COURSE ASSIGNMENTS

Learning Systems Part 1 - Collaborative Inquiry Evaluation (SLO# 1-6) (20 points)

This assessment is designed to determine the current reality of learning system components and RTI referral systems. Utilizing knowledge obtained from The Data Coach's Guide (Standards 1-5, Love, et al, 2008), as well as supplemental readings and discussions related to Response to Intervention (RTI), students will evaluate the process of collaborative inquiry in your current school setting utilizing the author's high-performing data table (see p. 19 of Love's text). Consider key questions about your current learning systems: *Where would I place my school in these seven areas, and why?* How are student learning problems identified? How is data used to improve learning? Does your current campus have systems or routines in place to help maintain ongoing data analysis for your staff? Submit a written paper for Part 1 that will include a description of these areas (no title page, 2-3 pages, double-spaced, 12 pt. Arial font).

Learning Systems Part 2 - Rti Evaluation (SLO# 1-6) (20 points)

Evaluate the RTI System on your campus, and describe how a student is referred, supported, and tracked in your school. What are the key processes and protocols for referring a student? Are your systems clear and relevant to your school setting? How are students monitored and tracked once they are placed in intervention programming? Submit a artifact document (power point or webpage or trifold) for Part 2 to include a description of the RTI model and its implementation on your current campus. Be prepared to present your artifact/information in an in-person class session.

Best Practices Part 1 - Interviews and Summary (SLO# 1) (20 points)

The purpose of this learning assignment is to (1) synthesize what you have learned about best practices (Zemelman, 2012) and (2) apply that learning to your current professional setting. Candidates will need to

interview two educators at your current school about best practices. Develop interview questions to get ideas about Zemelman's big three clusters of principles: 1) student-centered schooling, 2) cognitive learning experiences, and 3) interactive classrooms (see cluster schematic, Zemelman, 2012, p.10). Stick to the big 3 clusters rather than adding the 11 principle descriptors (i.e. collaborative, constructivist, etc.) as you will want for them to include these as they see the need. A sample question might be, "Describe from your perspective the concept of student-centered schooling and its importance." *Note: interviews should only last 10-15 minutes. Summarize in a written paper your interviews and highlight key takeaways in your analysis (no title page, 2-3 pages, double-spaced, 12 pt. Arial font).

Best Practices Part 2 - Analysis and Recommendations (SLO# 1)

(20 points)

Candidates will use the data from the interviews as well as the knowledge that you have developed about best practices from Zemelman and other sources to make recommendations for learning practices in your current school. *Focus any recommendations on your specific content area.* How would you improve instructional practices in your grade level/department? How would you create better learning experiences for your students? As a future principal, what recommendations would you make to your current principal regarding best practices for learning? Submit your analysis and recommendations as an artifact document (powerpoint or webpage or trifold) designed to be share with stakeholders. Be prepared to present your artifact/information in an in-person class session.

Professional e-Portfolio Collection Update – Teaching & Learning (SLO #1-6)

(10 points)

Expand your professional portfolio collection that you started in EDLD 5300 Foundations of Educational Leadership by developing the section for the concept **Teaching & Learning** (see your 5300 syllabus if you need a reminder about the portfolio). Write and include in your e-portfolio a one-page reflective anchoring essay about **Teaching & Learning** (related to principal standard #B/Leading Learning). APA style should be used as appropriate.

Adjusted/Modified Assignment TBD (SLO #1-6)

(points TBD)

Attendance In-Person Program Saturdays

(10 pts x 5 Saturdays = 50 points)

Candidate attendance/participation in the in-person class sessions is a critical component of the hybrid/blended delivery model of the Educational Leadership Program. In-person class sessions are intentionally designed to enhance, enrich, and extend course content. Attendance/participation in the program Saturday sessions maximizes student potential for successful degree completion and Principal certification. Each in-person Saturday class session equals 5 pts (25 total for semester).

A NOTE about POLICY STATEMENT Concerning Sexual Violence at TAMUCT:

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Wellness and Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don't agree with their behaviors and tell survivors we will support them. Your actions matter. Don't be a bystander; be an agent of

change. For additional information on campus policy and resources visit the [Title IX webpage](https://www.tamuct.edu/compliance/titleix.html) [<https://www.tamuct.edu/compliance/titleix.html>].
