OPTIONAL POLICY STATEMENTS

A Note about Sexual Violence at A&M-Central Texas

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Wellness and Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don’t agree with their behaviors and tell survivors we will support them. Your actions matter. Don’t be a bystander; be an agent of change. For additional information on campus policy and resources visit the Title IX webpage [https://www.tamuct.edu/compliance/titleix.html].

Behavioral Intervention

Texas A&M University-Central Texas cares about the safety, health, and well-being of its students, faculty, staff, and community. If you are aware of individuals for whom you have a concern, please make a referral to the Behavioral Intervention Team. Referring your concern shows you care. You can complete the referral online [https://cm.maxient.com/reportingform.php?TAMUCentralTexas&layout_id=2].

Anonymous referrals are accepted. Please see the Behavioral Intervention Team website for more information [https://www.tamuct.edu/bit]. If a person’s behavior poses an imminent threat to you or another, contact 911 or A&M-Central Texas University Police at 254-501-5805.

Course Projects and Rubrics

The following Assignment descriptions give an overview of the major projects to be expected in class. Specific Grading Rubrics for other projects and assignments will be given upon
introduction of the assignment.

**Exhibition & Outreach/Educational Activity Proposal**

You will be required to create both an exhibit and educational/outreach activity proposal. These will be presented together and built around the same content. Meaning, if your exhibition is an art exhibit covering a certain genre, then the program should relate to that in some way. This can be holistically, thematically, by subject matter, or in relation to specific objects. Be sure to explain their relationship. You are not limited by time, money, possession, loan, or guardianship. You can assume that you will be able to get all of the resources you need and borrow any item you wish. The idea is to practice connecting themes, objects, story, and community.

*This is not an essay!* The object of this assignment is to give you some practice in marrying the creative with the academic. To practice supporting the creative endeavor of public history while maintaining the critical authority of scholarship. Thoughtful and visual creativity will be part of the grade. The conciseness and thoroughness of your writing will also play a major role. Those in the cultural heritage sector must remember our expert bias and choose our words carefully. Express the key points without overwriting.

**Platform:** You will need to create a free account with Canva.com. Use this platform to create a digital proposal for both the exhibit and Educational/Outreach Proposals. Use your imagination! Using Canva.com, you can create brochures, a poster proposal, presentations with music and video. You are limited only by your imagination. Remember, visual creativity will play a part in your grade.

**Part I: The Exhibit Proposal**

**Why:** Exhibits are an important way for cultural heritage professionals to publicize collections, interpret materials for new audiences, and build connections with collaborators who may want to be a part of related programming, etc. This assignment will give you the chance to think about how you would design an exhibit and what you might include.

**What:** You are charged with proposing a new exhibit for your institution. Come up with an exhibit concept that is thematic in nature and that connects at least two collections items to each other. The theme is entirely up to you.

Some possible ways to frame your topic (but certainly not the only ways):
- A specific social or political movement, as seen through the lens of contemporary writings or through contemporary archival documents.
- Works by a certain author.
- Works within a specific literary or artistic movement (e.g. the Harlem Renaissance).
- Works by women, LGBT community members or another group you want to learn about (e.g. early novels by women writers).
- A certain event, as described in special collections holdings
- A collection of objects centered around a central topic/subject/theme (military history, renaissance art, local history, costuming,)
- A specific historical location, landmark, memorial

Please include the following elements in your assignment document:
An abstract, which gives me a very brief overview (~1-2 paragraphs) of what your exhibit is about.

A sentence or two addressing each of the following: These can be bulleted or included in the visual design.
- Why is this topic important? Whose story does this exhibit tell?
- Who is the audience for this exhibit? Why is it relevant to them?
- A few ideas for what kinds of sub-themes/panels you would explore
- How do you think this exhibit should be laid out? How big is it (a case, a whole gallery, etc.)

A list of items included in your exhibit (for the purposes of this assignment, I want you to focus on a cohesive theme, and so you are allowed to draw on the holdings of one particular collection or on holdings from multiple repositories)

Two key objects and labels. Include an image of the item. The label should be less than 65 words and convey the “So What” factor related to the overall theme. Think about the label-writing winners discussed in class.

**Part II: Outreach Activity**

**Why:** Like exhibits, outreach is an important part of publicizing your collection and helping your audience find meaningful connections within it, your mission, and your institutional relationship with the larger community. This assignment, like the exhibition proposal, will give you some practice thinking through how to design an engaging program so that when you encounter this activity in your work life you have a framework upon which to build.

**What:** You are the new Educational/Outreach Coordinator for your institution. Design an educational or outreach program geared towards a community you want to work with.

I use ‘community’ in a broad sense here, and you are welcome to design a program for any audience in whom you have a particular interest in serving. This could be students and faculty, artists, people in a specific industry, an underserved community, or even other colleagues or institutions (e.g. a program on incorporating primary sources into the classroom for school administrators).
Similarly, the phrase ‘program’ is used in its broadest sense—the program you design can be any activity that connects your audience to your collection. This could be (but is not limited to): art classes, craft nights, performances, writing workshops, special tours, lecture series, theme dinners, hands-on demonstrations, costume parties, and more. Don’t be afraid to be creative! It can be centrally focused on educational goals or community outreach.

Please answer the following questions in your proposal:

Describe your new program:

- What will participants do? Does it have a strict structure or is it more flexible?
- Is your programming a single event (e.g. a workshop or a performance) or is it ongoing (e.g. a semester-long reading and writing group)?
- Does this program draw upon specific collection items (e.g. a Jane Austen performance group) or does it draw generally upon certain themes that are found in many collections (e.g. doing a class on the history of the book in a brewery)?
- What is the goal of your program? How will you determine whether or not you’ve met this goal?
- Will your audience or other collaborators participate in designing or modifying this program? If so, how?
- Has anyone else done a program like this? If so, what did that look like (and, if they have shared that information, what did they learn)?

Digital Dramaturgy Project

In lieu of a final exam, you will be putting historical research to use in creative interpretation. You will be required to create a digital dramaturgy project using any free website platform (WIX, Squarespace, etc.). A Canva.com project is also an option and should be discussed with the instructor. This is a culmination of several key aspects of “doing history” outside of the classroom. You will be putting into practice the decision making process of interpretation, approaches to theme, storytelling, exhibition, and concise writing practices.

As the historical consultant, you will choose any book/story/play that you know or find and create a digital dramaturgical guide for its production on stage or screen. Be sure to note for which medium the story is being produced. The story must take place before the year 2000 and be seated in reality. All choices require prior approval and science fiction and fantasy selections may not be approved. (Harry Potter, for example, is off the table). We will be suing Forrest Gump as our exemplar.

Your digital Dramaturgy project should include landing pages for each of the following topics. It
should be supported by primary and secondary sources. Include your references for each
section on the reflection page.

1.) Background of book/story/play and author
   Include at least a paragraph for each.
   Keep it under 300 words total

2.) Story summary and Discussion of Themes present
   At least a full paragraph plot summary (under 200 words)
   List the major themes present in the story and include a brief supportive description of
each. (Less than 100 words for each theme/description)

3.) Settings and locations
   Describe the time, regional location (country/state/town, etc.) and localized location
   (home, office building, etc.)

4.) Character(s)
   Pick one or two central characters and briefly describe their key characteristics.
   How do or don’t they fit in?
   How are they influenced by the world events around them?
   How does that relate to the themes addressed in the story?
   What does their character tell us about the time, place, and events of the time?
   Explain
   Who would you cast to play them? Why?

5.) Costume
   Pick one or two central characters and showcase what their costuming would look like
on screen or on stage.

6.) At the dinner table
   Food is an important reflection of the time, location, and socio-economic place of those
at the table.

   Set the table for the characters in the story. What would they be eating and why? Be
sure to include imagery and a supportive explanation of your choices.

7.) Create a Soundtrack
   Music is a strong signpost of thoughts and feelings of various communities at any given
time. Create a list of at least ten songs that represent the time, location, and events of
the story.

   Brief supportive reflection of your choices. How would these songs relate to the central
characters?
7.) Mood board- Set the Stage

Create a visual inspiration board to help “set the stage” for the story. You are providing visual references to help bring the story to life. Include pictures of locations, art, color pallets, buildings, interior spaces, etc. Anything that helps describe what the stage setting should include and the tone it should convey. What should the setting “feel” like?

Be sure to include a brief description of your board and a supportive reflection of your choices. Very Brief. Just a paragraph or so.

8.) Social, political, cultural

-Timeline of external events
-Key details that would influence norms, behaviors, and expectations of people during this time. Consider:
  - Who is the President (or other government leader)?
  - What political/social/cultural events are occurring during this time?
    - (Elections, war, protest, changing laws, evolving social norms etc.)
  - What cultural events or evolutions are occurring?
    - Popular culture, art, music, film, magazines
  - Are there other important social or cultural influences occurring? (race/nationality/gender/age/religion) Is there conflict between these and other events outside the central story?
  - What would a snapshot of life during this time, in this place, look like?

9.) Final Reflection and references. (Keep it under 300 words)

History in 100 Words

An in-class writing practice in creating informative, authoritative introductory panels that are concise, entertaining, and encompass the “So What?” Instruction, review, and rubric will be given through class instruction.

Podcast Review

We will be working our way through an historical non-fiction podcast Bad Women: The Ripper Retold. We will listen to assigned episodes and discuss them throughout the course. Students will complete a podcast review form and reflect on both the content of the podcast and the role new multi-media forms have/will have on the cultural heritage sector. How can public history institutions utilize these mediums to their advantage? Can podcasts be scholarly and entertaining? What opportunities lie in their use/evolution?

Virtual or In-Person Public History/Historical Site Visit Reflection
Site Visit form and rubric will be given in Canvas during appropriate module. For this assignment you are required to write a critical review of an art exhibition in a local gallery or museum.

Guidelines:
A critical review should not simply rehash the contents of the exhibition/ program. Rather, it is an opportunity to evaluate the argument or thesis of an exhibition and how well the exhibition makes its case.

Students should present general thoughts on the exhibition/ program, the way it is presented in-person or in an online format, and how it relates to something you've learned in class. Your job is NOT to summarize the exhibition/ program and explain what artifacts were present. Instead, your job is to critically think about the virtual experience of "visiting" this exhibition and how this institution is presenting stories about the past through objects or activities. Use specifics when making a particular point, whether it's a criticism or a compliment. You might want to consider how you're guided through the space to view materials, or how the exhibition is designed to tell a particular story about the past.

Students will need proof of visit (screen shots, receipts, selfies) and date of visit

Given that Covid-19 has pushed museums and other cultural heritage institutions to rethink their virtual presence, here are some questions to think about for your reflection:

• How has this museum made their exhibitions more virtually accessible?
• What can or can't you do through this virtual experience?
• What was the balance of text, audio, video, or photographs?
• What were you able to learn through the virtual experience that you might not have learned if you visited in person?
• What stories about the past is this exhibition trying to tell their visitors?
• What would make this virtual experience more engaging, educational, or enjoyable? Explain why.

*Note that you don’t have to address ALL of these questions; they are here to serve as a guide. To get you started, you can visit the websites for each of these museums: American Museum of Natural History and/or Metropolitan Museum of Art

• Note that the AMNH has partnered with Google for virtual tours of its exhibitions. You can visit them here.
• You can also download the Explorer App to virtually navigate the halls of the AMNH so you can then explore them through the Google Arts and Culture feature
• The Met's virtual resources are not as expansive
• If you choose to write about the Met, you should explore the Temple of Dendur exhibition using their 360 Project
Your review must include:

1. The name of the institution, the title of the exhibition, and any other information salient to the production and presentation of the exhibition as a whole.
2. A description of what comprises the exhibition or program and an account of their layout within the space.
3. An analysis of the thesis or central argument of the exhibition/program. What do you think the contribution of the exhibition/program was intended to make? Does the exhibition/program offer a new interpretation of the objects, materials or ideas displayed or discussed?
4. An analysis of the challenges faced by the institution in the creation and realization of the exhibition/program. Do you think this was a difficult project to realize? What sort of choices or risks might have been involved, and what contingent factors (budget, time, loan expenses, etc.) might have affected the outcome of the exhibition?
5. Your evaluation of the exhibition/program as a whole. Does the exhibition/program achieve its stated objectives? What questions or issues does it leave unresolved? This is not necessarily a matter of “yes” or “no.” You may conclude that the exhibition/program was more successful in some respects than others.
