4. Team Project & Presentation (Team: 3-5 people)

Each team will be assigned a financial institution. Students are expected to investigate the financial institution's operational structure and risk management practices with a greater emphasis on credit, liquidity, and market risks. While the relevant information can be fully found in the institution's most recent annual report, students are encouraged to explore other information sources. During the final week, the students will turn in a hard-copy of the team report and give a presentation to the class about their study. More details will be given in class.

5. Exams

There will be three exams. The exams will cover materials from lecture notes, the handouts, and article discussions. Each exam will have a combination of multiple choice and essay questions. All exams are close-book & close-notes formats. You need to open your camera and will be proctored by Connect.

Exam 1 will be on 9/22 from 11:00 AM – 12:15. The exam questions will include multiple choices and fill in the blanks. For both types of questions, grading is based only on your final answer.
