Course Description

An examination of the factors and conditions leading to behaviors that violate and deviate from fundamental social values. The relationship of personal and social maladjustment is addressed in relation to the various theories of deviant behavior.

Course Objectives

1. Understand the nature of deviant behavior.  
2. Identify and understand current perspectives and theories on deviant behavior.  
3. Describe and understand the social organization and forms of deviance.  
4. To develop critical thinking skills by integrating a “sociological perspective” into your oral and written communications.

Class/Instructor Policies

Taking a Sociological Perspective: I encourage questions and discussion concerning course material and sharing personal observations and experiences. However, since you are enrolled in a sociology course, the main goal is to utilize a sociological perspective. This means that you should try to analyze various topics with an objective point of view. Objective point of view
means looking through the lens of sociology. How does sociology utilize objectivity, you might be asking? Sociology is a social science – we use qualitative and quantitative research techniques to collect data about the social world. Sociologists must always strive to maintain an objective outlook when observing the social world. Therefore, in this course, you are challenged to look within the layers of a social phenomenon or put another way, to look beyond what you see on the surface. In addition, you will not agree with everything you hear in class from the professor or your classmates. Part of becoming educated requires that your ideas are challenged. As a college-level student, you should be able to see different points of view of the same issue. I expect students to be respectful towards every person in this classroom, even if they disagree with certain viewpoints.

The role of the instructor is to present critical ideas, to offer an analytical framework for understanding the course material, to work with students in providing an inspiring learning environment, and to provide and receive constructive feedback. It is not the instructor’s role to tell the student what to think. The student’s responsibility is to read the readings with a critical mind, to question, to complete assignments on time, to participate in the exchange of ideas, and to work toward an inspiring learning environment. It is the responsibility of all of us to create a safe learning environment free of racism, sexism, classism, ageism, ableism, homophobia, transphobia and heterosexism.

Late Work: When you are turning in assignments, your work must be uploaded in Canvas at the specified due date and time. I will not accept that assignment through email. However, if you are having an issue with an assignment, let me know ahead of time and I will do what I can to accommodate you.

Additional Help: If you need additional help on assignments, papers, or any materials covered in class, please do not hesitate to contact me. The best way to get in touch with me is through email.

Incomplete Grades: I DO NOT GIVE OUT INCOMPLETE GRADES. ALL ASSIGNMENTS AND TESTS ARE DUE ON THE DATES OUTLINED IN THE SYLLABUS.

Attendance and Participation
Attendance and participation are very important. One of the goals for this class will be to stimulate creative and critical thinking which requires being involved in the analysis and discussion of various topics. Participation means being prepared by doing the readings before class and offering substantive insights and comments during class discussions. I will hand out an attendance sheet before each class. Please make sure that you sign in because you will not be allowed to sign in after the fact. You will earn points for attendance so please see specific details under the Course Requirements section of this syllabus.

Other Relevant Issues
• If you have to leave early, please let me know before class begins.
• Please do not come to class late. Not only does this cause disruption but coming in late is disrespectful to the professor and your classmates.
• If you do not sign in for a particular day, I will not allow you to come back later to sign the attendance sheet. It is your responsibility to sign in when you attend class.

• **Please put your phones away during class.** No texting or playing on social media while class is in session. Please do not listen to music while sitting in my class. I will ask you to leave the class and you will not earn attendance credit.

• **You can use your computer for class related tasks like taking notes, etc.**

ASA Examples Using Adler and Adler (2016)

Referencing Parts From the Text Written by the Editors:

The Adler and Adler (2016) text is a reader. This means that in this book, there are readings from other authors. Adler and Adler (2016) are the editors who in the beginning of each Part of the book provide an introduction. For instance, from page 11 to page 15, Adler and Adler (2016) provide their introduction. If you take information from the introduction, you reference Adler and Adler (2016). Then in your reference page, you reference the entire book like so:

How to list a book in your reference page can be found on page 57 of your ASA guide.

In text, you do the following if directly quoting:

According to Adler and Adler (2016), “When we speak of deviance, we refer to violations of social norms” (p. 11).

OR

According to Adler and Adler (2016:11), “When we speak of deviance, we refer to violations of social norms.”

OR

“When we speak of deviance, we refer to violations of social norms” (Adler and Adler 2016:11).

If you are paraphrasing, you would do the following:

When social norms are violated, most often this is referred to as deviance (Adler and Adler 2016).

OR

According to Adler and Adler (2016), when social norms are violated, most often this is referred to as deviance.

Citing Your Readings:

If you reference one of the readings, you include the name of the author(s) in the text of your paper and list the reading as a chapter from a book.

So say that you reference the first reading found on page 17 by Kai Erickson (2005). In text, you would say:
According to Erikson (2005), “In each of the three situations he is required to use a different set of criteria to decide whether or not the behavior in question exceeds tolerable limits” (p. 18).

OR

“In each of the three situations he is required to use a different set of criteria to decide whether or not the behavior in question exceeds tolerable limits” (Erikson 2005:18).

OR

According to Erikson (2005:18), “In each of the three situations he is required to use a different set of criteria to decide whether or not the behavior in question exceeds tolerable limits.”

If paraphrasing, you can place (Erikson 2005) at the end of the sentence or say According to Erickson (2005)…

Since you are not directly quoting when you paraphrase, technically you do not need to provide a page number.

Information on all readings can be found at the bottom of the page of each reading. This is where you find the year of publication etc.

If you come across a reading that does not provide the year in which the reading was written, you do the following:

“Positive deviance is a contested term in the sociology of deviance” (Heckert and Heckert N.d.:27).

Or when you paraphrase:

According to Heckert and Heckert (N.d.), positive deviance is sometimes considered to be a contested term.

N.d. stands for “no date.”

In our reference page, the reading should be listed as a chapter from a book found on page 59 of your ASA guide. Using Erikson (2005) as an example, you would do the following in your reference page:

Using Herkert and Heckert (N.d.) you would do the following in your reference page.
