESOURCES, PROCEDURES, AND GUIDELINES

#### Academic Accommodations

At Texas A&M University-Central Texas, we value an inclusive learning environment where every student has an equal chance to succeed and has the right to a barrier-free education. The Warrior Center for Student Success, Equity and Inclusion is responsible for ensuring that students with a disability receive equal access to the university's programs, services and activities. If you believe you have a disability requiring reasonable accommodations, please contact the Office of Access and Inclusion, WH-212; or call (254) 501-5836. Any information you provide is private and confidential and will be treated as such. For more information, please visit our <u>Access & Inclusion</u> Canvas page (log-in required) [https://tamuct.instructure.com/courses/717]

## Academic Integrity

Texas A&M University-Central Texas values the integrity of the academic enterprise and strives for the highest standards of academic conduct. A&M-Central Texas expects its students, faculty, and staff to support the adherence to high standards of personal and scholarly conduct to preserve the honor and integrity of the creative community. Any deviation by students from this expectation may result in a failing grade for the assignment and potentially a failing grade for the course. All academic misconduct concerns will be referred to the Office of Student Conduct. When in doubt on collaboration, citation, or any issue, please contact your instructor before taking a course of action.

For more <u>information regarding the student conduct process</u>, [https://www.tamuct.edu/student-affairs/student-conduct.html].

If you know of potential honor violations by other students, you may <u>submit a referral</u>, [https://cm.maxient.com/reportingform.php?TAMUCentralTexas&layout\_id=0].

## **Drop Policy**

If you discover that you need to drop this class, you must complete the <u>Drop Request</u> Dynamic Form through Warrior Web.

[https://federation.ngwebsolutions.com/sp/startSSO.ping?PartnerIdpId=https://eisprod.ec.tamuct.edu:443/samIsso&SpSessionAuthnAdapterId=tamuctDF&TargetResource=https%3a%2f %2fdynamicforms.ngwebsolutions.com%2fSubmit%2fStart%2f53b8369e-0502-4f36-be43f02a4202f612].

Faculty cannot drop students; this is always the responsibility of the student. The Registrar's Office will provide a deadline on the Academic Calendar for which the form must be completed. Once you submit the completed form to the Registrar's Office, you must go into Warrior Web and confirm that you are no longer enrolled. If you still show as enrolled, FOLLOW-UP with the Registrar's Office immediately. You are to attend class until the procedure is complete to avoid penalty for absence. Should you miss the drop deadline or fail to follow the procedure, you will receive an F in the course, which may affect your financial aid and/or VA educational benefits.

## Important information for Pregnant and/or Parenting Students

Texas A&M University-Central Texas supports students who are pregnant, experiencing pregnancy-related conditions, and/or parenting. In accordance with requirements of Title IX and related guidance from US Department of Education's Office of Civil Rights, the Dean of Student Affairs' Office can assist students who are pregnant and/or parenting in seeking accommodations related to pregnancy and/or parenting. Students should seek out assistance as early in the pregnancy as possible. For more information, please visit <u>Student Affairs</u> [https://www.tamuct.edu/student-affairs/pregnant-and-parenting-students.html]. Students may also contact the institution's Title IX Coordinator. If you would like to read more about these <u>requirements and guidelines</u> online, please visit the website

[http://www2.ed.gov/about/offices/list/ocr/docs/pregnancy.pdf].

Title IX of the Education Amendments Act of 1972 prohibits discrimination on the basis of sex and gender—including pregnancy, parenting, and all related conditions. A&M-Central Texas is able to provide flexible and individualized reasonable accommodation to pregnant and parenting students. All pregnant and parenting students should contact the Associate Dean in the Division of Student Affairs at (254) 501-5909 to seek out assistance. Students may also contact the University's Title IX Coordinator.

## Tutoring

Tutoring is available to all A&M-Central Texas students, both virtually and in-person. Student success coaching is available online upon request.

If you have a question, are interested in becoming a tutor, or in need of success coaching contact the Warrior Center for Student Success, Equity and Inclusion at (254) 501-5836, visit the Warrior Center at 212 Warrior Hall, or by emailing <u>WarriorCenter@tamuct.edu</u>.

To schedule tutoring sessions and view tutor availability, please visit <u>Tutor Matching</u> <u>Services</u> [https://tutormatchingservice.com/TAMUCT] or visit the Tutoring Center in 111 Warrior Hall.

Chat live with a remote tutor 24/7 for almost any subject from on your computer! Tutor.com is an online tutoring platform that enables A&M-Central Texas students to log in and receive online tutoring support at no additional cost. This tool provides tutoring in over 40 subject areas except writing support. Access Tutor.com through Canvas.

## **University Library & Archives**

The University Library & Archives provides many services in support of research across campus and at a distance. We offer over 200 electronic databases containing approximately 400,000 eBooks and 82,000 journals, in addition to the 96,000 items in our print collection, which can be mailed to students who live more than 50 miles from campus. Research guides for each subject taught at A&M-Central Texas are available through our website to help students navigate these resources. On campus, the library offers technology including cameras, laptops, microphones, webcams, and digital sound recorders.

Research assistance from a librarian is also available 24 hours a day through our online chat service, and at the reference desk when the library is open. Research sessions can be scheduled for more comprehensive assistance, and may take place virtually through WebEx, Microsoft Teams or in-person at the library. <u>Schedule an appointment here</u>

[https://tamuct.libcal.com/appointments/?g=6956]. Assistance may cover many topics, including how to find articles in peer-reviewed journals, how to cite resources, and how to piece together research for written assignments.

Our 27,000-square-foot facility on the A&M-Central Texas main campus includes student lounges, private study rooms, group work spaces, computer labs, family areas suitable for all ages, and many other features. Services such as interlibrary loan, TexShare, binding, and laminating are available. The library frequently offers workshops, tours, readings, and other events. For more information, please visit our Library website

## [http://tamuct.libguides.com/index]

## **University Writing Center**

University Writing Center: Located in Warrior Hall 416, the University Writing Center (UWC) at Texas A&M University–Central Texas (A&M–Central Texas) is a free service open to all A&M–Central Texas students. The hours of operation are from 10:00 a.m.-5:00 p.m. Monday thru Thursday in Warrior Hall 416 (with online tutoring available every hour as well) with satellite hours available online only Monday thru Thursday from 6:00-9:00 p.m. and Saturday 12:00-3:00 p.m.

Tutors are prepared to help writers of all levels and abilities at any stage of the writing process. While tutors will not write, edit, or grade papers, they will assist students in developing more effective composing practices. By providing a practice audience for students' ideas and writing, our tutors highlight the ways in which they read and interpret students' texts, offering guidance and support throughout the various stages of the writing process. In addition, students may work independently in the UWC by checking out a laptop that runs the Microsoft Office suite and connects to WIFI, or by consulting our resources on writing, including all of the relevant style guides. Whether you need help brainstorming ideas, organizing an essay, proofreading, understanding proper citation practices, or just want a quiet place to work, the UWC is here to help!

Students may arrange a one-to-one session with a trained and experienced writing tutor by making an appointment via <u>WCOnline</u> [https://tamuct.mywconline.com/]. In addition, you can email Dr. Bruce Bowles Jr. at bruce.bowles@tamuct.edu if you have any questions about the UWC, need any assistance with scheduling, or would like to schedule a recurring appointment with your favorite tutor.

## A Note about Sexual Violence at A&M-Central Texas

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Wellness and Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don't agree with their behaviors and tell survivors we will support them. Your actions matter. Don't be a bystander; be an agent of change. For additional information on campus policy and resources visit the <u>Title IX webpage</u> [https://www.tamuct.edu/compliance/titleix.html].

## **Behavioral Intervention**

Texas A&M University-Central Texas cares about the safety, health, and well-being of its

students, faculty, staff, and community. If you are aware of individuals for whom you have a concern, please make a referral to the Behavioral Intervention Team. Referring your concern shows you care. You can complete the <u>referral</u> online

[https://cm.maxient.com/reportingform.php?TAMUCentralTexas&layout\_id=2].

Anonymous referrals are accepted. Please see the <u>Behavioral Intervention Team</u> website for more information [https://www.tamuct.edu/bit]. If a person's behavior poses an imminent threat to you or another, contact 911 or A&M-Central Texas University Police at 254-501-5805.

### **OTHER POLICIES**

#### SCIENCE POLICIES

#### Lecture courses

Exams:

- 1. There will be no bathroom breaks allowed during any exam. Be sure that you address this issue before beginning an exam.
- 2. Any student needing to take an exam at a different time as rest of students due to sickness or other accommodations will receive a different version of exam. This includes sickness, special accommodations, etc...
- All students needing special accommodations must submit an accommodation form from the Office of Access and Inclusion listing the specific accommodations needed. Students are responsible for scheduling their own exam times with the TAMUCT Testing Center.
- 4. Any student missing an exam in class for any other reason (i.e. illness, death in family, etc...) must provide documentation for missing the exam (e.g. doctor's note, obituary notice, etc...). Exams must be made up within one week of original scheduled date, no exceptions.
- 5. All backpacks and materials as well as cell phones, smart watches and other electronic devices, must be turned off and placed at the front of the room on test day.
- 6. Jackets, sweaters, etc must be placed in the front of the room on test day, unless otherwise indicated by teacher.

#### Laboratory courses

Attendance policy:

1. A maximum of 3 absences will be allowed; additional absences in lab will result in an "F" for the entire course, regardless of excuse. In extreme circumstances, discuss with instructor BEFORE you reach 3 absences.

Laboratory Safety training

 All students are required to take the mandatory Laboratory Safety Training Module found on in your Modules tab in CANVAS. You must take the training and bring the signed "Safety Agreement Form" to your instructor before you are allowed in lab!!! This is YOUR RESPONSIBILITY - any lab absences because you have not taken the training will be considered unexcused!

Laboratory Coats

1. Students are required to purchase a laboratory coat from the TAMUCT Hanik Bookstore in Founder's Hall. Students must keep their laboratory coat in the laboratory room (you will be provided a storage bag); you cannot transport coats from lab to lab or bring outside the laboratory.

### **INSTRUCTOR POLICIES.**

What I expect of you. To get the most out of this class, you are expected to conduct yourself in a professional manner, which includes contributing to class discussions, being punctual, and notifying me of absences in advance.

**Class Attendance.** I expect that you attend each class session and arrive on time. If an unavoidable situation arises that prevents you from attending class, I expect that you also promptly contact me to discuss the missed material and get the notes from a classmate. I will not distribute my notes to students as they are often abbreviated and do not contain the detail needed to sufficiently understand the material.

What you can expect of me. You can expect me to start and end class on time, be available through office hours, e-mail, and by appointment, be responsive to student suggestions for course improvement, answer questions to the fullest extent possible and/or direct you to appropriate resources, return graded assignments and exams within a reasonable time frame, and treat you with respect as future colleagues.

**Discussion.** The topics in this class encompass a diversity of issues that merit in-depth thought and discussion. Since individuals will be expressing their opinions, I expect that will you respect others' contributions, as you would want them to do for you.

**Credits and Workload expectations.** For undergraduate courses, one credit is defined as equivalent to an average of two hours of learning effort per week (over a full semester) necessary for an average student to receive an average grade for the course. A student taking a four-credit class that meets for four hours a week should expect to spend an additional eight hours a week outside the classroom to earn an average grade.

**Class Structure.** Classes will involve a balance of active lectures and engaging learning activities. I believe that students learn the theories and concepts much better when they have an active role. I know that this may be new to some of you, but please keep an open mind and I know that you will get more out of this class because of it.

## **Copyright Notice**

Students should assume that all course material is copyrighted by the respective author(s). Reproduction of course material is prohibited without consent by the author and/or course instructor. Violation of copyright is against the law and Texas A&M University-Central Texas' Code of Academic Honesty. All alleged violations will be reported to the Office of Student Conduct.

Copyright. 2022 by Dr. Chamindika Siriwardana at Texas A&M University-Central Texas, College of Arts & Sciences; 1001 Leadership Place, Killeen, TX 76549; <u>c.siriwardana@tamuct.edu</u>

### Instructions for the Research Paper Presentation

Each student will give a short PowerPoint presentation during the semester. The following guidelines describe the objectives and assignment.

#### Objectives

- 1. Read and critically analyze high impact research publications in proteomics.
- 2. Communicate confidently and constructively.

#### Subject

Each student will present the data from <u>one</u> published paper obtained from the following list of acceptable journals:

- Proteomics <a href="https://analyticalsciencejournals.onlinelibrary.wiley.com/journal/16159861">https://analyticalsciencejournals.onlinelibrary.wiley.com/journal/16159861</a>
- Journal of Proteomics <u>https://www.journals.elsevier.com/journal-of-proteomics</u>
- Molecular and Cellular Proteomics <u>https://www.mcponline.org/</u> (Open Access)
- Journal of Proteome Research <u>https://pubs.acs.org/journal/jprobs</u> (Open Access)

Review articles are **NOT** suitable for this assignment.

#### Presentations

Each presentation should give a brief background and introduction to the problems addressed in the paper, a description of the actual findings, and overall conclusions. Presentations should be about **10 - 15 minutes in length** with 1-2 minutes left for audience questions. Talks that are excessively under/over time will lose points in grading. **NOTE**: To get the timing and delivery right, **presentations require practice**. Further, you will not be able to relax and present the material in a conversational tone if you have not practiced ahead of time. The following web links have quite a bit of excellent information on giving a good talk - read and follow this advice! **Especially note the concepts of "zooming in" and "telling a story."** 

http://www.ibiology.org/ibioseminars/techniques/susan-mcconnell-part-1.html

#### **Presentation Sections and Grading Rubric**

The following list is the generally expected format for each presentation. When preparing and practicing your talk, be sure to check over this guide.

#### Title Slide: (5%)

This slide should give the title and author(s) of the paper covered, your name, and the name of the class.

#### Introduction: (25%)

The introduction should include:

- 1) A brief and succinct outline of the presentation
- 2) Appropriate background information to introduce the larger problem you will likely need to obtain information from a few previous papers and/or a review paper or two to adequately

introduce your subject (Cite any background papers in small font at the bottom of the slide where introduced)

3) A sense of "zooming in" to the more narrow question(s) addressed in the paper

## Data Presentation: (25%)

- After introducing and zooming in to the specific problem in your paper, the majority of your talk should present the actual data, implementation of the bioinformatic tools, etc. NOTE: You do not have to present every figure or piece of information from the paper! Pick and choose the essential information that will help you tell a good story.
- 2) Each slide should present one piece of data/information from the paper (i.e., do not overly complicate individual slides)
- 3) Each graph, table, graphic, etc. should be carefully explained in detail in a sensible order ("This graph shows the following...,the X-axis shows..., the Y-axis shows...")
- 4) There should be a clear sense of flow from one slide to the next ("This data showed the following...Next, the authors wished to address..." CLICK to next slide.

## **Overall Conclusions: (10%)**

If you have built a flowing, zooming in narrative through the Introduction and Data sections of your talk, the Conclusions will flow easily and simply reinforce what your readers have already heard - this portion of the talk should not exceed 2 slides (and may only be a single slide).

## Future Directions and Finality: (5%)

Future directions should be a single slide with 1-2 ideas for the next questions to be addressed - these can be taken from the paper or can be your own thoughts on where this work should proceed. Be <u>concise</u> and thoughtful here. **Finality** - don't leave us hanging! When the talk is over, let us know - the easiest way to do this is with a simple declaration of finality, such as "That's everything I wanted to cover today. I would be happy to answer any questions."

## Preparation and Overall Style: (30%)

- 1. Obviously know the material
- 2. Clearly prepared thoughts for each slide
- 3. The talk flows clear segues (i.e., connections) between slides
- 4. Speak clearly with your body, voice, and eyes directed towards your audience
- 5. Slides should be attractive and easily read remember, colorful can be nice, but avoid unnecessarily flowery slides. Also, dark text against dark backgrounds and light against light is hard to see pay careful attention to easily seen, contrasting images and text.
- 6. Overall confident and assertive speaking style everyone has their own style, but confidence flows easily when you know the material and have practiced your talk
- 7. Timing 10-15 minutes! Points off for too short or long

## Instructions for the Literature Review

Each student will write an independent literature review to address the research question related to proteomics. To complete this assignment students will:

- 1. Conduct a literature survey on PubMed and/or Google Scholar.
- 2. Visit relevant bioinformatics databases (e.x. NCBI <u>https://www.ncbi.nlm.nih.gov/</u>)
- 3. Critically analyze the publications and data.
- 4. Write a REVIEW report based on your findings.

The topic for the current semester will be "a review of the SARS-CoV-2 protein interaction map".

A detailed breakdown of each step is given below.

- 1. Literature survey.
  - a. A good resource would be PubMed and/or Google Scholar.
  - b. Read both research publications and review publications. An example of keywords for a search includes "sars-cov-2 protein interaction map". In PubMed you will be able to specify "Review" under the heading "Article Type".
  - c. Remember to cite all work that was referred in your report.
- 2. Bioinformatic Databases.
  - a. A good resource would be NCBI <u>https://www.ncbi.nlm.nih.gov/</u>
  - b. Use NCBI to obtain the protein structure of the SARS-CoV-2 protein <u>https://www.ncbi.nlm.nih.gov/structure?db=structure&cmd=search&term=(%23</u> <u>2)%20AND%20(structure\_cdd\_family\_2[filt])&loc=s\_frm</u>
  - c. and study protein-protein interactions <u>https://www.ncbi.nlm.nih.gov/structure?db=structure&cmd=search&term=sars-</u> <u>cov-2%20protein%20AND%20(complex\_protein[filt])&loc=s\_frm</u>
  - d. Remember to cite all work that was referred in your report.
- 3. Critical Analysis.
- 4. Report.

The report should be written as review article. The report should be between one to five pages long.

The writing in biological sciences tutorials is posted on the Canvas home page. These tutorials are uniform across the Department of Biology at TAMUCT. Please refer to these tutorials for instructions on writing the literature review and citations.
