COURSE INFORMATION

Course Overview and Description:

Analyze the historical development of the science of psychology from early philosophical theories through the establishment of psychology as a science to modern theoretical positions.

Student Learning Outcomes:

1. *Demonstrate comprehension and application of fundamental principles, generalizations, or theories regarding the history of psychology.* Students will read, write, and respond to information regarding the history of psychology as it pertains to philosophical and physiological influences on psychology, structuralism, functionalism, applied psychology, behaviorism, gestalt psychology, psychoanalysis, and contemporary developments in psychology including the cognitive movement and evolutionary psychology. Students will demonstrate their ability to comprehend and apply these concepts in the quizzes, discussions, article summaries, and exams.
2. *Analyze and critically evaluate ideas, arguments, and points of view.* Students will respond to others' writing including that of peers and experts in the field on topics related to the history of psychology and its perspectives and substantiate their points of view with theory and research when available. Students will demonstrate their ability to critically evaluate ideas on discussions and replies, article summaries, synthesis essays, and research paper.
3. *Demonstrate skill in expressing oneself in writing.* Using appropriate APA style, students will engage in a variety of writing assignments that target different purposes. Students will write discussions and replies each week to engage with their peers in scholarly discourse about the history of psychology, write three synthesis essays throughout the semester that synthesize information across course content, write nine self-selected article summaries and revise them after professor feedback to succinctly summarize scholarly articles in the field, and write a research paper integrating multiple scholarly sources for an academic audience.

COURSE REQUIREMENTS

Students are responsible for meeting the course requirements as scheduled for each module in the course calendar. **Assignments submitted after the due date will not receive full credit.** A 25% penalty per day will be imposed on all assignments submitted after the deadline. Specifically, assignments submitted after the deadline on the due date will receive a 25% penalty, assignments submitted more than 24 hours after the deadline will receive a 50% penalty, assignments submitted more than 48 hours after the deadline will receive a 75% penalty, and assignments submitted more than 72 hours after the deadline will receive no credit though the professor will still provide feedback on the assignment.

All assignments must be written in a student's own words. No credit will be awarded for quoted, plagiarized, or AI generated material on any assignment. Quoting or paraphrasing that closely mirrors the source (textbook or other reference material) will receive no credit even if properly cited. Students must write original sentences conveying the information they have learned to the reader (i.e., paraphrasing) and properly cite the source of the information to receive credit for writing. Creating one's own written explanations for concepts facilitates encoding in the brain. As such, a human will be reading and responding to all student communications, so it is expected that a human will be writing all course assignments. The use of chatbots to write assignments for students will be considered a violation of academic honesty. Students are encouraged to use chatbots and other online tools to learn information to extend their understanding of content beyond the textbook, but students should not use chatbots to write information for course assignments for them. **Online tools should be used to learn, not circumvent learning.**

All assignments should be written in proper APA style. Students must follow the APA style guidelines provided in the *Publication Manual* and use online style resources provided by the American Psychological Association at www.apastyle.org

Discussions Posts and Replies

(20% of Overall Course Grade). Each week students will research and write a discussion post on any topic they desire from that module's readings. The goal of the post is for students to analyze and/or synthesize concepts discussed in the course during the module. In addition to research in the text, students are expected to conduct internet-based research on their topic and include working web links in their post for the source of their information (e.g., video demonstrations, professors' blog posts, original articles, current journal articles about the topic). Students are to integrate their web research

materials into the information provided in the course textbook to write a post that explains the discussion topic in a manner that extends beyond the explanation provided in the textbook.

All information provided in each post must be cited according to APA style with working web links included so classmates can follow the links to verify the information and learn more. Students will use the Schultz and Schultz (S&S) textbook as one source of information for their responses and at least one additional scholarly, reputable source of information per post. Students should submit initial posts in the forums as new threads on concepts (i.e., theories, topics, constructs) by **11:59pm CST on THURSDAY**. Initial posts submitted after this time will not receive credit.

Students are to read all posts and reply with comments, corrections, or questions to at least two (2) responses posted by their peers. Students will have until **8:00am CST the following MONDAY** to submit at least **two (2)** replies to posts made by classmates.

For all discussion posts, students must provide original, grammatically correct responses for each essay. ***Quoting or close paraphrasing of the textbook or any other materials will receive no credit, and plagiarized content will be submitted to the Student Conduct Office.***

Though the writing topics will vary weekly, posts and replies will be graded using the following grading rubric. The discussion post is worth 15 points, and each reply is worth 5 points for a total of 25 points each week.

Discussion Post:

Schultz and Schultz Research on Topic with Citation and Page Number

- 0 – no post, no text research, no in text citation, or citation provided is not related to discussion topic
- 2 –text research is cited properly but adds little relevant information to the discussion topic (i.e., the information does little to enrich understanding of the content)
- 4 –text research is cited and adds much relevant information to the discussion topic to enrich understanding and application of the topic but some elements in post are unrelated to essay prompt or some elements of essay prompt are not addressed or are not thoroughly explained
- 6 –text research is cited and adds much relevant information to the discussion topic to enrich understanding and application of the topic, all elements in post are related to essay prompt, and all elements of essay prompt are addressed and are thoroughly explained

Independent Research on Topic with Citation of Source and Textbook Integration

- 0 – no independent research, no in text citation, citation provided is not related to discussion topic, citation is not from a reputable source, and/or information cited does not add new information to discussion topic (i.e., a citation for information that is also provided in the textbook will not earn credit; independent research must provide information that extends the content in the text book, must come from a credible source, and must be written in proper APA style)
- 2 – independent research is cited properly and is from a reputable source but adds little relevant information to the discussion topic (i.e., the

information does little to enrich understanding and application of the content)

- 4 – independent research is cited, is from a reputable source and adds much relevant information to the discussion topic to enrich understanding and application of the topic but some elements in post are unrelated to essay prompt or some elements of essay prompt are not addressed or are not thoroughly explained
- 6 – independent research is cited, is from a reputable source and adds much relevant information to the discussion topic to enrich understanding and application of the topic, all elements in post are related to essay prompt, and all elements of essay prompt are addressed and are thoroughly explained

Organization and Mechanics

- 0 – no post or several errors are present in idea organization, sentence structure, grammar, and/or spelling
- 1 – post expression is choppy or ideas are not in a logical order (e.g., reads as a collection of sentences not as a progressive explanation) or some errors in sentence structure, grammar, and/or spelling
- 3 – post expression is logical with connected ideas (e.g., reader is lead from one idea to the next with transitions, ideas are ordered in a meaningful way) and no errors in sentence structure, grammar, and/or spelling

Discussion Reply (two required):

Extensions, Corrections, Questions to Classmate’s Post:

- 0 – no reply or reply merely states “good job” or agreement with post without discussing content related to the course
- 1 – reply is posted and includes content related to the course, but it provides no new contribution that extends the original post
- 3 – reply is posted that adds new information to original post to extend the discussion (e.g., correction to information with a citation of source, additional content or example of concept, application of concept to other areas)

Organization and Mechanics

- 0 – no reply or several errors are present in idea organization, sentence structure, grammar, and/or spelling
- 1 – some errors are present in idea organization, sentence structure, grammar, and/or spelling
- 2 – no errors are present in idea organization, sentence structure, grammar, and/or spelling

Chapter Quizzes

(18% of Overall Course Grade). Quizzes covering content from the assigned chapters in the S&S text will be given each week during the semester (see Course Calendar for dates and chapters). Quizzes will consist of questions in multiple-choice format, and questions will be drawn from textbook readings. The

quizzes are timed and must be completed independently in the same session they are begun. Students may not seek assistance from other students on quizzes. Direct all questions to the professor.

Synthesis Essays

(21% of Overall Course Grade). Students will critically evaluate the assigned course readings pertaining to the history of psychology and synthesize information across them in their responses to essay prompts at three points during the semester. Each essay should include a thorough explanation written in the student's own words of information pertaining to the key topics in the prompts. Essays should include a brief summary of information pertaining to each key topic, the student's own critical analysis of the key topics, and an integration across sources of how they fit in with the broader historical context. A full reference written in APA style of the sources used in the essays should be included at the end of each essay in an APA style Reference list. The synthesis essays will be graded using prompt-specific rubrics provided in class.

Research Paper

(23% of Overall Course Grade). Throughout the course of the semester, students will work on assembling information that leads to the completion of a 15 to 20-page research paper on a key development in the history of psychology. The research paper should be formatted in APA style. The title page and reference page are not included in the page count, and an abstract is not required. The assignments leading up to the development of the paper are worth 200 points total and include the submission of possible research topics (10 points), summaries of 3 sources (30 points), summaries of 3 additional sources (30 points), summaries of 3 additional sources (30 points), summary of a recent empirical article related to the development (10 points), and the final research paper (100 points). The final paper should include a minimum of nine (9) scholarly sources beyond those included as course content. Information from the sources should be synthesized by topic (not merely listed by source) and presented in chronological order to create an explanation of the development of ideas related to the topic.

Examinations

(18% of Overall Course Grade). Two exams will be given during the semester at midterm and course completion. These tests will cover content from the assigned chapters and activities listed in the Course Calendar. Students may use textbooks, notes, and online resources when completing the exams. However, all exams must be completed independently with no assistance from other people including other students and tutors. Direct all questions related to exams to the professor of the course.

Students should use a hardwired internet connection, NOT a wireless internet connection when completing exams. Wireless connections "blink," and when they do, students will be exited from the exam and will not be allowed to re-enter it. If students are kicked out of an exam unexpectedly, email the professor immediately. To reduce the likelihood of this occurrence, physically plug the computer into the wall port with an internet cable.

Sexual Violence at A&M-Central Texas

Sexual violence is a serious safety, social justice, and public health issue. The university offers support for anyone struggling with these issues. University faculty are mandated reporters, so if someone discloses that they were sexually assaulted (or a victim of Domestic/Dating Violence or Stalking) while a student at TAMUCT, faculty members are required to inform the Title IX Office. If you want to discuss any of these issues confidentially, you can do so through Student Wellness and Counseling (254-501-5955) located on the second floor of Warrior Hall (207L).

Sexual violence can occur on our campus because predators often feel emboldened, and victims often feel silenced or shamed. It is incumbent on ALL of us to find ways to actively create environments that tell predators we don't agree with their behaviors and tell survivors we will support them. Your actions matter. Don't be a bystander; be an agent of change. For additional information on campus policy and resources visit the [Title IX webpage](https://www.tamuct.edu/compliance/titleix.html) [https://www.tamuct.edu/compliance/titleix.html].

Students should paraphrase all information and provide the appropriate citations.

All text and citations submitted for course credit must follow the guidelines of the *Publication Manual of the American Psychological Association* (7th ed.).

Late Work:

Late work will receive a grade penalty. A 25% penalty per day will be imposed on all assignments submitted after the deadline. Specifically, assignments submitted after the deadline on the due date will receive a 25% penalty, assignments submitted more than 24 hours after the deadline will receive a 50% penalty, assignments submitted more than 48 hours after the deadline will receive a 75% penalty, and assignments submitted more than 72 hours after the deadline will receive no credit though the professor will still provide feedback on all submitted assignments.

Recommended Academic Strategies:

1. According to the federal definition of a credit hour, students should spend "not less than one hour of classroom or direct faculty instruction and a minimum of two hours out of class...for one semester hour of credit" (<http://www.sacscoc.org/subchg/policy/CreditHours.pdf>). For a 3-credit hour class that is delivered fully online, students should spend at least **17 hours on coursework per week for an 8-week course**. Bear in mind that this guideline is for an average class. Some students may find this course challenging and may require *significantly more time* to grasp the concepts and complete the assignments. Plan accordingly.
 - a. Research indicates that spaced practice is better than massed practice when learning new information. Thus, spending 3 hours a day for 6 days a week on coursework is better for your learning and your grade than 'pulling an all-nighter.' Adjust your schedule accordingly.
 - b. Begin each module the day it opens. The course requirements are too time-demanding and labor-intensive to wait until the last day an assignment is due to begin work.
2. Be professional and use proper netiquette (i.e., internet etiquette) in all course correspondence. Your college education is grooming you for a professional career.
 - a. Use standard English in all of your communications. Do not abbreviate or use texting shortcuts (e.g., OMG! R U kidding. ROFL!). Spell check, revise, and edit your messages before sending them. Use proper punctuation and capitalization.

- b. Be polite and respectful of others. Do not use all UPPERCASE LETTERS, which is equivalent to shouting. Avoid sarcasm and irony because they are easily misinterpreted by the reader. Do not 'flame' others by sending negative or hurtful comments; though the reader cannot see you, you are not anonymous.
 - c. Remember that you are individually accountable for all your messages and online actions. Treat all of your interactions with others in class as you would in your future professional career.
- 3. Pay attention to the percentage of your grade each assignment is worth. Simply doing well on the exams will not allow you to pass the course. Students must submit all assignments every week to do well in the course.
- 4. Complete and submit course assignments on time. Save your work often and on multiple media (e.g., hard drive, jump drive), so you do not lose your work.
- 5. Stay focused. Just as in a face-to-face class, reduce as many distractions as possible when working on course assignments. Turn off all electronic devices such as cell phones, music players, gaming equipment, etc. Postpone business not related to the course until you have completed your assignments for the day.
- 6. Keep me informed. At the first sign of confusion or difficulty, request assistance in Study Hall. Unless I hear from you, I will not know how to help you.
