Important University Dates/Academic Calendar:
<https://www.tamuct.edu/registrar/academic-calendar.html>

1. Course Profile/Agreement: (10 Points):

This form, which is found in the Assignments course link, outlines information about yourself and requires you to agree that you have read and understood the requirements for the course and the responsibilities of an online graduate student. Be sure to read the Syllabus fully and tour the course web site prior to signing and submitting this form. Should you have questions post it to the "Course Q&A" Discussion Board and Dr. Fry will respond. This Profile/Course Agreement is due at the end of the first week of class. *See the Syllabus link in the course menu for the due date. No late submissions will be accepted.*

2. Introductory Discussion Forum (40 Points):

Your first post to this Forum should include: 1) What degree you are pursuing, 2) what point are in your studies, 3) your current and past work experience, 4) what you hope to learn in this class, 5) what you are looking for in a team, 5) what you would bring to a team, and 6) a personal tidbit about you (e.g. hobbies or family). Posting a picture is optional. 20 points of your grade is based on this initial posting of at least 2 full paragraphs containing all the information listed above.

The additional 20 points is based on responses to at least 2 of your colleagues (10 points each) addressing thoughtfully their portion of their post discussing what they expect to get out of the class and expectations of a team.

Although there is only one discussion forum for this assignment, there are separate deadlines, one for posting your initial profile and one for the responses to your colleagues. See the Syllabus course link in Canvas for the due dates.

Course Q&A, and Case Analysis Outline Discussion Forums: As an additional interaction tool, I have set up discussion boards within the course web site for (1) a Q&A forum for questions concerning this course in general and (2) a forum for questions concerning the Case Analysis Outline, given in Appendix A. Please use these forums to ask questions which other students would also benefit from the Professor's response. For questions of a personal or individual nature, use Canvas messaging.

3. Chapter Exams (3 @ 40 points each = 120 Points): CLO 1

There will be three examinations that cover *The Leadership Experience* text material. The exams are non-cumulative, and will include only materials covered in the assigned chapters for that exam. Exams will be open-book and open-notes. However, given the time limitations you will only have time to consult notes for a few questions so you must study and be familiar with the material. You only get one attempt at each exam. *Due dates for your exams are given in the course Syllabus link.* Make ups are only for those people who missed the exam with legitimate and documentable excuses (not being prepared is not a legitimate excuse for not taking an exam during its regularly scheduled time). **Make ups will be give the weekend following the scheduled exam. If you miss that exam there will be one last chance to take it the last week of the semester.**

For help in how to prepare for objective exams see:

<http://people.uwec.edu/ivogeler/multiple.htm>

<https://www.houghton.edu/current-students/center-for-student-success/academic-support-and-accessibility-services/study-advisement/test-taking/multiple-choice-and-true-false-tests/>

Most exams will be available over a 4 day period (e.g., Thursday 8:00 AM – Sunday, 11:59 PM). Exams will be timed and, once started, must be completed.

4. Leadership Competency Journal (10 @ 10 Points = 100 Points): CLOs 1 & 2 Each chapter in the text has self-assessment exercises and case studies. The Leadership Competency Journal is where you should demonstrate that you have mastered and can apply course concepts.

For "Case Studies," read the case and then answer the questions at the end of the case be sure and apply the relevant course concepts as appropriate. Be sure and also include the Case Questions in bold along with your answers. Incomplete

For "Exercises" be sure that you discuss what you have learned about you. You are not required to

duplicate or copy each exercise, just read and comply with the instructions for that particular exercise. Be sure and give your score for each exercise as part of your discussion. Also be sure and apply relevant course concepts as appropriate.

A well thought out and complete response to each case/exercise applies concepts from the text to fully support your analysis. Expected length for responses is at least 200 words.

Sustainability Discussion Forums (2 @ 75 points each = 150 points) CLOs 2 & 3

There will be two discussion forums that require you to reflect on issues related to sustainability and sustainable development as it relates to leadership for sustainability. 35 points of your grade is based on an initial posting of at least 200 words containing all the information listed above. The additional 40 points is based on responses of at least 150 words to at least 2 of your colleagues (20 points each) addressing thoughtfully their portion of their post.

Your postings/insights in the Discussion forum are based on the following:

1. Application of course concepts;
2. Ability to articulate your analysis clearly; and
3. Integration of student colleagues' contributions and insights leading the discussion to a deeper level of understanding.

Please note that there are separate deadlines, one for your initial post and one for the responses to your colleagues. All posts will be graded after the second deadline. See the Course Syllabus link in Canvas for due dates.

5. Sustainability Leader Interview: CLOs 2,3,5

You will be responsible for interviewing someone who has demonstrated exemplary leadership for sustainability and sustainable development. Leadership for sustainability embraces the triple bottom line. Such leaders demonstrate mindful actions and behaviors, embrace a global world-view, recognize the connection between the planet and humanity, and through personal and organizational choices affect positive environmental and social change. **Their work should easily be recognized as being focused on one or more of the Sustainable Development Goals (SDGs). Be sure and include a discussion of this as part of this assignment.**

For potential interview local candidates see:

The interviewee should be someone who you believe has developed into an effective leader for sustainability as described above and who has demonstrated positive leadership skills and behaviors; someone you consider a role model in terms of leadership for sustainability. Your interview can be with a local sustainability leader or someone who is more widely recognized as a champion for sustainability.

A. Sustainability Leader Interview Proposal (50 Points): You must submit a proposal in which you identify who you will be using for your Sustainability Leader Interview Project that includes why you chose them, general background information, overview of their approach to leadership for sustainability and proof (e.g., an email of simple signed form) that they have agreed to participate.

You should not pick someone who may be doing a lot of good in the community that might could be classified as sustainable but has not placed sustainability center-most to their leadership. To avoid this issue, I suggest you contact me and provide the name of the person you want to interview and why you believe they are a good candidate for this project. Also, realize that you do not have to actually conduct the interview before your proposal is due. Regardless, the due date for the final interview paper is far enough out that even if you need to regroup you have the time to do so. The main thing is to keep me in the loop so that you don't get off track and waste a lot of

time and effort.

Below are the grading criteria for this assignment.

- 1) why you choose this particular leader,
- 2) general background information (at least one page),
- 3) overview of their approach to leadership for sustainability,
- 4) a list of the questions you are going to ask them, and
- 5) proof (e.g., an email or simple signed form) that they have agreed to participate

See the “Sustainability Resources” page in the course Canvas “Sustainability” Module for sustainability resource links and example organizations with sustainability leaders. After you identify a sustainability leader through the links or other secondary research, you may have to find additional information concerning this leader from other sources. Google, Business Source Complete, ABI Inform, Wall Street Journal, Lexus/Nexus and Regional Business News are good places to start your search. See the Assignment Link in Canvas for full instructions.

Your proposal should be 3+ pages, single-spaced with 8 pt spacing between paragraphs. In addition, the report should have a beginning cover sheet, ending bibliography, and an appendix, if needed, with appropriate exhibits. Any references you’ve found up to this point should be in APA format.

B. Sustainability Leader Interview Paper (150 Points)

Drawing from your Sustainability Leader Interview Proposal and applying at least three relevant sustainability course concepts/models, you are required to submit a fully developed paper that outlines your interview with this individual and what you have learned.

Be sure and give a definition of what is a leader for sustainability from the course readings to use as a guide for your questions and subsequent write up.

Questions that **MIGHT get at the four actions above include (these are only examples. Develop questions that are most appropriate for your interview):**

- What is their personal background and how did their early experiences lead them to become a leader for sustainability?
- What is their definition of sustainability? What do they consider to be the attributes or qualities necessary to be a leader for sustainability?
- Why they consider sustainability and sustainable development an important aspect of their approach to leadership?
- Are you familiar with the Sustainability Development Goals (SDGs)? How do you believe they apply to you work?
- What specific skills, experiences and training opportunities have helped them along their leadership journey? What traits do they value the most?
- Their advice to you as you continues to develop as a leader (things to become involved with, experiences to have, etc.).
- What mistakes do they see most leaders make?
- *Most importantly:* Have them describe/recount in as much detail as possible what they consider to be the greatest Sustainability leadership challenge of their career. This will become the major set of data that you will use to apply course concepts/models to explain why they are an effective leader. *This is the most important question as, without this detail, your application of course models lacks the specificity necessary to*

adequately illustrate its use by this leader, which is the major task in this assignment.

Be sure and include your interview questions, in an Appendix.

Grading Criteria (equally weighted):

- Including enough biographical information to support your analysis
- Application of **at least three** relevant course leadership concepts/models, including one from chapters 4-6, 13-15 of the Daft text, one from the Flourishing Enterprise, and the Global Leadership for Sustainability Model, for assessment of this person's overall leadership for sustainability effectiveness (e.g., triple bottom line focus);
- Clarifying what you consider your leader's most significant leadership strengths, especially as they relate to a particular Sustainable Development Goal and the model you covered in above, and how these help make them an effective leader.
- Your thoughts and conclusions about what you heard/feedback you received, and how you can incorporate this into your future leadership development to make YOU a more effective leader.

The paper should be 5+ pages, single-spaced with 8 pt spacing between paragraphs. In addition, the report should have a beginning cover sheet, ending bibliography, and an appendix, if needed, with appropriate exhibits. The works cited page and citations should be in APA format.

6. Leadership for Sustainability Initiative Simulation (150 Points): CLOs 2-4, 6

In this single-player simulation, students play one of two roles at a sunglass-manufacturing firm and face the challenges associated with implementing an organization-wide environmental sustainability initiative. The initiative seeks to change raw material inputs in order to make the company's products more "green," and also to address environmental waste issues. The simulation includes four scenarios with different combinations of two important factors for creating change: the relative power of the leader as a change agent for sustainability and the relative urgency associated with the change initiative. In each scenario, students choose among different change levers in an attempt to persuade key members of the organization to adopt the change initiative. Students are assessed on their ability to achieve the greatest percentage of adopters within the company while simultaneously using the fewest resources.

Students will get one trial run using the CEO, urgent scenario to familiarize themselves with the game rules and mechanics. They will then complete four scenarios (CEO/Urgent; CEO/Not urgent; Director Product Innovation/ Urgent, Director Product Innovation/ Not urgent) with two runs for each scenario.

A culminating capstone sustainability case study project is a required part of the course. Students must make a B on this project to pass the course and a B in the course to graduate.

This is the required culminating capstone sustainability assignment. Students must make a B on this assignment to pass the course and a B in the course to graduate.

You will then conduct an analysis of each scenario, using no more than 3 page single-spaced pages with appropriate headings and subheadings and 8 pt spacing between paragraphs. It should detail:

1) The results you achieved in terms of number of adopters for each run and the efficiency ratio. If you reached the critical mass for adoption give the number of weeks it took to do so. (50% of your grade)

If you didn't reach the critical mass for adoption the first run, detail the rationale for any changes in strategy and the tactics you used for the next run.

2) The leadership models you relied on to make your choices (e.g., A Concept/Model from Leading Change in Ch 15 or from Shaping Culture and Values in Ch 14) in your most successful run. One way to

approach this would be to identify a concept model for each decision lever. Then use these to explain why you succeeded or failed to achieve the critical mass for adoption of the sustainability initiative. (25% of your grade).

For example what concept/models in the Daft's Leadership Experience text or the Flourishing Enterprise book would be relevant for the clarify organizational values change lever that would explain the successful (or unsuccessful) use of this lever.

3) Finally, write a no more than 3 page summary/analysis of your overall success in the game and, what you learned, and how you will take these lessons forward as you graduate and launch the next chapter of your career. (25 % of your grade).

No late submissions are allowed for this assignment unless arrangements are made before the due date.

7. Leadership for Sustainability Case Analysis Paper: CLOs 2-4

For this project, you are required to pick an organization to study that is addressing issues related to sustainability and sustainability development.

Companies that embrace sustainability do not pursue financial gain at any cost. Rather they actively seek to change the world for the better; they recognize that sustainability and sustainable development should be of equal importance with employee well-being and profits – i.e., embracing the Triple Bottom Line or People, Planet, and Profit. In doing so, they assess the social, environmental, and economic aspects of any action so that it is as sustainable as possible. These organizations view sustainability and sustainable development as not only meeting the needs of the present but also seeking to build the kind of world that we want our children and grandchildren to inherit.

You can choose a company/city/industry you currently work for or have experience with that is involved with an issue related to sustainability. Alternatively, you can choose an organization, public or private, that you may or may not have direct contact with.

See the “Sustainability Resources” page in the course Canvas “Sustainability Module” for sustainability resource links and example organizations with sustainability leaders. After you identify a sustainability leader through the links or other secondary research, you may have to find additional information concerning this leader from other sources. Google, Business Source Complete, ABI Inform, Wall Street Journal, Lexus/Nexus and Regional Business News are good places to start your search. See the Assignment Link in Canvas for full instructions.

Make sure you can relate your analysis to one or more SDGs and that one of the concepts/models you use comes from the *Flourishing Enterprise* text.

You must organize your exam using headings and subheadings that reflect the Case Analysis Outline using APA format.

A. Global Leadership for Sustainability Analysis Proposal (30 Points): Decide on a company and its leader you want to research extensively for your final case assignment. Be sure there is enough publicly published information about the company to pull together a well-written, in-depth case analysis. **Ms. Margaret Dawson** is the lead Business Librarian and she is available to assist you with your research. Her email is madawson@tamuct.edu; she is Canvas proficient and can meet with you via chat, web-conferencing, in-person or phone. Also, be sure and relate your organization's sustainability initiatives to the UN Sustainability Development Goals.

Total length should be no more than 3 pages, single-spaced with 8 pt spacing between

paragraphs. Provide 5 references in APA format, which are not counted as part of the 3 pages.

There is a 2 Point penalty per page over this limit.

B. Global Leadership for Sustainability Analysis Part 1 (100 points):

For Part 1, Your paper should include a detailed introduction of the organization and leader and the first two sections of Case Analysis Outline in Appendix A. Including your 2 page revised proposal that addressed my comments (**1 point penalty for each comment not addressed**), the paper should be 3-6 pages, single-spaced with 8 pt spacing between paragraphs. **Their work should easily be recognized as being focused on one or more of the Sustainable Development Goals (SDGs)**. Be sure and include a discussion of this as part of this assignment. In addition to the 3-6 pages, the report should have a beginning cover sheet, ending bibliography, and an appendix, if needed, with appropriate exhibits. **The works cited page and citations should be in APA format, including at least 8 credible references (include 4 references that are not web pages).**

There is a 2 Point penalty per page over this limit.

For section 2 of the outline, be sure and include a summary of the issues you surfaced in the situation analysis and the management question. All references should be cited in the body of the paper. References must be in proper 7th Edition APA format (use the CANVAS library links for sources and APA format). Submit your proposal through the Syllabus link, which will also give its due date.

After you receive the graded paper, feel free to schedule a meeting with Dr. Fry to receive feedback and discuss any revisions that are necessary as Part 1 will be included in the Leadership for Sustainability Case Analysis Paper Part 2.

B. Global Leadership for Sustainability Analysis Part 2 (100 points):

The analysis of the company, the format of the report, and its grading will follow sections 1-6 of the Case Analysis Outline in Appendix A.

It is incumbent on you to write up enough detail on the organization so that I can follow the application of course concepts/models to the case situation. A general rule of thumb is that the case situation write up should comprise about 50% of your paper.

Your submission should also include your previous Leadership for Sustainability Part 1 analysis, which should be revised based on my comments. I will assess a 1 point penalty for each comment not addressed),

For the Leadership Analysis in section 3, be sure and apply:

1. The Global Leadership for Sustainability Model.
2. The extent to which your organization is a Flourishing Enterprise.
3. One relevant model from chapters 5-6, 13-15 from The Leadership Experience text.

Your submission should be 8-10 pages, single-spaced with 8 pt spacing between paragraphs. In addition to the 8+ pages, the report should have a beginning cover sheet, ending bibliography, and an appendix, if needed, with appropriate exhibits (these do not count toward the page limit). The works cited page and citations should be in 7th edition APA format. The

analysis of the company, the format of the report, and its grading will follow that of the Case Analysis Outline in Appendix A.

There is a 2 Point penalty per page over this limit.

Include at least 15 references, seven of which must not be web pages. Make sure that every citation in your references is cited in the body of your paper. Multiple citations from the same web site only count as one citation toward the fifteen-reference requirement.

Be sure and take advantage of the library links in the course menu AND the business librarian, who is at your disposal for help on this project. **Ms. Michelle Shea** is the lead Management Librarian and she is available to assist you. To schedule an appointment with her, link to [Scheduling an appointment with Ms. Shea.](#)

(https://tamuct.libguides.com/prf.php?account_id=182411 [Links to an external site.](#)) She is Canvas proficient and can meet with you via chat, web-conferencing, in-person or phone.

No late submissions will be accepted.

NOTE #1: Extra Credit: There is no extra credit in this course.

NOTE #2: Requests for Incomplete Grades: Incompletes will only be given in emergency or other extreme circumstances and then only if a significant percentage of the course has been satisfactorily completed. Any request for an incomplete grade in this course must be approved by the professor prior to the last week of classes. Where possible, requests should be submitted in written form and must include an address and/or telephone number where you may be contacted throughout the following semester. Texas A&M University Central Texas uses the grade of 'K' on transcripts and grade reports to identify incomplete grades.

NOTE#3: Questions concerning one's grade on a particular task (e.g., test, case) should be resolved within one week after receiving the graded material. There will be no reviewing of previously graded material at the end of the semester.

Note #4 - Peer Evaluation: All students must fill out one or more peer evaluation forms. I use this as a mechanism to determine an individual's contribution to the group's effort. If you rate a group member significantly higher or lower than the other group members, you must write down the specifics of the situation and justify your rating.

Note # 5 - Posting of Grades: Grades for Chapter Exams will be posted the day after the availability period has passed. Grades for Major assignments will be posted within one week following the due date.

CLASS POLICIES

COBA Learner Access and Success Web Site

This web site has been specially designed to provide “one stop shopping” for the University and College resources that College of Business Administration students are likely to need throughout the semester. This includes setting up an appointment with an advisor, tutoring, career and professional development, among other services and many helpful videos. **Check it out and bookmark it, it will be very useful:** [COBA Learner Access and Success](https://www.tamuct.edu/coba/coba-learners.html) (https://www.tamuct.edu/coba/coba-learners.html)

Course Standards: Professional level writing and communication are critical skills in the business world. This standard should be displayed in all assignments for this class. All communications, both to the Professor and student colleagues should be kept professional, including Discussion Board postings and email/messaging correspondence. For written assignments, all work should be proofread, free of grammatical errors, include proper citations and be in accordance with American Psychological Association (APA) standards, including one inch margins and 12 pitch Times New Roman font. For information on APA standards and correct citation formats consult APA module in the Course Resources module in the Canvas web site.

Classroom Policies: I expect you to treat this course *like a job*: Be **professional** in your speech, your writings including **posting on Canvas** and **communications to me, and most importantly, communications to your class members.**

As a member of this class, you are invited to think, question, disagree and offer alternatives. That is part of the academic experience, as well as part of learning to be a contributing, critical thinker in any professional setting. However, my expectation is that you will behave **professionally and courteously** toward another student and the professor, and respect the rights of others at all times. Failure to do so will be cause to report the offending student(s) to Academic Affairs.

Treat this class as a business setting. That means:

- You don't ever simply fail to show up for work in a corporate setting. Similarly, when taking an online course, even though you have more flexibility in deciding when to check course materials, announcements, and upcoming assignments, you must log into your Canvas at least a couple times a week to stay on top of the course schedule.
- You would never schedule vacation during a critical work project in a corporate setting – that means that while you're in school you should schedule vacations between semesters or on approved university holidays, not during the semester.
- In a corporate setting, you would never submit poor quality work to your colleagues and managers. This means, while you're in school, you should do your best and submit senior-level-worthy work to your student colleagues and the professor. This requires that you study relevant materials and carefully read and follow assignment instructions. This also requires that you demonstrate senior-level writing skills (I strongly recommend that you utilize the writing center if needed).

Netiquette: Netiquette refers to appropriate ways of communicating through the Internet. It is very important to any online course including this course.

Here are some specific policies for this course:

- You do not dominate any discussion. You will let other students give input in the discussion.
- You do not use aggressive and/or offensive language to present your ideas or opinions to other students or the instructor.
- You do not use sarcastic language when you do not agree with another student or the instructor. Therefore, be cautious in using your humor and make sure you are just being humorous, NOT

sarcastic.

- Popular emoticons such as ☺ can be helpful to convey your tone in your reply to another student in discussion but do NOT overuse them.
- You do not make fun of another student's ability to read or write.
- You should be open-minded and listening to others' opinions.
- You do not ever use Internet slangs like "LOL," "Q4U," and "C U" in your postings and emails.
- You always think, edit, and proofread your postings and emails before you push the "send" button to make sure your spelling and grammar is correct.
- You do not ever post your entire reply using all bold upper-case letters – it is hard on the eye and can be interpreted as "yelling" according to Internet language.
- You respect diversity (e.g., gender and ethnicity) in your communications.
- Your postings should be direct, to the point, and relevant. You do not include wordy sentences that do not add any value to the discussion.
- You should be patient and read all other discussions before you add something. This will help you avoid repeating something someone else has already contributed.

Continued enrollment in this course indicates agreement with these policies.

University Library Services: Information literacy focuses on research skills which prepare individuals to live and work in an information-centered society. Library research skills are another critical tool in the business world, and will be required for this class. Librarians will work with students in the development of critical reasoning, ethical use of information, and the appropriate use of secondary research techniques. Help may include, yet is not limited to: exploration of information resources such as library collections and services, identification of subject databases and scholarly journals, and execution of effective search strategies. Library Resources are outlined and accessed at:

<http://www.tamuct.edu/departments/library/index.php>

Library databases that would be particularly helpful for the projects in this class are contained in the Management Library Guide:

<http://tamuct.libguides.com/c.php?g=117073&p=762177>

These databases, such as *Business Source Complete* and *Hoover's*, go well beyond what students can find by just "googling" their company. These resources are not available to the general public, your University fees pay for these articles, which are in-depth and provide the depth you need to provide credible information on your case analyses.

The TAMUCT librarians are available to assist distance learning students doing research. **Ms. Michelle Shea** is the lead Management Librarian and she is available to assist you with your research. To schedule an appointment with her, link to [Scheduling an appointment with Ms. Shea](#) (https://tamuct.libguides.com/prf.php?account_id=182411) She is Canvas proficient and can meet with you via chat, web-conferencing, in-person or phone.

Important information for Pregnant and/or Parenting Students: Texas A&M University-Central Texas supports students who are pregnant and/or parenting. In accordance with requirements of Title IX and related guidance from US Department of Education's Office of Civil Rights, the Dean of Student Affairs' Office can assist students who are pregnant and/or parenting in seeking accommodations related to pregnancy and/or parenting. Students should seek out assistance as early in the pregnancy as possible. For more information, please visit [Student Affairs](#) [<https://www.tamuct.edu/student-affairs/index.html>]. Students may also contact the institution's Title IX Coordinator. If you would like to read more about these [requirements and guidelines](#) online, please visit the website [<http://www2.ed.gov/about/offices/list/ocr/docs/pregnancy.pdf>].

Title IX of the Education Amendments Act of 1972 prohibits discrimination on the basis of sex and gender—including pregnancy, parenting, and all related conditions. A&M-Central Texas is able to provide flexible and individualized reasonable accommodation to pregnant and parenting students. All pregnant and parenting students should contact the Associate Dean in the Division of Student Affairs at (254) 501-5909 to seek out assistance. A Note about Sexual Violence at A&M-Central Texas: Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Wellness and Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don't agree with their behaviors and tell survivors we will support them. Your actions matter. Don't be a bystander; be an agent of change. For additional information on campus policy and resources visit the [Title IX webpage](#) [<https://www.tamuct.edu/compliance/titleix.html>].

Management 5309
Case Analysis Outline

A significant amount of this course is centered on you learning how to apply the Case Analysis Outline given below. As stated in your syllabus. Being able to apply this case analysis process both individually and as part of a team is what distinguishes graduate from undergraduate work in management. In doing so you are required to not only learn and demonstrate your knowledge of the course basic vocabulary, you must also demonstrate that you can:

1. Take a real world situation and analyze it using three distinct approaches (vision/purpose/mission/values, stakeholder analysis, SWOT analysis) that help you gain insight into the key issues that must be addressed to move the organization to the next significant level of performance.
2. Apply the 3-4 most relevant leadership concepts/models that can be used to assess the degree to which the organization is following them. The basic assumption here is that individuals and organizations that apply or adhere to these concepts/models are more effective.
3. If these models are being successfully followed/implemented (an example would be Southwest Airlines), then the challenge is to offer, select, and implement alternatives that, given the situation analysis, will help insure that the organization remains effective.
4. If there is a discrepancy between the organization's behavior and what is prescribed by these model, the challenge is to offer, select, and implement alternatives that reduce this discrepancy.
5. Be able to draw on at least one model that should be followed as part of your implementation strategy that will effectively address the issues you identified in the situation analysis.

Be sure and review the videos I've posted in the Case Analysis Resources link that go over how to apply the above in more detail.

The bottom line in all of this is to help you develop the ability and skill to more effectively apply relevant models of organizational behavior in your everyday life. If you can do so, it will fundamentally change the way you view your world and positively influence your personal and organizational effectiveness as you define it.

1. **Situation Analysis (25%):** Describe briefly in summary form the management situation reflected in the case. This is not a restating of the case details or history. Instead, it captures the essence of the management situation and leads to the development of the issue(s) statement to follow. Be sure and include a:
 - A. Vision/Purpose/Mission/Values Statement
Identify any issues related to:
 1. The organization not having a stated set of Vision/Purpose/ Mission/ Values.
 2. The organization not living up to its stated set of Vision/Purpose/ Mission/Values.
 - B. Stakeholder analysis:
 1. Identify key stakeholders
 2. Identify expectations for each stakeholder.
 3. **Identify any issues related to** unmet stakeholder expectations.
 - C. Strengths, Weaknesses, Opportunities, and Threats (SWOT) analysis

Identify any issues related to your SWOT analysis. These usually have to do with weaknesses and threats

2. **Issue(s) Statement & Management Question (10%):**

- A. List and briefly summarize the key issues you identified in your Situation Analysis.
- B. Close this section with a *single, concise but comprehensive underlying management question* that must be answered to address the key issues from A.

3. **Leadership Analysis (35%):** Apply in-depth 3 course concepts/models. For the Leadership Analysis in section 3, be sure and apply:

- a. The Global Leadership for Sustainability Model.
- b. The extent to which your organization is a Flourishing Enterprise.
- c. One relevant model from chapters 5-6, 13-15 from The Leadership Experience text.

4. **Identification and Evaluation of Alternatives (15%):**

First restate the management question. Be sure that your chosen alternative(s) will address this question.

Base on your Leadership Analysis, identify three or more specific, mutually exclusive options/alternatives that should be evaluated to address the issues and the underlying problem. Label each with a brief key word name that identifies the alternative, i.e., Reorganize the Division. Then develop and fully discuss the pro's and con's, and related implications of each alternative.

5. **Recommended Alternative (5%):** Suggest which of your alternatives from Part 4 you recommend be implemented and why.

6. **Implementation and Conclusion (10%):** Describe and discuss the strategic and operational issues related to implementing the recommended alternative. Include a course concept/model to follow along with a timeline for implementing it.
