COVID-19 SAFETY MEASURES

To promote public safety and protect students, faculty, and staff during the coronavirus pandemic, Texas A&M University-Central Texas has adopted policies and practices to minimize virus transmission. All members of the university

community are expected to adhere to these measures to ensure their own safety and the safety of others. Students must observe the following practices while participating in face-to-face courses, course-related activities (office hours, help sessions, transitioning to and between classes, study spaces, academic services, etc.) and co-curricular programs:

- Self-monitoring—Students should follow CDC recommendations for self-monitoring. Students who have a fever or exhibit symptoms of COVID-19 should participate in class remotely and should not participate in face-to-face instruction. Students required to quarantine must participate in courses and course-related activities remotely and must not attend face-to-face course activities. Students should notify their instructors of the quarantine requirement. Students under quarantine are expected to participate in courses and complete graded work unless they have symptoms that are too severe to participate in course activities.

- Face Coverings— Face coverings must be worn inside of buildings and within 50 feet of building entrances on the A&M-Central Texas Campus. This includes lobbies, restrooms, hallways, elevators, classrooms, laboratories, conference rooms, break rooms, non-private office spaces, and other shared spaces. Face coverings are also required in outdoor spaces where physical distancing is not maintained. The university will evaluate exceptions to this requirement on a case by case basis. Students can request an exception through the Office of Access and Inclusion in Student Affairs.

If a student refuses to wear a face covering, the instructor should ask the student to leave and join the class remotely. If the student does not leave the class, the faculty member should report that student to the Office of Student Conduct. Additionally, the faculty member may choose to teach that day's class remotely for all students.

- Physical Distancing—Physical distancing must be maintained between students, instructors, and others in the course and course-related activities.

- Classroom Ingress/Egress—Students must follow marked pathways for entering and exiting classrooms and other teaching spaces. Leave classrooms promptly after course activities have concluded. Do not congregate in hallways and maintain 6-foot physical distancing when waiting to enter classrooms and other instructional spaces.

- The university will notify students in the event that the COVID-19 situation necessitates changes to the course schedule or modality.

ASSIGNMENT REQUIREMENTS AND RUBRICS**Discussion Board Postings (initial Postings)**

Students are expected to read the assigned materials prior to addressing the weekly discussion questions, which are called initial postings. The initial postings are required to include at least a full paragraph or more (6-9 sentences), and an APA formatted reference list on bottom of posting, entitled References. Additionally, each initial posting should include ample APA formatted citations that correspond with reference list. The first initial DB posting should be

completed by Wednesday evening of each week, and the second should be completed by Saturday evening. Please avoid quotes. All responses to peers should be substantive but are not required to include a reference list. These are due by Sunday evening at the end of the course week. Class participation (Engagement) is based on the frequency and quality of online interactive participation with other students and professor. Quality participation pertains to a student commenting, discussing, asking questions, or respectfully disagreeing, or asking questions in relevant, meaningful ways, based on assigned readings and subject matter for the class. PLEASE AVOID discussing personal issues (unless they are fully relevant to discussion, do not “diagnose anyone,” and do not share names of others in discussions with mental health issues since confidentiality is vital. Check grammar and spelling and avoid writing as though you are sending a text to your best friend. Each adequate initial posting is worth 20 pts for a total of 40 pts per week. Two responses to peers are required (more is better) for each DB posting, and are worth 5 pts each, for a total of 20 pts per week. Not including an APA formatted reference list and citations will lead to a deduction of up to 2-3 pts per initial posting.

Weekly Discussion Posting (Responses to Peers)

All responses to peers should be substantive but are not required to include a reference list. These are due by Sunday evening at the end of the course week. Regarding class participation, for each initial posting, students are required to respond to at least two peers’ postings, preferably earlier in the week, but no later than Sunday evening when the week ends. You are encouraged to disagree with others, as topics in this course are likely to be controversial but be respectful to the perspectives of others. Please write at least a short paragraph, and avoid simple phrases such as, “I agree with you on your posting.” Each adequate response to a peer is worth 2 pts for a total of 4 points per week.

Final Paper, Various Course Papers, and Essay.

I am a proponent of learning to write in APA style, since some of you may be writing for your profession or going on to graduate school. As such, I expect all paper assignments to include a cover page (title, your name, and A & M University Central Texas, in that order). The Final Paper should include an abstract, but the other papers do not need one. All papers should include an APA formatted reference page entitled References, and the references should be formatted in Hanging Indent Feature, found under Line Spacing Options, then Special, then Hanging. The final paper should be at least 15 pages in length and should include 10 scholarly references on the final page.

Avoid references from the web, blogs, magazines, newspaper clippings, dictionaries, or encyclopedias. Avoid websites that end in .com. You might find scholarly articles in sites that end in .gov, .edu, or .org, but I prefer you seek references from your university library databases. As college students, you should learn that much information online is not credible. Please include topic headings throughout paper to help organize your work. These should include an introduction, a conclusion (both centered) and a few headings between these. See Levels of Headings in the APA Publication Manual to determine where to place headings, depending on their order of importance in the paper.

Please use 12 pt Times New Roman or Arial font per APA, and double space your work. There should be no space between paragraphs, and no space between headings and text. You must use Word, so that I can see your actual formatting. **I will send you an APA Sample Paper early in the course to help you visualize what a paper should look like.** Please don't retrieve APA templates online, and don't write on APA sample templates. Use my sample paper as your guide so you can create your own paper template. Please indent all new paragraphs and avoid run-on or single-paragraph papers. I prefer you do not include quotations in your paper, just use your own wording. Slang terms and etc. are not acceptable. Ideally, it is best to write in the third person in all papers, thereby avoiding the use of "I," "we," and "you." Do your research to determine if you need to use pronouns that display cultural sensitivity. You should include a running head on the top left, as well as page numbers in the top right corner. No fancy fonts per APA. To help with the insertion of a header, in Word, locate the insert tab, page number, top of the page, and plain number 3. Select plain number 3. At this point, you may type in your header according to the APA Publication Manual. Your University Writing Center will be able to assist if needed, and you may also learn more from the Purdue Owl Writing Center, online. I prefer you avoid quotes, but on rare occasions when you do, you need to include page numbers in citations (Jones, 2019, p. 34).

Rubrics for papers will be included in the actual course. You are expected to use a solid organization of papers, well-constructed and reader-friendly headings, pertinent content, free of personal information and one-sided opinions, and use correct grammar and spelling. APA style, and APA formatted references are required.

Tutors are prepared to help writers of all levels and abilities at any stage of the writing process. While tutors will not write, edit, or grade papers, they will assist students in developing more effective composing practices. By providing a practice audience for students' ideas and writing, our tutors highlight the ways in which they read and interpret students' texts, offering guidance and support throughout the various stages of the writing process. In addition, students may work independently in the UWC by checking out a laptop that runs the Microsoft Office suite

OPTIONAL POLICY STATEMENTS

A Note about Sexual Violence at A&M-Central Texas

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don't agree with their behaviors and tell survivors we will support them. Your actions matter. Don't be a bystander; be an agent of change. For additional information on campus policy and resources visit the [Title IX webpage](https://www.tamuct.edu/departments/compliance/titleix.php) [https://www.tamuct.edu/departments/compliance/titleix.php].

You can complete the [referral](https://cm.maxient.com/reportingform.php?TAMUCentralTexas&layout_id=2) online [https://cm.maxient.com/reportingform.php?TAMUCentralTexas&layout_id=2].

Anonymous referrals are accepted. Please see the [Behavioral Intervention Team](https://www.tamuct.edu/student-affairs/bat.html) website for more information [https://www.tamuct.edu/student-affairs/bat.html].
