Visitors in Hazardous and Restricted Areas

Approved: July 28, 2014
Revised: September 13, 2017
November 5, 2020
February 26, 2026
Next Scheduled Review: February 26, 2031

Procedure Summary

To protect the health and welfare of visitors on the Texas A&M University-Central Texas (A&M-Central Texas) campus and the integrity of the University's business operations, only approved visitors shall be allowed in hazardous or restricted locations.

Definitions

For purposes of this SAP, the following definitions apply:

1. **Visitor** - any person (including minors) who is neither a student nor an employee of A&M-Central Texas or lacks authorization to be in a specific area.
 2. **Approved visitor** - any person (including minors) who is neither a student nor an employee of A&M-Central Texas and has received proper authorization to be in a specific area.
-

Procedure

1. HAZARDOUS LOCATIONS

- 1.1 A hazardous location is any location where safety and health hazards potentially exist.

At A&M-Central Texas, these areas have been identified as mechanical/equipment/electrical rooms, shops, utility plants, elevator control rooms, laboratories, laboratory preparation rooms, custodial supply closets, any storage area containing hazardous or flammable materials, roofs, areas under construction or remodeling, and other locations designated by Facilities Services, the University Police Department, department heads, or designee having domain.

2. RESTRICTED LOCATIONS

- 2.1 A restricted location is any location where access is limited because of risk to a business function or security.
- 2.2 At A&M-Central Texas, these areas have been identified as police department offices, arms room, evidence storage and holdings rooms, computer/server rooms, IDF/MDF rooms, business office and cash handling areas, records areas, control rooms, and other locations designated by department heads, or designee having domain.
- 2.3 Restricted locations for research include any areas where research is being performed that is export-controlled or has other access restrictions, such as a Technology Control Plan for research equipment or data.

3. VISITOR ACCESS

- 3.1 Any person seeking access to a hazardous or restricted area must receive authorization from the department head, or designee of that area in order to gain entry. Foreign nationals may be subject to Restricted Party Screening prior to access to restricted research locations.
 - 3.1.1 Visitors must have written authorization from the department head, or designee listing the name of the visitor, the name of the escort, and area(s) to which access is permitted.
- 3.2 Approved visitors shall be under the direct supervision of the appointed escort at all times and accompanied to and not left alone in any area identified as a hazardous or restricted location.
- 3.3 Approved contractors are not required to submit to this process.

4. RESPONSIBILITIES

- 4.1 Facilities Services shall:
 - 4.1.1 Assist departments in identifying hazardous and restricted areas.
- 4.2 Departments shall:
 - 4.2.1 Identify and designate hazardous and restricted areas within their purview and restrict visitor access to said areas by establishing appropriate security measures such as door locks and key cards to control access.
 - 4.2.2 Ensure that students, faculty, and staff under their direction are aware of and comply with this procedure.

4.3 Employees shall:

4.3.1 Control access to hazardous or restricted locations. It is important that an employee does not inadvertently invite an unauthorized visitor into a hazardous or restricted location.

4.3.2 Report any unauthorized entry of persons to identified areas to the appropriate authority.
