Course Information

This course examines major theoretical perspectives of crime and deviance. Students and the instructor will analyze theories for their logical and empirical adequacy, considering what is known about the distribution of crime and deviant behavior. *Prerequisite(s): undergraduate or graduate coursework in criminology or permission of instructor.

Course Objectives:

By the end of this course, students should be able to demonstrate an advanced understanding of crime and deviance theories and critically evaluate them. To successfully demonstrate an advanced level of understanding, students must be able to:

- Demonstrate knowledge of the core literature and debates that make up the discipline of criminology
- Critically evaluate the literature on a specific topic and identify suitable research questions
- Question conventional thought about crime and punishment, and be able to put discussions on crime and punishment in their wider social, historical, political, and economic contexts
- Demonstrate an ability to evaluate theories of crime and deviance critically
- Achieve a good standard of academic writing

Books:

- Cullen, F.T., Agnew, R., and Wilcox, P. (2018). *Criminological theory: Past to present: Essential readings, 6th edition*. Oxford University Press. ISBN 9780190639341

Supplementary Materials:

- Students may receive reading and viewing materials throughout the semester to enhance, expand on, and aid in assignments.

Instructor expectations

- This is a face-to-face course, so most communication between the instructor and students will be online. Students are welcomed and encouraged to make an appointment for an online video appointment.
- I will be checking and replying to student emails daily - students should expect a response within 24 hours. Emails sent on a weekend will be responded to the following Monday unless it is a holiday. Any deviations from this will be announced in Canvas. During daytime working hours, emails will be responded to more quickly, and other methods of communication can also be utilized if pre-arranged (e.g., Canvas chat or Webex video chat).
- Most assignments will be graded within one week of submission. Depending on length, writing assignments will be graded within two weeks of submission. Deviations from this will be announced in Canvas. All grades will be posted in Canvas. Feedback on writing assignments will be provided in Canvas*. Students are encouraged to track their progress in the course through the Canvas gradebook.
 - *You cannot see feedback on the Canvas mobile app; you must use a computer to be able to see feedback on written assignments.
- *Grading of written assignments: I will provide detailed feedback on the first few paragraphs/first page of any written assignment; I will not mark all writing issues. I will provide general feedback for the entire assignment.*

Course Requirements

Weekly Article Summaries

- Starting with Part II, each student will be required to find, read, and summarize one article related to the assigned readings for each date we meet in class (see course calendar).
- In addition to turning in a summary of the article, the student must be able to present the article to the class and indicate how it relates to the assigned theory for that week. The articles must be peer-reviewed.
- Each summary must:
 - Identify the theory tested

- Identify the research question
- Briefly summarize important results
- Explain whether the article supports or rejects the theory in question
- Students should look for articles that are
- **Tests of the theory:** You will need to locate peer-reviewed articles that present the results of studies done to examine the theory.
 - Directions: The Embedded Librarian (EL) for this course can help you locate peer-reviewed articles. The EL for the course can be reached in the discussion tab. You can also chat with available librarians through the library website.
- **Program evaluations:** These are articles or reports that focus on a particular program and evaluate its effectiveness. These are articles or reports that focus on a particular program and evaluate how well it works. Programs offer treatments to prevent offending or prevent recidivism (reoffending). Program practices are the treatment that the clients receive. For example, mentors can provide positive role models; skills training can provide another means of earning money; after-school programs can prevent delinquent associations.
 - Directions: Using the National Institute of Justice, Crime Solutions: Crime & Crime Prevention website, find programs that target youth, repeat offenders, and special populations (i.e., soldiers, parents, spouses, victims, mentally ill, and others), and explain how the program's practices are based on the main tenets of the theory. Students can review the Program Summary to help them determine the type of theory used. Some programs will use multiple theories to guide their practices; if that is the case, choose 1 of those theories, but make sure it is criminological (i.e., theories covered in your book).
- Grading:
 - Summary – 40 points
 - Presentation – 10 points

Exams 0-100 points for a total of 200 points

The student will complete two exams, each valued at 100 points. Exams will be in essay format. All readings assigned and class discussions will be subject to exam questions.

Additional Assignment Information

Assignment submission

- All assignments must be submitted through Canvas.
- All annotated bibliographies and reaction essays must be in Microsoft Word format - make sure when you save a final draft of any assignment that it is either a .doc or .docx document. If you do not know how to do this, I suggest visiting the computer lab.
- Discussion/journal responses should be typed in the discussion board text box. Do not attach a document to discussion boards. Best practice would be to write

everything in a Word document first, then copy and paste into the discussion box; save this work.

Extra credit?

There is no extra credit built into the course. *Do not expect extra credit, and do not ask for it.*

Late assignments?

Late assignments will be accepted up to two weeks past the recommended due date with no penalty. Assignments submitted after the recommended due date will not receive as much feedback as those submitted on time. Feedback is important to improve upon subsequent coursework. Assignments submitted after two weeks will automatically be deducted ½ the points before they are graded. No assignments will be accepted past the last course date of May 12, 2023.

OTHER POLICY STATEMENTS

A Note about Sexual Violence at A&M-Central Texas

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Wellness and Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don't agree with their behaviors and tell

survivors we will support them. Your actions matter. Don't be a bystander; be an agent of change. For additional information on campus policy and resources visit the [Title IX webpage](https://www.tamuct.edu/compliance/titleix.html) [https://www.tamuct.edu/compliance/titleix.html].

You can complete the [referral](https://cm.maxient.com/reportingform.php?TAMUCentralTexas&layout_id=2) online
