Continuing Education Provider		
Clinical Professional Experience	October 2015- Present Healthy Minds Counseling Center Owner/ Supervisor Clinical Psychologist Full time: 40-60hrs per week	Killeen, Tx.

- Clinical Psychologist at Healthy Minds Counseling Center (HMCC). I work as an independent practitioner responsible for carrying out professional duties in accordance with best practice, psychological theories, methods, and techniques. I perform bio-psychosocial evaluations, and analyze data when making clinical assessments of patients. When formulating my diagnostic impression, I integrate information in a clear and concise manner. As the clinical expert, I have a full range of knowledge of psychodynamics, psychopathology, human growth and development. I also have expert knowledge of clinical and counseling psychology, substance abuse treatment, and the biological neurological bases of mental health disorders. I provided treatment for a full range of mental health disorder for individuals, couples, and families in the local area.
- Clinical Supervisor- I screen, interview, and refer, if necessary, special problem cases beyond the professional capacity of the clinical staff. As a clinical expert and a senior psychologist, I deal with highly complex, co-morbid diagnoses, and critical cases. I handle the complex cases that require complex and multidisciplinary treatment. I also provide supervision and training to the clinical staff.
- I am responsible for developing, implementing, evaluating, and improving patient care and processes. I am also responsible for monitoring and reviewing the outcomes, efficiency, productivity and implementation of our program. I correct internal and external program issues affecting our program. I provide leadership in developing, implementing, evaluating, and improving processes and procedures to monitor effectiveness and efficiency of our program.

Clinical Professional Experience May 2006- October 2015 **Army Substance Abuse Program (ASAP)** **Fort Hood, Tx.**
Senior Counseling Psychologist (GS-0180-12 in training for GS-0180-13)
Full time: 40hrs per week

- Senior Substance Abuse Counseling Psychologist at the Fort Hood Army Substance Abuse Program (ASAP). Performed evaluation and treatment duties for active duty soldiers dealing with substance related disorders in group form as well as individual sessions. Clinical assessments, treatment planning, case management, case consultations, as well as managing the high-risk cases.
- Moreover, as a team leader, I led a team that performs complex, highly technical, administrative, and professional psychosocial work. I perform qualitative and quantitative analyses of pertinent data for evaluation of patient progress. My diagnosis impressions follow established criteria in DSM 5 and my treatment plans are modified to meet the changing needs of my clients. I provide strategic interventions and relapse prevention counseling to clients. I am also the primary case manager for treatment of about 30 clients on caseload.
- I also developed and implement training for clinical staff during in-service training. I provided orientation, training, and educate to my patients and their commanders. I have coordinated inter-departmental as well as in-service for formal and informal training. I maintained my licenses and certifications by attending continuing education conferences.

Management Experience

April 2011- February 2013, **Army Substance Abuse Program (ASAP)**
Full time: 40hrs per week

- I have experience in supervisor duties such as conducting the “at risk” meetings as well as team meetings. As a senior counselor, I have trained numerous interns as well as full time staff, peers, and other clinicians over a six-year period. While training employees, I was able to provide clinical supervision, case consultations, and treatment plan reviews. I oversaw their caseload, ensured their therapeutic techniques were clinically sound, and assisted them with difficult cases. Three of the interns I supervised were later hired in our clinic as counselors. Additionally, I have formal training and education in clinical supervision and management skill conducted by department of social work in 2009 and through formal education in my Ph.D. clinical program. Other supervisor duties I have experience in include clinical chart audits and reviews.
- As a senior clinician, I have assisted in the development a multi-modality comprehensive rehabilitation and treatment program designed to treat alcohol and drug abuse related problems of active duty military and other eligible personnel. I have also implements professional service plans, business plans, and standard operating procedures in accordance with Joint Commission standards, IMCOM, and Federal Law. Moreover, I have assisted in the development and implementation of peer review and professional improvement & quality assurance in an effort to better our program.
- Moreover, as a team leader and supervisor in training, I have planned and schedule ongoing work to be accomplished by subordinates. I have also assigned and manage responsibilities as well as reported to the clinical director about ASAP missions. I have adjusted staffing levels and work procedures as mission required. I have made decision regarding methodologies to use in achieving work goals and objectives. I have worked on finding ways to improve production and to increase the quality of the work at ASAP. Furthermore, I advice, counsel, and instruct employees on both work and administrative matters. I have assisted in resolving complaints and problems from employees at various levels. I have also helped in developing performance standards when dealing with NSPS. Finally, after identifying developmental and training needs of staff members, I have implemented training opportunities to improve their clinical skills.

Supervisor Training

October, 2011, **Houston Galveston Institute: Supervision Training Course (40hrs per week)**

- Developed effective supervision processes and effective supervision relationships
- Exposed to various models of supervision and supervisor techniques.
- Gained knowledge and training that leads to the National Clinical Supervisor- American Association for Marriage and Family Therapy (AMMFT) approved supervisor of licensed Marriage and Family Therapist (LMFT) nationwide.
- Training also is recognized and approved course as required by the Texas Board Clinical Supervisor of Licensed Professional Counselors (LPC-S).
- Meets standards and leads to LMFT-S Texas Board Clinical Supervisor of Licensed Marriage and Family Therapists.

Leadership Training

Jan 2013- April 2013, **Civilian Leadership Development Program (CLDP) (3months)**

- Received effective leadership training as well as supervision and management training.
- Completed training in local Fort Hood resources and human resources applicable when supervising government employees.
- Gained knowledge and training in effective customer service, formal report writing, program management, and system analysis.
- Completed phase I, II, III of Civilian leadership training.

Supervisor & Case Consultant

November, 2011- July 2014, **Substance Abuse Consultant at the Family Life Center: Formal Supervision and Case Consultation (20hrs per week)**

- I am the substance abuse expert and member of the supervision and consultation team at the Family Life Center (FLC) in Fort Hood, Texas. As the substance abuse expert of this panel, I develop graduate interns as well as post graduate interns seeking licensure as clinicians in the field of psychology. I provide individual as well as group supervision involving high risk cases and crisis management. During our supervision meetings, I train supervisees on various clinical models, interventions, and other clinical techniques in an effort to assist their growth into competent, sound, and exceptional clinicians. During the case consultations, I plan, organize, and facilitate meetings, where a panel of supervisors, to include myself, reviews the intern's cases in a productive and effective manner. I oversee professional counseling students and supervise their therapy skills as well as monitor their treatment.
- In the substance abuse field, I have experience, in crisis management and intervention. Therefore, I know how to prioritize and manage urgent and acute cases. I have supervised professional clinicians with complex, high risk, cases dealing with suicidal and homicidal situations.

Leadership Experience

July 1996- Mar 2003, **Noncommissioned Officer (NCO) Full time: 40hrs per week**

- Developed, trained, and managed over twenty soldiers as a professional noncommissioned officer. For over seven years, I was in charge and responsible for teaching soldier become how to become noncommissioned leaders. I provided guidance, and inspiration for career and personal development to lower enlisted soldier under my command for many years. I motivated and influenced soldier to accomplished mission and tasks in an effective manner.
- Managed personnel, time, and materials successfully to accomplish missions, task, and other assignments as evidenced by many leadership awards, certificated, and recognitions. For example while in leadership training, I graduated with honors and received the commandants leadership award of excellence.
- While in the United States Army, I had the opportunity to enhance and strengthen my leadership and management skill by attending leadership school and other trainings that specialized in molding great leaders.
