Required Reading and Textbook(s)

COURSE REQUIREMENTS

There will be a variety of graded and non-graded activities throughout the semester. Each activity will assess your command of the material as well as your understanding of the course goals and concepts. Activities are assigned and completed during the class period unless otherwise noted and cannot be turned in late or if classes are missed.

Case Studies: Several written case studies will be completed during the course.

Research Project: The purpose of the project is to reinforce skills that are essential for professional success. Specifically, the project will require students to research their selected topics, summarize the information they collect, and communicate their findings in an effective manner. There are two types of projects that would be acceptable for this assignment:

1. Discussion of an Emerging Issue in the Profession – Students will be required to identify an emerging issue pertaining to the accounting profession. For example, what is the issue, and why is it important? What events led to the change in standards/laws/regulations? What groups are responsible for developing/implementing the proposed change? What are the expected benefits/costs of the proposed change, and who is expected to be impacted?

I am willing to consider a broad range of topics. However, all topic proposals must be approved in advance. Each student will be required to provide a one-page proposal describing the topic they have selected. Topics will be approved on a first-come, first-served basis - duplicate topics will not be permitted. At the end of the semester, each group will provide a 3,000-word paper and a 15-minute in-class presentation. The written report should include in-text citations where needed and a complete reference list.
Grading Criteria Rubric and Conversion

Students earn their course grades by completing scheduled assignments; no extra credit assignments are given. To satisfactorily pass this course, students must complete each of the graded items listed below. Failure to submit appropriate documents for scoring in each category will result in a failing grade.

Posting of Grades

Grades will be posted on the Canvas Grade book (turn-around time for grades to be posted is 7 days). I rely on the definition of grading marks provided by Texas A & M University-Central Texas Catalog to provide a classification of grades. “The grade of “A” is given for outstanding achievement to a relatively small number of excellent scholars. The grade of “B” represents good achievement. The grade of “C” is given for average achievement and the grade of “D” for poor but passing work. The grade of “F” denotes failure and is given for unsatisfactory work.”
COURSE OUTLINE AND CALENDAR

Weeks 1 and 2

Readings

A Codification Exercise on the Reporting of Discontinued Operations

Read the following case study:

Case Requirements:

During the first week of 20X8, Dynamic’s corporate controller, Anne Smith, prepares to initiate the closing activities for 20X7. The closing process at Dynamic is very extensive, as it includes routine activities for consolidating the activities of several subsidiary companies for the creation of the consolidated financial statements. Furthermore, Dynamic’s reporting personnel must also address the unique complications of each acquisition and divesture.

As Ms. Smith awaits the final financial statement numbers prepared by the reporting personnel at each subsidiary, she is anxious to determine the appropriate financial statement presentation of the three subsidiaries discussed above. Most specifically, she is curious as to whether the financial performance of each of the three subsidiaries qualifies for reporting under discontinued operations. Ms. Smith has asked you to review the intricacies of ZD Consulting, Hope Industries, and AM Mining Operations to determine which type of reporting (i.e., continuing operations versus discontinued operations) is appropriate for each subsidiary on Dynamic’s consolidated income statement.

To complete the case requirements, you should perform the following tasks:

- Consider the facts presented for each company within the case.
- Consult the FASB Accounting Standards Codification for guidance on the specific income statement presentation issue to which the controller has requested answers.
- Prepare a memo that clearly addresses the issue, discusses each company’s facts, and provides a clear conclusion regarding the appropriate presentation of each company’s financial information on Dynamic’s consolidated income statement.

In constructing this memo, you should expect to incorporate Accounting Standards Codification references as required to support your conclusions.

Include any basic calculations used in your analysis from the data provided as part of your submission.
Assignment Paper Requirements:

- Write a paper (memo) of a minimum of six double-spaced pages, not counting the title and reference pages (which you must include).
- Copy and paste each one of the questions into your paper in bold type to ensure you have answered each of the assignment requirements.
- Use terms, evidence, and concepts from class readings, including professional business language.
- Cite at least three credible, academic, or professional sources for this assignment. The TAMUCT Library is a great place to find resources, as well as the FASB Codification.
- Format your paper according to APA Requirements.

Weeks 3 and 4

Toshiba’s Creative Accounting for Construction Contracts

Read the following case study:

Case Requirements:

The FASB and the IASB have issued a joint standard on revenue recognition. Although the standard is not applicable to years discussed in the case, the substantive guidance for accounting on long-term contracts was not changed. Therefore, address all the requirements below, including FASB codification references, in accordance with the new U.S. standard (Toshiba follows U.S. GAAP). Read the requirements carefully and answer each part of the following requirements.

Requirement 1:

Are Toshiba’s accounting policies for long-term construction contracts—as described in the accounting policies section of the case—consistent with the U.S. GAAP? Cite authoritative pronouncements from the Accounting Standards Codification (ASC) in support of your answer. Your response should focus on Toshiba’s choice of accounting policies rather than its implementation of those policies.

Requirement 2:

For Project G, the $114 million and $107 million discrepancies were treated as “uncorrected misstatements” and hence were not disclosed. Under U.S. GAAP, is non-disclosure of unresolved differences in opinion between a company’s management and its auditors permissible? On what criterion should the decision to disclose (or not disclose) the unresolved differences be based? Explain.

Assignment Paper Requirements:

- Write a paper (memo) of a minimum of six double-spaced pages, not counting the title and reference pages (which you must include).
- Copy and paste each one of the questions into your paper in bold type to ensure you
have answered each of the assignment requirements.

- Use terms, evidence, and concepts from class readings, including professional business language.
- Cite at least three credible, academic, or professional sources for this assignment. The TAMUCT Library is a great place to find resources, as well as the FASB Codification.
- Format your paper according to APA Requirements.

  - How would you describe the company’s culture? How might this culture create pressures and rationalizations for fraud?
  - Review Tesla’s Code of Business Conduct and Ethics (see “Tesla’s Code of Business Conduct and Ethics’’). How might any potential weaknesses in this code contribute to fraud risk at this company?
  - Describe some possible concerns regarding Tesla’s board of directors. How might these concerns create opportunities and rationalizations for fraud?

  o Review the business risks disclosed by the company (see Tesla’s 2015 Annual Report, Item 1A Risk Factors, Item 8 Financial Statements, Supplementary Data, Note 2, and Note 13). How might some of these business risks from the external environment also create fraud risks within Tesla?

OPTIONAL POLICY STATEMENTS

A Note about Sexual Violence at A&M-Central Texas

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Wellness and Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don’t agree with their behaviors and tell survivors we will support them. Your actions matter. Don’t be a bystander; be an agent of change. For additional information on campus policy and resources visit the Title IX webpage [https://www.tamuct.edu/compliance/titleix.html].

Behavioral Intervention

Texas A&M University-Central Texas cares about the safety, health, and well-being of its students, faculty, staff, and community. If you are aware of individuals for whom you have a concern, please make a referral to the Behavioral Intervention Team. Referring your concern shows you care. You can complete the referral online [https://cm.maxient.com/reportingform.php?TAMUCentralTexas&layout_id=2]. Anonymous referrals are accepted. Please see the Behavioral Intervention Team website for more information [https://www.tamuct.edu/bit]. If a person’s behavior poses an imminent threat to you or another, contact 911 or A&M-Central Texas University Police at 254-501-5805.
