COURSE REQUIREMENTS

A syllabus serves as an instructional and study planning document for both faculty and students. Although every effort will be taken to complete the semester according to the syllabus, it may become necessary to make certain changes to better facilitate the academic environment. In such an event, changes will be announced in the virtual classroom and emailed to students within one week of the change decision. Following is a description of the major course assignments as well as other components that make up the total grade for this course.

Correct APA citations, references, and formatting are essential:

ALL cases, discussions, papers, etc. require citations & references unless otherwise noted. The internet has led to a false sense of what research is all about. Those new to research tend to think that it means spending an afternoon surfing the internet and then cutting and pasting from material available. Keep in mind the internet is:

- 1. Not quality oriented—it has good stuff and not so good stuff. The internet does not know the difference.
- 2. The internet should NOT be the sole source location for your research.
- 3. Use the library. You have access to academic journals in the library. Academic research is far more valuable than random internet searches.

Discussion Forum (5 x 50 = 250 points)

There will be a total of 5 discussion forums that will be based on the theories and concepts learned in this course that will need to be applied to the real world. You will need to respond to a minimum of 2 peers. Discussions are intended to create student-to-student interaction in the course as well as teach and reinforce module concepts. *A rubric with the grading criteria will be provided with the discussion instruction.*Discussions are interactive and time sensitive; therefore, contributions to discussions will not be accepted late without written documentation of an unavoidable or unforeseeable event.

Professional Conduct Expectations: Online netiquette and in-person professional conduct are required at all times. I reserve the right to delete student posts that violate netiquette expectations, including those posts that lack kindness, respect, and inclusive language towards students or the instructor. A student whose post lacks netiquette will be deleted and receive a 0 for that discussion. A student's behavior that is unprofessional and/or violates netiquette expectations will be viewed as a violation of professional etiquette. A reduction in one final grade level (e.g., from A grade to B grade) will occur per case of a behavior that is unprofessional and/or violates netiquette expectations. However, I reserve the right to reduce the penalty if I believe the behavior was unintentional or very minor in impact.

Case Study Assignments (4 x 100 = 400 points)

Case study assignments in this course are qualitative assessments of this course's learning objectives, which are designed to help you practice applying course concepts to solve organizational behavior problems. Case study assignments will typically involve reading a case and writing a report of 2-3 pages providing a solution to the case, or responses to instructor questions.

Research Project (150 points)

This project is the largest learning activity for the course. You will research and analyze a real organization (public, private, or non-profit). Please note that student-run groups on campus are not permitted for this project. You may select an organization in which you have worked or been a member. I advise you to be selective in choosing an issue or problem within an organization, as a lack of depth in the issue itself will not be an acceptable excuse for lack of depth in the analysis.

The project requires you to examine a problem or issue of concern in a real organization. The purpose of the project is to give you an opportunity to apply what has been learned in the course as well, as your own independent research, to problems in an organization of your team's choice.

You will focus on an issue or problem that the organization is facing and is relevant to the content of this course. It will likely take several conversations with your key contact person at the organization to identify a problem or issue that can be clearly defined, is manageable in scope, and is relevant to the course.

Irrespective of what option you choose, you are to gather information from people in an organization through direct contact. You may supplement this information with data from the media, the organization's literature, and other secondary sources. You should identify a relatively recent problem to analyze (i.e., this should not be an historical account of a problem and the company's solution). You should focus your analysis by applying the concepts from the course. While it is acceptable to incorporate several concepts from the course, please aim for depth rather than breadth regarding the use of course concepts. Project deliverables will be due throughout the semester.

Midterm Examination (100 points)

This course has two equally-weighted examinations. The first will be the midterm examination, and will reflect lessons and chapters 1 through 8. It will be composed of both multiple choice and essay questions.

Final Examination (100 points)

The second examination will be the final and will take place at the end of the semester. It will reflect lessons and chapters 9 through 16 and will also be composed of both multiple choice and essay questions.

Requirement: Professional Etiquette

Students are expected to embody professionalism to include the following:

- Demeanor Being polite, well-spoken, inclusive and mature, and demonstrating tact, respect, compassion, and appreciation - not being rude, belligerent, arrogant, or aggressive.
- Reliability Following through on tasks in a timely manner, and communicating unanticipated events.
- Competency Committing to learning and applying content from the course, acting in a responsible manner, and practicing sound judgment,

- seeking assistance when appropriate.
- *4. Ethics* Being honest and trustworthy.
- 5. Equality Refraining from giving or seeking preferential treatment unless supported by the Office of Student Success, adhering to published policies of the university, seeking assistance or clarification when appropriate.

A student who violates professional etiquette in a manner that is egregious (as determined by the instructor) may result in a failing grade for the course. A less severe penalty may be assigned by the instructor, depending on the circumstances of the situation.

Getting Started:

You are nervous and experiencing sensory overload. Welcome to the club. You are not alone—almost everyone is in the same boat. For many of you this is your first graduate course. That makes this course quite a challenge. There's so much to see and do it might be confusing at the start. However, don't worry! I am here to guide you through the process. If in doubt, ask. (There are no dumb questions!)

The job of a graduate student is to move forward human knowledge.

I know this is intimidating, but my job is to challenge you. I want you to improve—

there wouldn't be much point in taking this course if you didn't. This course is about becoming a critical thinker, learning to evaluate what you read, getting some data, evaluating the source, and developing you own conclusions and supporting them with research.

Reading the textbooks and lectures should be your starting point. You have access to the library—use it. Here is how I go about an assignment: I first read the assignment through to get a feel for it. I then get out some paper and read it again, writing down some key phrases and any ideas that occur to me. I don't just start writing a paper. Using my notes, I next try to find and read some scholarly articles. I use the words in my notes as search phrases. When I get a list of articles, I quickly scan their titles. If the titles look interesting, I scan the Abstract. Does the paper agree or disagree with my emerging ideas? I not the citations and references. Then I ask the most important question: Do I have something to say? My goal (and your goal) is to say something new. If not, I go back and try again. Finally, I write the paper with my own thoughts, weaving in the research I have done.

References show that you have done the research. They back up your opinion. When you see the word "references" think to yourself "evidence." No references, no evidence.

INSTRUCTOR POLICIES

Student Participation:

Student participation is required. We learn from sharing out thoughts, ideas, experiences and backgrounds while at the same time listening to input from other students. We all come to the classroom with a wealth of knowledge for sharing, and it is vital to maintain a civil classroom environment. Your contribution to discussion is important and valued.

Late Policy:

A make-up test can be arranged if the student has a <u>legitimate</u> reason for missing the test and has notified the instructor before the exam has been given to the class (or as soon as possible after the exam in case of an emergency). Late submissions will only be allowed for unanticipated and legitimate reasons (e.g., unforeseeable emergency). Traveling, loss of internet access, or simply forgetting about an assignment are not considered to be unanticipated and legitimate reasons.

Spelling, Grammar, and Writing Skills:

For written assignments, all work should be proofread, free of grammatical errors, include proper citations and references in accordance with American Psychological Association (APA) standards. The content of all written assignments is what you will be evaluated on, provided that your spelling and grammar does not have major issues. I reserve the right to remove up to 10% of points on any written assignment for excessively bad grammar and spelling mistakes. Students who proofread their work, use spelling and grammar checking tools, or obtain help from the University Writing Center (described above) should not be affected by this policy.

Academic Honesty and Cheating:

All work for individual assignments and exams must be your own. You may not collaborate in any way on online exams. Any students who deliberately cheats on an exam will receive a zero grade for that exam and be reported to the university's Office of Student Conduct

I reserve the right to make reasonable alterations to the course calendar and syllabus. It is a guide, not a hard and fast rule. Changes will only be made that benefit the class as a whole. Online attendance is essential in a class of this nature. Make sure to check Canvas daily. In order to successfully pass this course a student must engage in the online course room and complete all assignments.

OPTIONAL POLICY STATEMENTS

A Note about Sexual Violence at A&M-Central Texas

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Wellness and Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don't agree with their behaviors and tell survivors we will support them. Your actions matter. Don't be a bystander; be an agent of change. For additional information on campus policy and resources visit the Title IX webpage [https://www.tamuct.edu/compliance/titleix.html].

Behavioral Intervention

Texas A&M University-Central Texas cares about the safety, health, and well-being of its students, faculty, staff, and community. If you are aware of individuals for whom you have a concern, please make a referral to the Behavioral Intervention Team. Referring your concern shows you care. You can complete the <u>referral</u> online [https://cm.maxient.com/reportingform.php?TAMUCentralTexas&layout_id=2].

Anonymous referrals are accepted. Please see the <u>Behavioral Intervention Team</u> website for more information [https://www.tamuct.edu/bit]. If a person's behavior poses an imminent threat to you or another, contact 911 or A&M-Central Texas University Police at 254-501-5805.
