

DOUGLAS DYER, Ph.D.
Curriculum Vita

Department of Accounting, Finance & Economics
Texas A&M University – Central Texas
1001 Leadership Place
Killeen, Texas 76549

Education

Ph.D. in Economics, University of Houston, August 1987
M.A. in Economics, University of Houston, July 1985
B.A. in Psychology, The Colorado College, December 1978

* Additional Graduate Work: 18 graduate hours in Finance (Case Studies; Financial Management; Financial Markets and Institutions; Financial Statement Analysis; International Finance; Investments). 3 graduate hours in Accounting (Fundamentals of Accounting). 3 graduate hours in Marketing (Fundamentals of Marketing).

Dissertation

Title: “An Experimental Analysis of Auction Theory”
Committee: Dr. John Kagel (chairman), Dr. Dan Levin, Dr. Ron Harstad

Experience

Associate Professor of Finance and Economics, Texas A&M University-Central Texas (TAMU-CT), September 2009 to present. {I have taught 80%+ finance courses, mostly at the graduate level}
Associate Professor of Finance and Economics, Tarleton State University, August 1999 to August 2009. {I taught a wide variety of (mostly graduate) Finance and Economics classes to support undergraduate and graduate degree programs.
Associate Professor, The University of Central Texas, August 1995 to August 1999. {I taught 50% finance courses and 50% economics courses at CTC, both graduate and undergraduate.}
Assistant Professor, Rhodes College, September 1993 to June 1994.
Assistant Professor, Memphis State University, September 1987 to June 1993.

Most Significant Teaching Accomplishment

Beginning in 2000, in direct response to student requests, I began to actively support a Finance concentration within the MBA program, almost single-handedly. The concentration required the students to take **5 purely elective graduate finance courses**. Because these courses are quantitative, difficult and were not required in any of our Masters degree plans, many colleagues said I would never attract an ongoing cadre of interested students large enough for these courses to make. But I did so, through three “generations” of MBA students, all the way up the introduction of the MBA Cohort program. Most of those years I was teaching 5 or more different graduate finance courses per year, including many I had to create from scratch. But now there are at least 10 TCT or TAMU-CT graduates out in the world who have taught finance courses, at the baccalaureate level, because they were able to earn 18 graduate hours of finance. The majority of those graduate finance courses were developed and taught by me. I am very, very proud of this accomplishment.

Other Recent Accomplishments

Selected by peers to membership in TAMU-CT's first Faculty Senate (2009). I remained an elected Senator until September, 2015

Selected by peers to membership in TAMU-CT's first Tenure and Promotion Committee.

Selected by peers to membership on the important Faculty Advisory Committee, 11/2009.

Participated in writing drafts 1-3 of the TAMU-CT Faculty Handbook.

Actively participated from the beginning in the design and implementation of the Cohort MBA program.

Designed one of the first two courses offered in the MBA Cohort Program's first semester (FIN 500: Foundations of Financial Systems)

Created the spreadsheet template used for the COBA Course Rotation planning document.

Implemented a spreadsheet approach to course scheduling that has greatly improved the efficiency of COBA schedules.

Regularly participate in student recruiting functions during the last several years to help achieve the mandated student enrollment number for TAMUCT to become a reality.

Current Committee Membership

Faculty Scholarship Review Committee

COBA Tenure and Promotion Committee
