CACREP Standards

CACREP standards can be viewed at <http://www.cacrep.org/wp-content/uploads/2012/10/2016-CACREP-Standards.pdf>. Mode of Instruction & Course Access

This course utilizes didactic teaching, group discussions, group supervision, and review of clinical cases. Students are evaluated through taped sessions, site supervisor's evaluations of students, other relevant assignment completion. A portfolio will not be specifically turned in as an assignment of this course; however certain assignments are earmarked for you to include in a professional portfolio which will be reviewed by a faculty advisor as a graduation requirement. For questions about the portfolio contact your faculty supervisor.

Participation & Attendance

Your active participation in supervision sessions is necessary for you to meet the course objectives. Active participation requires prior preparation on your part (e.g., presence, discussion of your site experiences, providing feedback and asking relevant questions to peers and supervisor). We will meet a total of 13 times for 2 hours. The last class is scheduled for May 8, 2023. You will be allowed one excused absence which you are allowed to use for self-care. **You must obtain 24 hours of faculty group supervision for the semester.** If you miss more than once, you will have to make up that missed time by making a request via email to Dr. Berry to participate in his section of Practicum Group Supervision and may interfere with your clinic shifts or other personal obligations. You are not allowed to miss class with Dr. Norris on a night you are scheduled to present. If the class is moved to an online Web Ex format, in order to attend and safely participate in Internship group supervision through Web Ex, you need to secure a private space where you will not be interrupted with reliable internet. **If meeting online, your visual presence through Web Ex is required for this course.** Additionally, please be sure any technology that is voice activated is turned off in the room where you participate from home (i.e. Alexa, Echo Dot, or other technology that is voice activated). Students participating on campus are expected to be present in group supervision for the full duration of class.

Visual Presence

- If utilizing a Web Ex class meeting format, to attend class all students will have their camera on for the entire duration of supervision, and provide a background beyond their face that includes a stable and private location. Group supervision is a **professional** activity part of clinical work so you are expected to sit up and that you should not participate from your bed or be seen moving in an out of buildings/rooms/vehicles at your location. Additionally there should not be any other persons present in the room where you are participating since your participation includes your own specific feedback to what is being discussed and may involve client information or personal peer

experiences. Being mindful of these behaviors will allow for you to be appropriately transparent to elicit the trust of your peers and your supervisor since sensitive client information and content about personal experiences is discussed throughout group supervision. If you are not able to carry out the following behaviors listed above you will respectfully leave the supervision session by logging off of Web Ex. You are still responsible for attending the minimal required supervision hours for the semester and should make plans to eliminate disruptions to meet the listed criteria for attendance prior to the start of the group meeting time. Leaving your screen for a brief restroom breaks is okay during the meeting, but moving your computer through rooms of your home might lead to insecurity of peers of your location, so you are allowed to turn off your screen if you briefly leave to use the restroom or to mitigate an additional disruption, but for those purposes only.

- Your peers see your screen for the duration of class even when a student's screen-share function is activated. Any behaviors that would diminish confidence of privacy will impact the trust within the virtual supervision session and consequently may adversely affect the group learning experience. Each student is independently responsible for their role in contributing to the safety of this virtual supervisory space.

Tardiness

You are expected to be in class at 11:00am. Plan to arrive to campus 10-15 minutes prior to class so that you are mentally and physically prepared to begin supervision. For online meeting periods, it is strongly recommended students plan to virtually arrive to the group Web Ex meeting 10- 15 minutes before class begins to make sure their technology is working and their internet connection is sufficient. Continual tardiness will result in a Fitness to Practice evaluation between the student and faculty supervisor to address tardiness. Supervision requires a specific number of hours. Therefore, if you are late, you will not be able to count that time a part of supervision you received. All students must have a total of 24 hours of group supervision (fall/spring) or 15 hours of group supervision (summer) to pass this course.

Assignment Submission

All work will be submit to Canvas by students. Students will be responsible for getting all logs and evaluations signed and turned in by their respective due date and should make arrangements with supervisors to have items prepared and uploaded into Canvas by their assigned due date. All items are due to the supervisor, including final and cumulative logs at the time of the individual “close out” meeting between the student and faculty supervisor during the last week of the semester. Assignment deadlines are critical so students should plan accordingly.

Course Assignments, Grading, and Requirements

I. Ethical and Professional Conduct: Internship students must behave in accordance with the ACA Ethical Standards and other standards of accepted professional conduct, including attire appropriate to professional counseling. Special attention is called to standards of confidentiality.

II. Supervision (Assignment: Supervision Contract): Students will meet for a minimum of 1.5 hours/week of group supervision provided by the faculty supervisor (CACREP, 2016, III.M); Remember this course meets for 2 hours which allows the opportunity for one an excused absence which is encouraged to be used for self-care. Students will also receive weekly individual/triadic supervision that averages one hour per week throughout the internship (CACREP, 2016, III.L; this is usually performed by the onsite supervisor). **At the beginning of the semester you will complete a supervision contract that defines the roles and responsibilities of the faculty supervisor, site supervisor, and student during practicum** (CACREP, 2016, III.R)

III. Hour Logs: The purpose of the log is to provide a record of all time spent in practicum activities. The log serves as evidence that the student has met the content and time requirements of practicum. The log is to be hand signed by the appropriate supervisors and by the student. Students first attend their week of shifts in the clinic (and at secondary site, if applicable) and keep track of how time is spent based on categories provided in the logs. Next, the student will enter the time spent into an Excel log provided to the student by the faculty supervisor. After the excel log is created the student will return to the clinic and submit a hard copy of the digital log for site supervisor approval. After hard copy log is signed by student and a site supervisor it needs to be submit to Dr. Norris to sign off as the Faculty Supervisor which will be returned to the student. Once student receives signed log with all signatures from site

supervisor and faculty supervisor the student is expected to upload final copy of weekly log to Canvas and bring the signed hard copy for submission to the Monday group meeting. **Logs are due for site supervisor approval and to Canvas every week.** At the end of the semester, students will complete a summary log of all hours earned during the semester. Your site supervisor will sign off on all hours related to work done with/for clients at the site. You are advised to keep your own copies.

IV. Weekly Journal

The purpose of the journal is for students to write a weekly report of their practicum activities. In these weekly reports students will: (a) highlight the major counseling activities and accomplishments of the week (e.g., started a new process group...), (b) provide a self-appraisal of their progress (e.g., became more aware of my tone of voice with clients today...) and (c) identify what self-care strategies they have employed (e.g., journaled in my personal diary). **For this assignment, you may turn in a cumulative paper at the end of the term,** self-reflecting on your experience in the clinic. It may be helpful to keep a weekly log or weekly entry in a word document during the course of the term to keep your thoughts organized. This journal must have a minimum of 8 entries with no less than three paragraphs of well-established thought.

V. Case Conceptualization Presentation: Students will present 1 formal case conceptualization presentation using *de-identified* client information using the template provided to you in the Canvas for this course (See PowerPoint template via Canvas). You will present this formal case presentation during live group supervision of a current client (i.e., from interactions that take place during the semester when the student is enrolled in Internship). You are encouraged to use approved treatment planners (see recommended books). On the date you present you will also present 10 minutes of a counseling recording from your site to the group (see VII. Counseling Recording). **On the date you present this recording you need to submit: PowerPoint of presentation, and completed Tape Self-Critique Form to appropriate submission locations in Canvas.** Oral review of this PowerPoint should be limited to 15 minutes in duration (not including the 10 minute client recording).

VI. Counseling Recording/ Self Critique: The recording of sessions in the field setting is completed in accordance with the regulations of the internship field site and the Field Site Supervisor. The practicum student should record (video or audio tape) as many client sessions as possible and **complete Documentation of Consent to Record Form (Go to FILES in course Canvas shell to access form)** with site supervisor prior to recording client interactions. The recordings should be used for self-evaluation, peer group presentations, and instructor evaluation of the intern's direct service skills. **Students will turn in a minimum of 1 recording for evaluation as assigned by the professor. You are allowed to use this same recording for the Transcript Assignment mentioned below.** More than 1 tape may be assigned. Each submission must include a recording (audio or video presented during class, must be loud enough to hear and easily understood) and a Tape Self-Critique Form (submit to Canvas on day you present recording). If a site is unable to allow students to create recordings of client interactions, students will make arrangements with their site supervisor or appropriate site members to record an alternate interaction (e.g., role play real client scenario with site supervisor or another site team member). Recordings must be current (i.e., from interactions that take place during the semester when the student is enrolled in Internship). If the session is a role play, the individual participating with you must be acting as if they are a client on your current caseload (i.e., Avoid role playing with family, friends, or classmates). All information must come from clients at your site. **You will not upload your recording anywhere in Canvas.** For this assignment you will present the recording at the time of your formal case conceptualization presentation.

VII. Transcript of Counseling Session: **Each student will submit two transcripts. For each transcript, you will need to transcribe a 10 minute portion of a counseling session to demonstrate your use of primary counseling skills and your awareness of essential counseling processes (see rubric and Transcript Template via Canvas).** Each transcript should be fully *de-identified*. In addition to removing/changing the client's name, appropriate de-identification may also require the removal/alteration of other information that could reasonably be used to identify the client (e.g., "The abuse started when I was at Camp Winnetonka"...change to "The abuse started when I was at camp"). You will need to identify (label) when in the transcript a particular skill is being used. You will use the skills described in the AMHCC for this annotation. You will be evaluated on your employment of primary counseling skills as well as your awareness of the presence/absence of skill implementation. Recordings must be current (i.e., from interactions that take place during the semester when the student is enrolled in Internship).

VIII. Evaluations: Students will submit a mid-semester and final evaluation to their faculty instructor completed by their site supervisor (must be completed for each site) (CACREP, 2016, III.C). Originals should be given to your faculty supervisor; you are advised to keep your own copies. Students will submit to their site supervisors printed copies of the AMHCC Parts 1-4 and submit them to the instructor at mid-semester and the end of semester (see course calendar for due dates). At the end of the semester each student will provide evaluations of their supervisors and of their external sites (if applicable). Additionally, students will submit the Student Evaluation of Site Supervisor that asks the student to provide brief qualitative and quantitative feedback about their site experience. This will be turned in to the faculty supervisor and used by program faculty to assess site experiences of program students.

IX. Final Reflection: Students will write a personal reflection paper in APA style format that answers the following prompt: *Concluding this semester of clinical work, what personal growth and what professional growth did you observe in yourself since the start of Practicum this semester? Additionally, reflect on any bias that you were made aware of during your work and how this impacted or could have impacted your work. Lastly, reflect on aspects of your self-care that assisted you during the semester and what you intend to hold yourself accountable for your own personal wellness as you continue your clinical work in subsequent semesters.* Follow the prompt and be sure to answer it fully. This assignment needs to include a cover page, a reference page if applicable, and be at least 3 pages in duration but not more than 4.

X. Clinical Experiences:

Students seeing clients in the TAMUCT CCFTC have the opportunity to become familiar with a variety of professional activities and resources, including technological resources (e.g., recording equipment, Titanium client-management software). Clinical experiences in the clinic include individual adult and child counseling (children ages 7-17), couples counseling, family counseling, and group counseling. Note: Students who do not get an opportunity to lead or co-lead a group during Practicum will need to seek out this experience during Internship. (CACREP, 2016, III.D&E)

XI. Consultation Experience:

Students seeing clients in the TAMUCT CCFTC have the opportunity to become familiar with the process of peer and supervisor consultation. Clinical consultation includes planning meetings, conversations about observations, moments outside of group supervision. (CACREP 2016; II.F.1.b)

Grading

Students will be evaluated on the basis of the following:

- 30%—Appropriate level of primary counseling skills and competencies as demonstrated in the presentation of taped counseling sessions, report of site supervisor, and other direct evidence of counseling. This will be evaluated using Part 1-3 of the Assessment of Clinical Mental Health Counseling Competencies (ACMHCC)
- 30%—Appropriate level of professional disposition and behaviors as demonstrated in the supervision sessions, report of site supervisor, and other direct evidence of disposition. This will be evaluated using Part 4 of the AMHCC.
- 40%—Completeness and quality of assignment submission
 - *Note1: Receiving a score of “**Below Expectations / Insufficient / Unacceptable (1)**” in any category on the AMHCC for your end-of-semester evaluation from a supervisor may result in an additional grade reduction if the supervisor believes you are not ready to advance to Internship.
 - *Note2: Passing this course also requires completion of the minimum number of clock hours

Late work policy- If you turn in an assignment after the due date, you will receive a grade reduction of 10% for each day it’s late (with a maximum reduction of 30%). However, credit will be awarded for assignments turned in more than 7 days past its due date.

Success in the Clinical Mental Health Counseling Program consists of more than grades. Work habits and attitudes play a major role in the success of any counseling student. Any of the following actions are considered just cause for failure of Practicum and immediate dismissal from the Clinical Mental Health Counseling Program:

1. Dishonesty (cheating, plagiarism, etc.)
2. Unauthorized disclosure of confidential information
3. Negligence or misconduct
4. Mistreatment of clients, fellow students, research participants, or faculty
5. Abusing a client, fellow student, faculty member, or staff member
6. Violations of the rules, regulations, and principles in the Code of Ethics and Standards of Practice as identified by the American Counseling Association and Texas A&M University - Central Texas Code of Student Affairs.
7. Receipt of a Failing grade in Practicum or Internship.
8. Willful submission of false information or alteration of any official records, counseling reports, papers, or examinations.
9. Willful conduct that may cause injury to self or others.
10. Sexual harassment and/or violence in the workplace as defined by Texas A&M University - Central Texas University

A Note about Sexual Violence at A&M-Central Texas

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Wellness and Counseling (254-501-5955) located on the second floor of Warrior Hall (207L). Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don't agree with their behaviors and tell survivors we will support them. Your actions matter. Don't be a bystander; be an agent of change. For additional information on campus policy and resources visit the [Title IX webpage](https://www.tamuct.edu/compliance/titleix.html) [<https://www.tamuct.edu/compliance/titleix.html>].
