

TEXAS A&M
UNIVERSITY
CENTRAL TEXAS™

BUSI 3311-115, CRN 60129, BUSINESS STATISTICS

Summer 2022

Texas A&M University-Central Texas

COURSE DATES, MODALITY, AND LOCATION

This course will run from June 6, 2022 through July 29, 2022. This is a fully online course which will use the TAMUCT Canvas Learning Management System as a document and resource repository and communication channel. All instructional content will be delivered through Canvas in the form of instructional videos. The Canvas system may be accessed at the following URL: <https://tamuct.instructure.com>.

For this course, you will need reliable and frequent access to a computer with high-speed Internet. If you do not have this, please consider dropping the course and taking it in a face-to-face format. Your instructor cannot provide technical support or remedial computer literacy training if you have technical issues or lack these skills.

INSTRUCTOR AND CONTACT INFORMATION

Instructor: Dr. Brad Almond
Office: Founders 217 (Management & Marketing Department)
Phone: 254-519-5437
Email: Please use Canvas inbox.

Office Hours:

By appointment only. Canvas email is the easiest and most reliable way to reach me with a question outside of normal class times. I can also conduct phone calls or Zoom/WebEx meetings upon request with advance notice. If a face-to-face meeting is needed, the easiest way to do this is to make an appointment with me. We can arrange to meet either in my office or in an open area where there is better ventilation, or can even step outside to have a conversation. I am seldom able to accommodate student conferences without advance notice due to my responsibilities as department chair. For routine communications, please use Canvas email.

Student-instructor interaction:

I am most easily accessible via Canvas email. I will check my Canvas email at least once per day during normal workdays, and typically once on Saturdays. I typically do not check emails on Sundays. Please do not email my TAMUCT email address with course-related questions unless it is an emergency or unless you have not received a response through Canvas within 24 hours.

Students should typically expect a reply within 24 hours unless the email falls on a Sunday, in which case they should not expect a reply until Monday. Note that this 24-hour window is not a guarantee, but it does describe my normal response times.

Emergency Warning System for Texas A&M University-Central Texas

SAFEZONE. SafeZone provides a public safety application that gives you the ability to call for help with the push of a button. It also provides Texas A&M University-Central Texas the ability to communicate emergency information quickly via push notifications, email, and text messages. All students automatically receive email and text messages via their myCT accounts. Downloading SafeZone allows access to push notifications and enables you to connect directly for help through the app.

You can download SafeZone from the app store and use your myCT credentials to log in. If you would like more information, you can visit the SafeZone website [www.safezoneapp.com].

To register SafeZone on your phone, please follow these 3 easy steps:

1. Download the SafeZone App from your phone store using the link below:
 - a. iPhone/iPad: [<https://apps.apple.com/app/safezone/id533054756>]
 - b. Android Phone / Tablet [<https://play.google.com/store/apps/details?id=com.criticalarc.safezoneapp>]
2. Launch the app and enter your myCT email address (e.g. {name}@tamuct.edu)
3. Complete your profile and accept the terms of service

COURSE INFORMATION

Course Overview and description:

Business statistics is the science of collecting, organizing, summarizing, and analyzing data to generate information, stated in numerical or graphical form, for the purpose of making objective business decisions. The course will initially cover descriptive statistics, but will also introduce several basic inferential statistical techniques. Topics include the foundations of statistical methods of sampling, classifying, analyzing, and presenting numerical data; frequency and sampling distributions, averages, dispersion, hypothesis testing, and analyzing up to two populations and population proportions. The course will employ the use of an online statistics learning system for problem assignments, in conjunction with the text and lectures, in completing course coverage of each statistics topic. Prerequisite: Junior Classification.

Course Objective:

The student will understand the foundations of statistics, which includes basic statistical graphs and charts, measures of central tendency and variation, basic probability, probability distributions, and hypothesis testing. Additionally the student will be able to apply the statistical foundations in inferential statistics, which will include comparing two populations, two population proportions, comparing two variables or treatments for a single population, one-way analysis of variance, linear regression, and chi-square tests.

Student Learning Outcomes:

- 1 **Demonstrate methods of reporting data numerically and graphically.**
- 2 **Identify and analyze types and levels of data using appropriate statistical methods.**
 - 2.1 Qualitative (nominal, ordinal)
 - 2.2 Quantitative (continuous, discrete, interval, ratio)
- 3 **Demonstrate proficiency in calculating descriptive statistics.**
 - 3.1 Measures of central tendency
 - 3.2 Measures of variation
- 4 **Demonstrate proficiency in analyzing discrete and continuous probability distributions**
 - 4.1 Concepts of probability
 - 4.2 Binomial distributions
 - 4.3 Normal distributions
 - 4.4 Chebyshev's Theorem
 - 4.5 Empirical Formula
 - 4.6 Central Limit theorem
- 5 **Demonstrate understanding and proficiency in calculating confidence intervals, conducting hypothesis tests, and calculating p -values.**
 - 5.1 Calculate confidence intervals when the population standard deviation is known/unknown and for proportions
 - 5.2 Conduct hypothesis testing when the population standard deviation is known/unknown and for proportions
 - 5.3 Calculate p -values for all hypothesis tests
- 6 **Demonstrate proficiency in calculating inferential statistics.**
 - 6.1 Compare means or proportions of two populations
 - 6.2 Compare means of two treatments within one population
- 7 **Demonstrate basic proficiency with common statistical analytic methods**
 - 7.1 Analysis of variance (one-way)
 - 7.2 Simple and multiple linear regression
 - 7.3 Chi-square tests
 - 7.4 Control charts

Required Reading and Textbook(s):

The following materials are **REQUIRED**.

- An access code for the Hawkes Business Statistics (HLS) software.
 - The access code (user license) for Hawkes may be bundled with a course textbook (optional) or purchased separately. Instructions for how to purchase an access code are included below as well as on the course Canvas page. The current cost for a user license is **\$88.99**. All students must pay the user license regardless of how they access or use the Hawkes system (see below).
- Access to a computer with a FULL version of Microsoft Excel. All TAMUCT lab computers will have Excel, as will most computers everywhere. If your home or office computer does not have a COMPLETE version already installed (many PCs come with basic and

partial versions of Microsoft Office that will NOT be sufficient for this class), you can download and install a free version from Office 365. The instructions for how to do this are stored in the Canvas Community called *IT Support for Students*. The file you need is called “Install Office 365.pdf,” and it is kept in the Modules menu. Please note that acquiring this software is your responsibility.

- Access to a computer with a reliable, fast internet connection (for completing Hawkes Learning System lessons and exams, and for viewing the course Canvas page). Please note that your instructor is NOT available for technical support. See below for more information on technical support.

The following materials are **OPTIONAL**.

- A course textbook. While an e-book is included with the purchase of an access code for Hawkes, a few students desire a hard copy. This is not required, very frankly, few students report benefiting from the textbook. If you think you would benefit from one, you should purchase one. Each textbook purchase option is available at the following URL: <http://hawkespublishing.stores.yahoo.net/dibust.html>.
- A hand held calculator. At a minimum must have square root key in addition to the basic functions of addition, subtraction, multiplication, and division. This item is optional because all of our course calculations may be done using Microsoft Excel.
- The Data Analysis ToolPak add-in in Excel. More information will be given about this in class. If your version of Excel has this, the more ambitious/curious among you may want to try it. If it doesn't, I will provide an alternative for you in class at no extra cost.

COURSE REQUIREMENTS

Homework Assignments:

This portion of the class comprises 38 lessons, broken up into 4 modules. All assignments will be administered through **the Hawkes Learning System (HLS)**. Each lesson allows for a practice mode and a certify mode. A student in practice mode may practice a lesson as long as he or she likes without penalty. In certify mode students are only permitted so many errors (“strikes”) before they are forced to start over. Students are given an unlimited number of attempts to complete each lesson without penalty. Students must successfully certify each lesson to receive credit for it—merely practicing a lesson is not enough. Once a student successfully certifies a lesson (where “successfully” means correctly answering about 80% of the questions within a lesson—this percentage varies slightly from lesson to lesson), he or she will receive full credit (100%) for the lesson. Although the mode of instruction is face-to-face in this class, there will be no traditional, paper-and-pencil homework assignments in this class. **The lowest 3 lesson scores will be dropped, but this may not appear correctly in your Hawkes gradebook until the end of the semester.** To allow maximum flexibility for the student, all lessons are due on the last day of the semester. However, students are strongly encouraged to complete HLS lessons as the corresponding material is introduced and covered in class. Students will not receive credit for any lessons left incomplete at the end of the semester. Thus, the only grade a student can receive for a lesson is 100% or 0%.

Exams:

There will be four (4) non-cumulative module exams administered during the semester.

All exams must be completed alone by the student without the use of any resource other than those explicitly permitted or provided by your instructor. With the exception of Exam 1 (which may be taken twice), exams may be taken only once. No makeup exams will be given except in cases of emergencies for which written and official documentation is provided. All exams will be completed online within the Hawkes Learning System environment. The permitted time on each exam varies depending on length and rigor, but usually ranges between 2 to 3 hours per exam. Exact exam durations will be listed on Hawkes. The point values for each exam will vary based on the number and type of problems we are covering in Hawkes, but the weighting of each module exam will be equal, and according to the scale below. Your instructor reserves the right to modify the exam structure and schedule at will, with advance notice, in order to best fulfill course objectives and assess student competencies. See the schedule below for exam availability and due dates. The first date indicates when the exam will be available to you (beginning at 12:00 a.m.). The second date indicates when the exam will be due (no later than 11:59 p.m.).

Grading Criteria Rubric and Conversion

Final grades will be calculated as follows:

Evaluation Item	Possible Points	Percentage
Homework (35 @ 14.1 points ea.)	497	49.7
Module Exams (4 @ 125.75 points ea.)	503	50.3
Total	1000	100

Final course grades will be determined according to the following scale.

- A = 89.5% or higher
- B = 79.5% and up to but not including 89.5%
- C = 69.5% and up to but not including 79.5%
- D = 59.5% and up to but not including 69.5%
- F = below 59.5%

Please note that standard rounding (i.e., .50 and up) will be used to compute final grades. There will be no exceptions to this standard. A final grade of 89.49 will receive a B grade. I have to draw the line somewhere.

Posting of Grades

All grades will be displayed in the Hawkes Learning System gradebook only. They will NOT be in Canvas. Grades will be posted immediately after an assignment or exam is submitted.

COURSE OUTLINE AND CALENDAR

Please note that all homework is due on 7/29 (the last day of the semester), but EXAMS HAVE FIXED DUE DATES AS SHOWN BELOW. Please note that the "Week" column shows the date of the start of the week during which you should view the lectures and begin the lessons.

Week	Class Topic	SLOs	Assigned HLS Lesson(s) / Exam	Due Date
Jun 6	populations and samples		1.1 - 1.3	
Jun 6	variables, levels of measurement	2.1, 2.2	2.5 - 2.6	
Jun 6	frequency distributions	1	3.3; 3.4	
Jun 6	graphical displays of data	1	3.5 - 3.9; 3.10	
Jun 13	measures of location	3.1	4.1	
Jun 13	measures of dispersion	3.2	4.2a	
All assigned lessons from Chapters 1, 2, and 3, plus lessons 4.1 and 4.2a.			EXAM 1 (opens Jun 16)	Jun 19
Jun 13	percentiles	3.3	4.3	
Jun 13	applying the standard deviation	3.3, 4.5, 4.6	4.5 - 4.7 (NOT 4.8--see below)	
Jun 20	discrete random variables	4.1	6.1 - 6.3	
Jun 20	the binomial distribution	4.2	6.5	
Jun 20	the normal distribution	4.3	7.2; 7.3a	
Jun 20	more on the normal distribution	4.3	7.3b; 7.3c	
Lessons 4.3 and 4.5 - 4.7 from Chapter 4, plus all assigned lessons from Chapters 6 and 7			EXAM 2 (opens Jun 23)	Jun 26
Jun 27	central limit theorem	4.7	8.3	
Jun 27	t distribution	4.4	9.4a	
Jun 27	confidence intervals (z distribution)	5.1	9.1 - 9.3	
Jun 27	confidence intervals (t distribution)	5.1	9.4b; 9.5	
Jul 4	intro to hypothesis testing	5.2	10.1 - 10.3	
Jul 4	hypothesis testing, 1 sample	5.2	10.4a; 10.4b	
Jul 4	hypothesis testing, 1 sample	5.3	10.4c	
Jul 4	hypothesis testing for 2 samples	6.1	11.1; 11.2	
All assigned lessons from Chapters 8 - 11			EXAM 3 (opens Jul 7)	Jul 10
Jul 11	analysis of variance	7.1	12.2 - 12.4	
Jul 11	correlation, scatterplots; simple regression	3.2, 7.2	4.8 ; 13.1 - 13.5	
Jul 11	simple regression	7.2	13.8	
Jul 11	multiple regression	7.2	14.5a	
Jul 18	multiple regression	7.2	14.7	
Jul 18	chi square goodness of fit test	7.3	15.2	
Jul 18	chi square test for association	7.3	15.3	
Jul 18	control charts	7.4	17.3a; 17.3b	
Jul 25	control charts	7.4	17.4	
Jul 25	catch-up and review (if needed)			
Lesson 4.8, plus all assigned lessons from Chapters 12-15 and 17			EXAM 4 (opens Jul 20)	Jul 29

Important University Dates:

See <https://www.tamuct.edu/registrar/academic-calendar.html> (select 2021-2022 Academic Calendar) for the full academic calendar.

TECHNOLOGY REQUIREMENTS AND SUPPORT

For purposes of this course, “online” means that all instructional interactions and content delivery will occur via a pre-recorded video format. In addition, we will use computing technology for all of the work (assignments and exams) in this course.

Canvas:

This course will use the A&M-Central Texas Instructure Canvas learning management system, but only as a document repository and communication portal. **We strongly recommend the latest versions of Chrome or Firefox browsers. Canvas no longer supports any version of Internet Explorer.**

Logon to A&M-Central Texas Canvas [<https://tamuct.instructure.com/>] or access Canvas through the TAMUCT Online link in myCT [<https://tamuct.onecampus.com/>]. You will log in through our Microsoft portal using the credentials below:

Username: Your MyCT username (xx123 or everything before the "@" in your MyCT e-mail address)

Password: Your MyCT password

For Canvas technical support, use the Canvas Help link located at the bottom of the left-hand Canvas menu. You can select “Chat with Canvas Support,” submit a support request through “Report a Problem,” or call the Canvas support line: 1-844-757-0953.

Hawkes Learning Systems:

Please note that the customer support number for Hawkes is 1.800.426.9538. I try to include the most current instructions in my syllabi but Hawkes makes changes on their own schedule. If you have any problems with the instructions below please call the number above for assistance. The Hawkes support personnel are very helpful, and it is easy to reach a live person.

This course will utilize the Hawkes Learning Systems (HLS) software for all coursework (homework and exams).

HLS may be accessed and used via the Web. All students will need to set up a Hawkes Learning Systems account. To set up an account, go to <http://www.hawkeslearning.com/> and click on the “Student Sign-In” link in the upper-right corner of the page. At the bottom of the window that opens you will see a “New User?” prompt and a button labeled “Create an Account.” Click on this button and follow the prompts to set up your account. If you purchased a textbook, you may use the access code provided with your book to set up your account, and will not need to purchase a separate access code. Otherwise you’ll need to purchase an access code. You may

either do this at any time (before, during, or after you create a new account). As always, if you have any questions about Hawkes, please call them at 1-800-426-9538. They are very helpful and patient, and will be happy to walk you through anything you need.

To purchase the access code to use the software:

- Go back to the main Hawkes Learning Page (<http://www.hawkeslearning.com/>)
- Find the Students menu, scroll down to the Getting Started window and click on “Purchase Access” under the sub-heading “3. Choose an Option.”
- You may to create an account before proceeding. Follow the prompts provided.
- Begin typing *Texas A&M University – Central Texas*. You will see it appear below in the list. Click on this, then click "Continue"
- Under **Please Select Your Product**, click **Discovering Business Statistics**
- Your license will cost **\$88.99**. Follow the prompts to complete the purchase.
- If you are asked which textbook this software is meant to accompany, choose the *Discovering Business Statistics* textbook with a picture of set of colorful thumbtacks on it.
- Your course ID is **TAMUCTDBS**
- Be sure to select my name (Dr. Brad Almond) and this course section (**BUSI 3311 online**) so that you will see the same assignments and exams that everyone else will.
- Again, if you get stuck, please call Hawkes at (800) 426-9538. Do not contact your instructor for technical support.

AGAIN, THE CUSTOMER SUPPORT AT HAWKES IS VERY GOOD, SO DO NOT HESITATE TO CALL THEM FOR ASSISTANCE. They are great, so don't hesitate to call for help with installing or trouble-shooting the software. I and my former students have had great success with them in the past. A real person almost always answers the phone. Their number is 1-800-426-9538.

For technical support related to Hawkes Learning Systems, you have several options:

- The support page: <http://support.hawkeslearning.com/supportcenter/>
 - Many resources including help videos and FAQs
- Chat. Available 24/7. Go to www.hawkeslearning.com and scroll down to the bottom of the page—a chat prompt will automatically appear.
- Phone: 843-571-2825 (during normal business hours) or 800-426-9538

Additional Technical Support:

For TAMUCT log-in problems, students should contact Help Desk Central (available 24 hours a day, 7 days a week):

Email: helpdesk@tamu.edu
Phone: (254) 519-5466
[Web Chat](http://hdc.tamu.edu): [<http://hdc.tamu.edu>]

Please let the support technician know you are an A&M-Central Texas student.

Please note that personal technology issues are not a valid excuse for missing or committing an error on a course requirement . This includes PC failure/infection or Internet service interruption. Be sure your personal computer is configured correctly, and address issues well in advance of deadlines and/or complete your work on a University computer.

UNIVERSITY RESOURCES, PROCEDURES, AND GUIDELINES

Drop Policy

If you discover that you need to drop this class, you must complete the Drop Request Dynamic Form through Warrior Web. The link to this form is below.

[<https://federation.ngwebsolutions.com/sp/startSSO.ping?PartnerIdpld=https://eis-prod.ec.tamuct.edu:443/samlSSO&SpSessionAuthnAdapterId=tamuctDF&TargetResource=https%3a%2f%2fdynamicforms.ngwebsolutions.com%2fSubmit%2fStart%2f53b8369e-0502-4f36-be43-f02a4202f612>].

Faculty cannot drop students; this is always the responsibility of the student. The Registrar's Office will provide a deadline on the Academic Calendar for which the form must be completed. Once you submit the completed form to the Registrar's Office, you must go into Warrior Web and confirm that you are no longer enrolled. If you still show as enrolled, FOLLOW-UP with the Registrar's Office immediately. You are to attend class until the procedure is complete to avoid penalty for absence. Should you miss the drop deadline or fail to follow the procedure, you will receive an F in the course, which may affect your financial aid and/or VA educational benefits.

Academic Integrity

Texas A&M University-Central Texas values the integrity of the academic enterprise and strives for the highest standards of academic conduct. A&M-Central Texas expects its students, faculty, and staff to support the adherence to high standards of personal and scholarly conduct to preserve the honor and integrity of the creative community. Any deviation by students from this expectation may result in a failing grade for the assignment and potentially a failing grade for the course. All academic misconduct concerns will be referred to the Office of Student Conduct. When in doubt on collaboration, citation, or any issue, please contact your instructor before taking a course of action.

For more information regarding the Student Conduct process, please visit the following website: [<https://www.tamuct.edu/student-affairs/student-conduct.html>].

If you know of potential honor violations by other students, you may submit a report at the following website: [https://cm.maxient.com/reportingform.php?TAMUCentralTexas&layout_id=0].

Please note that the utilization of any unsanctioned class resource constitutes an academic integrity violation. This includes class materials from past semesters accessed via websites and former students. Allowing another individual to complete homework or exams on your behalf is also strictly forbidden. Academic integrity violation penalties may be assessed retroactively if they are discovered after a course is complete, and may result in assignment/course failure, university suspension/expulsion, or degree nullification. Any student caught cheating on an exam in this course will automatically fail the course and have their case reported to student affairs.

Academic Accommodations

At Texas A&M University-Central Texas, we value an inclusive learning environment where every student has an equal chance to succeed and has the right to a barrier-free education. The Warrior Center for Student Success, Equity and Inclusion is responsible for ensuring that students with a disability receive equal access to the university's programs, services and activities. If you believe you have a disability requiring reasonable accommodations, please contact the Office of Access and Inclusion, WH-212; or call (254) 501-5836. Any information you provide is private and confidential and will be treated as such.

For more information, please visit our Access & Inclusion Canvas page (log-in required) [<https://tamuct.instructure.com/courses/717>]

Important information for Pregnant and/or Parenting Students

Texas A&M University-Central Texas supports students who are pregnant and/or parenting. In accordance with requirements of Title IX and related guidance from US Department of Education's Office of Civil Rights, the Dean of Student Affairs' Office can assist students who are pregnant and/or parenting in seeking accommodations related to pregnancy and/or parenting. Students should seek out assistance as early in the pregnancy as possible. For more information, please visit Student Affairs [<https://www.tamuct.edu/student-affairs/pregnant-and-parenting-students.html>]. Students may also contact the institution's Title IX Coordinator. If you would like to read more about these requirements and guidelines online, please visit the website [<http://www2.ed.gov/about/offices/list/ocr/docs/pregnancy.pdf>].

Title IX of the Education Amendments Act of 1972 prohibits discrimination on the basis of sex and gender—including pregnancy, parenting, and all related conditions. A&M-Central Texas is able to provide flexible and individualized reasonable accommodation to pregnant and parenting students. All pregnant and parenting students should contact the Associate Dean in the Division of Student Affairs at (254) 501-5909 to seek out assistance. Students may also contact the University's Title IX Coordinator.

Tutoring

Tutoring is available to all A&M-Central Texas students, both virtually and in-person. Student success coaching is available online upon request.

If you have a question, are interested in becoming a tutor, or in need of success coaching contact the Warrior Center for Student Success, Equity and Inclusion at (254) 501-5836, visit the Warrior Center at 212 Warrior Hall, or by emailing WarriorCenter@tamuct.edu.

To schedule tutoring sessions and view tutor availability, please visit Tutor Matching Services [<https://tutormatchingservice.com/TAMUCT>] or visit the Tutoring Center in 111 Warrior Hall. Chat live with a remote tutor 24/7 for almost any subject from on your computer! Tutor.com is an online tutoring platform that enables A&M-Central Texas students to log in and receive online tutoring support at no additional cost. This tool provides tutoring in over 40 subject areas except writing support. Access Tutor.com through Canvas.

University Writing Center

Located in Warrior Hall 416, the University Writing Center (UWC) at Texas A&M University–Central Texas (A&M–Central Texas) is a free service open to all A&M–Central Texas students. For the Summer 2022 semester, the hours of operation are from 10:00 a.m.-4:00 p.m. Monday thru Thursday in Warrior Hall 416 (with online tutoring available every hour as well) with satellite hours available online only Monday thru Thursday from 6:00-9:00 p.m. and most Saturdays from 12:00-3:00 p.m.

Tutors are prepared to help writers of all levels and abilities at any stage of the writing process. While tutors will not write, edit, or grade papers, they will assist students in developing more effective composing practices. By providing a practice audience for students' ideas and writing, our tutors highlight the ways in which they read and interpret students' texts, offering guidance and support throughout the various stages of the writing process. In addition, students may work independently in the UWC by checking out a laptop that runs the Microsoft Office suite and connects to WIFI, or by consulting our resources on writing, including all of the relevant style guides. Whether you need help brainstorming ideas, organizing an essay, proofreading, understanding proper citation practices, or just want a quiet place to work, the UWC is here to help!

Students may arrange a one-to-one session with a trained and experienced writing tutor by making an appointment via WOnline at [<https://tamuct.mywconline.com/>]. In addition, you can email Dr. Bruce Bowles Jr. at bruce.bowles@tamuct.edu if you have any questions about the UWC, need any assistance with scheduling, or would like to schedule a recurring appointment with your favorite tutor.

University Library

The University Library provides many services in support of research across campus and at a

distance. We offer over 200 electronic databases containing approximately 400,000 eBooks and 82,000 journals, in addition to the 96,000 items in our print collection, which can be mailed to students who live more than 50 miles from campus. Research guides for each subject taught at A&M-Central Texas are available through our website to help students navigate these resources. On campus, the library offers technology including cameras, laptops, microphones, webcams, and digital sound recorders.

Research assistance from a librarian is also available 24 hours a day through our online chat service, and at the reference desk when the library is open. Research sessions can be scheduled for more comprehensive assistance, and may take place virtually through WebEx, Microsoft Teams or in-person at the library. Schedule an appointment here [<https://tamuct.libcal.com/appointments/?g=6956>]. Assistance may cover many topics, including how to find articles in peer-reviewed journals, how to cite resources, and how to piece together research for written assignments.

Our 27,000-square-foot facility on the A&M-Central Texas main campus includes student lounges, private study rooms, group work spaces, computer labs, family areas suitable for all ages, and many other features. Services such as interlibrary loan, TexShare, binding, and laminating are available. The library frequently offers workshops, tours, readings, and other events. For more information, please visit our Library website [<http://tamuct.libguides.com/index>].

A Note about Sexual Violence at A&M-Central Texas

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Wellness and Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don't agree with their behaviors and tell survivors we will support them. Your actions matter. Don't be a bystander; be an agent of change. For additional information on campus policy and resources visit the Title IX webpage [<https://www.tamuct.edu/compliance/titleix.html>].

Behavioral Intervention

Texas A&M University-Central Texas cares about the safety, health, and well-being of its students, faculty, staff, and community. If you are aware of individuals for whom you have a concern, please make a referral to the Behavioral Intervention Team. Referring your concern shows you care. You can complete the referral online

[https://cm.maxient.com/reportingform.php?TAMUCentralTexas&layout_id=2].

Anonymous referrals are accepted. Please see the Behavioral Intervention Team website for more information [<https://www.tamuct.edu/bit>]. If a person's behavior poses an imminent threat to you or another, contact 911 or A&M-Central Texas University Police at 254-501-5805.

INSTRUCTOR POLICIES.

Late work will only be accepted in cases of documented emergencies. Documentation on official letterhead must be provided by a third party (hospital, police, employer, military). No exceptions.

There are no extra credit opportunities in this course.

Copyright Notice.

Students should assume that all course material is copyrighted by the respective author(s). Reproduction or unauthorized distribution/sharing/posting of course material is prohibited without consent by the author and/or course instructor. Violation of copyright is against the law and Texas A&M University-Central Texas' Code of Academic Honesty. All alleged violations will be reported to the Office of Student Conduct and may be prosecuted.
