Required Reading and Textbook(s)

Writing Instructive Course: This is a Writing Instructive (WI) course so writing will be an integral part of my instruction and our interactions. Writing will also be a fundamental way that I measure student mastery of course content. WI means that you will have several opportunities to work on improving your writing skills.
For this course you will complete separate steps of the writing process for each project and receive instructor feedback to be incorporated in the subsequent drafts of the projects. Students will also provide peer review feedback to other students to improve their own writing as well as that of their peers.

COURSE REQUIREMENTS

**Online Discussions:** 280 points (14 X 20 points each), SLO 2, 3. Each week the instructor will provide a prompt or discussion topic based upon the week’s topic. Students will provide their response to the discussion prompt in the Canvas Discussions area. The student’s original response is worth up to 10 points. In addition to the response, students are expected to respond to at least 2 peers as well (up to 10 points). To receive full credit, the original post and peer response must show knowledge of the readings as well as application to the student’s life, career, experiences or perspective. In other words, the response must go beyond summarizing the textbook or provided resources.

**Quizzes:** 100 points (5 quizzes X 20 points each), SLO 1. Students will complete 5 quizzes covering plagiarism, APA formatting, and writing style. The quizzes will be presented online through Canvas.

**Essay:** 50 points, SLO 1, 2, 3, 4. Students will develop an essay addressing a current topic related to psychology. The essay will be evaluated on APA style, quality and use of resources, and critical thinking. A detailed rubric for this assignment is provided in Canvas.

**Peer Review of Essay:** 20 points, SLO 4. In addition to completing the essay described above, each student will provide feedback for a peer’s essay. The feedback will be evaluated on the application of rubric, critical thinking, and quality of suggestions for improvement.

**Article Analyses:** 80 points (4 X 20 points each), SLO 3, 4. Students will summarize an article related to their research topic using the provided Article Analysis Form. On the form, students will identify the purpose, hypothesis, key findings, and limitations of the study.

**Literature Review:** 220 points total, SLO 1, 2, 3, 4. Students will develop a formal APA style literature review by completing several steps. Detailed rubrics for each step are provided in Canvas. The rubrics will be used to evaluate APA style, use of sources, quality of sources, writing style, and critical thinking.

- Reference list (20 points) to include at least 10 empirical professional sources related to the chosen topic presented in APA style.
- Two Lit Review Drafts (30 points) to include purpose, summary of information from multiple sources in APA style.
- Peer Review of Draft (20 points) including feedback on APA style, suggestions for organization and clarity.
- Final Draft (150 points) will be evaluated on APA style, thoroughness of review, quality of sources, writing style, organization, application of prior feedback, and professional point of view.
Grant Application: 100 points total, SLO 1, 2. Students will develop a grant proposal including:
- Proposal List (30 points). Students will create a list of grants related to a chosen topic. The list will be evaluated on application to the topic and feasibility.
- Draft (40 points). Students will submit a rough draft of a proposal for an assigned grant.
- Final Grant Proposal (100). The final proposal should incorporate prior feedback and will be evaluated on professionalism and meeting the grant standards.

Clinical Notes (40 points), SLO 1, 2. Students will use professional note taking formats to report on observed behaviors. Notes will be evaluated on thoroughness, professional perspective and appropriate use of format.

Psychosocial Report (40 points), SLO 1, 2. Students will develop a psychosocial report for a hypothetical client. The report will be evaluated on thoroughness, professional perspective and appropriate use of format.

Research Experience Requirement: Students in selected psychology courses (PSYC 3307, PSYC 3409, PSYC 3312, PSYC 3430, PSYC 4320) are required to engage in research experience activities as part of the course. The research experience activity involves writing summaries of peer reviewed research articles that are related to the course content. Faculty will identify which articles can be reviewed for their course, and article reviews can be submitted directly to the faculty for evaluation.

If students choose not to write article summaries, they can complete an alternative research experience by participating in research studies directly related to psychology to gain this experience.

Sign Up for Alternative Research Experience: To receive credit for this alternate research experience activity, students must create an account in SONA. The university SONA account is where students will sign up to participate in research projects (https://tamuct.sona-systems.com). Students should view the introductory tutorial video before using SONA (https://www.youtube.com/watch?v=1OnT2ZU6QQ) and be sure to use their university email when signing up. Students who have problems signing up for SONA or have questions should contact the professor of the course.

Credits: Students are required to complete 3 research experience credits in this course. Credit is allotted as follows:
- 1 credit for each summary of a peer-reviewed, research article OR
  1 credit for each hour (60 minutes) of research participation (in-person or online)
- 1/2 credit for each 1/2 hour (30 minutes) of research participation (in-person or online)

Students can use a combination of article summaries and alternative research assignments to earn their credits. There is no guarantee that there will be sufficient research participation opportunities for students to earn 100% of their credits from this alternative research experience.
Students who drop a class after having earned research experience credit cannot apply any accumulated credit from that class towards future semesters without the documented approval of the department chair; however, credits in SONA can be transferred from one course to another in the same semester. Credits from previous semesters are not permitted to be transferred for current semester use.

Penalties: Any student who has not earned all required research credits prior to the end of the semester will be penalized 1 letter grade on the final course grade. The deadline is midnight on 5/11/2022.

OPTIONAL POLICY STATEMENTS

A Note about Sexual Violence at A&M-Central Texas

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Wellness and Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don’t agree with their behaviors and tell survivors we will support them. Your actions matter. Don’t be a bystander; be an agent of change. For additional information on campus policy and resources visit the Title IX webpage [https://www.tamuct.edu/compliance/titleix.html].

Behavioral Intervention

Texas A&M University-Central Texas cares about the safety, health, and well-being of its students, faculty, staff, and community. If you are aware of individuals for whom you have a concern, please make a referral to the Behavioral Intervention Team. Referring your concern shows you care. You can complete the referral online [https://cm.maxient.com/reportingform.php?TAMUCentralTexas&layout_id=2].

Anonymous referrals are accepted. Please see the Behavioral Intervention Team website for more information [https://www.tamuct.edu/bit]. If a person’s behavior poses an imminent threat to you or another, contact 911 or A&M-Central Texas University Police at 254-501-5805.
